39. UNEMPLOYMENT INSURANCE QUALITY CONTROL PROGRAM

Priority: Agency Determination

Legal Authority: 42 USC 501 et seq

CFR Citation: 20 CFR 602

Abstract: The Employment and Training Administration (ETA) is designing a quality control (QC) program for the State Employment Security Agency (SESA) Unemployment Insurance (UI) system. The Department's Fiscal Year (FY) 1985 Budget includes provision for a UI QC program. The establishment of a UI QC program is a major initiative of the Secretary of Labor to reduce administrative errors and claimant abuse in the UI system. The ETA is proposing to issue regulations to establish a permanent QC program in the SESA UI system

40. ● TRADE ADJUSTMENT ASSISTANCE FOR WORKERS

Priority: Agency Determination

Legal Authority: Deficit Reduction Act of 1984 Section 2671

CFR Citation: 20 CFR 635

Abstract: This regulation would implement provisions of the Deficit Reduction Act of 1984 amending the Trade Act of 1984. The legislation amends Section 233(a)(3), to enable workers to collect the extra 26 weeks of Trade Adjustment Assistance (TRA) beginning with the first week the worker enters training if the training has not been approved until after the last week of entitlement to basic TRA. It also amends Sections 237 and 238 of the Trade Act to increase the maximum job search allowance to $800 (from $600) and the maximum lump-sum relocation allowance to $800 (from $600).

41. ● IMPLEMENTATION OF THE DEFICIT REDUCTION ACT (P.L. 98-396) PROVISIONS FOR EXCHANGE OF INCOME AND ELIGIBILITY INFORMATION AMONG FEDERALLY-ASSISTED INCOME MAINTENANCE PROGRAMS

Priority: Agency Determination

Legal Authority: PL 98-369, Subtitle C

CFR Citation: 20 CFR 603

Abstract: P.L. 98-369 (The Deficit Reduction Act) contains provisions which establish an income and eligibility system for exchange of information among state agencies administering programs for AFDC, Medicaid, Food Stamps, SSI, UI and other Grants to states program under Titles I, X and XIV of the Social Security Act. The provisions relate to the use of social security numbers, utilization and exchange of information, reimbursement of costs, accounting systems and protection of data. The provisions for the income and eligibility system take effect for all agencies April 1, 1985, unless the state agency submits a plan of good faith effort requesting waiver of the requirement until September 30, 1986. An interdepartmental task force has been established to develop and publish regulations implementing the Deficit Reduction Act. Representatives from the Departments of Health and Human Services, Agriculture, Labor as well as OMB are serving on the Task Force. Plans are to publish each Department's regulations under a single statement of objective and scope.

42. WORK INCENTIVE PROGRAM FOR AFDC RECIPIENTS UNDER TITLE IV OF THE SOCIAL SECURITY ACT

Priority: Agency Determination

Legal Authority: PL 98-369 Deficit Reduction Act of 1984, Sec. 2631 & 2634

CFR Citation: 29 CFR 56.20(b); 29 CFR 56.51(b)(1); 45 CFR 224.20(b); 45 CFR 224.51(b)(1)

Abstract: The law which prescribes various exemptions from registration for employment by AFDC applicants and recipients contains no exemption for women in the later stage of pregnancy when they are least employable. The amendment exempts women expecting to give birth in the month of registration or the next 3 months.

The law presently provides that where a child's caretaker is sanctioned for failure to participate in WIN, that person may not continue to receive the child's benefits which must be paid to a protective payee. This has been difficult to implement.

The amendment permits States to continue paying the sanctioned caretaker on behalf of a child but only after they have been unable to locate a suitable replacement and a delay will affect the child adversely.

Both revisions will conserve WIN staff time and program funds.

There is no notice of proposed rulemaking or NPRM comment period. This amendment is a conforming regulation and only paraphrases the statute Congress intended to be effective by October 1, 1984.

Priority: Agency Determination

Legal Authority: 29 USC 1024; 29 USC 1030; 29 USC 1135

CFR Citation: 29 CFR 2520

Abstract: ERISA and the regulations issued thereunder, require the administrator of an employee benefit plan, unless otherwise exempt, to file annual reports relating to the financial status and activities of the plan. Among other things, the annual report is required to include statements and schedules concerning the assets of the plan and transactions involving those assets. This regulation will provide an alternative method of compliance with the annual reporting requirements for certain employee benefit plans which invest in entities, the underlying assets of which constitute plan assets under the Department's "Plan Assets" regulation.

61. PATTERN OF VIOLATIONS

Legal Authority: 30 USC 814(e); 30 USC 957

CFR Citation: 30 CFR 104

Abstract: The Mine Act provides for issuance of withdrawal orders to mines having a pattern of serious violations until the mine is completely free of such violations. A 1980 proposed rule would have set criteria for determining if a "pattern of violations" exists. Commenters generally opposed the proposal stating that it was complex, too statistically oriented, and vague. In addition, since the proposal was published, the statutory concept of "significant and substantial violations" (S&S) has been redefined by the Federal Mine Safety and Health Review Commission. S&S violations are a critical element in the statutory provisions. For these reasons, MSHA has withdrawn the 1980 proposal and issued an ANPRM for public comment which outlines new procedures for implementing the statutory provision for pattern of violations.

CFR Citation: 30 CFR 37

Abstract: This would be a new Part. Under existing regulations, certain equipment must be approved by MSHA prior to use in underground mines. In lieu of MSHA testing, the proposal would permit manufacturers or independent laboratories to test certain equipment prior to their issuance of the Agency's approval.

76. ● MINE PLAN APPROVALS

Priority: Agency Determination

Legal Authority: 30 USC 957

CFR Citation: 30 CFR Chapter I

Abstract: Members of the mining community have recommended a proposal which they believe would encourage more cooperative efforts in developing mine plans and provide for an equal appeal procedure for disputed matters. Specifically, the proposal would (1) establish time frames for MSHA and mine operator actions on mine plans, (2) specify that the agreed upon provisions would take effect immediately, (3) provide that citations be issued regarding plan provisions upon which the operator and District Manager cannot agree, (4) establish guidelines for the abatement of such citations and (5) provide for the review of these citations before the Federal Mine Safety and Health Review Commission. As an alternative to this proposal, MSHA could establish an intra-agency appeal panel to hear disputes. This panel would include MSHA personnel with expertise in the subject matter addressed by the plan provision in dispute. At this time MSHA has made no decisions concerning the merits of the AMC/BCOA proposal. However, the Agency recognizes that there might be some problems associated with the plan approval process. However, MSHA believes that comments from (cont)

Priority: Agency Determination

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 56.5-37 to 5-47; 30 CFR 57.5-37 to 5.47

Abstract: MSHA is reviewing its existing metal and nonmetal radiation (radon daughters) standards. The Agency has identified specific issues with respect to possible regulatory action. An ANPRM was published in the Federal Register (01/29/85, 50 FR 4144) inviting public comments. The purpose of this review is to evaluate the adequacy of the existing standards in providing appropriate protection for miners exposed to radiation hazards in surface and underground operations.

79. ● APPROVAL CRITERIA FOR DIESEL-POWERED EQUIPMENT FOR UNDERGROUND COAL MINES

Priority: Agency Determination

Legal Authority: Section 508 of the Federal Mine Safety and Health Act of 1977; 30 USC 957

CFR Citation: 30 CFR 36

Abstract: The atmosphere of underground coal mines contains methane gas which can quickly accumulate in explosive concentrations. To protect against gas ignitions and mine explosions, the Federal Mine Safety and Health Act of 1977 requires that mining equipment be built in accordance with certain performance standards. To administer these requirements, MSHA has established a mining equipment approval system, including evaluation criteria. At present, approximately 88 underground coal mines are using about 1100 pieces of diesel equipment. Existing MSHA approval criteria do not, however, apply to this equipment. Existing MSHA regulations (30 CFR 36) apply only to diesel equipment for noncoal mines and tunnels. MSHA has encouraged coal mine operators to voluntarily use diesel-powered equipment approved for noncoal mines. This effort has not been completely successful. Cost estimates have not been calculated. However, costs could arise from the purchase and maintenance of approved diesel equipment and for environmental controls. The major benefit would be increased productivity resulting from elimination of electric trailing cables, and increased (cont)

80. ● MSHA REGULATIONS FOR APPROVAL OF EQUIPMENT—UPDATING FEES ASSOCIATED WITH EQUIPMENT APPROVALS

Priority: Agency Determination

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 11 to 36

Abstract: Existing regulations require that certain equipment be approved by MSHA for use in underground mines. Currently, MSHA tests for a fee, all equipment submitted by manufacturers prior to the issuance of an agency approval. Most of the approval regulations have not been revised in nearly 20 years, and accordingly, the fees do not accurately reflect current costs to the government.

82. REVIEW OF SAFETY AND HEALTH STANDARDS APPLICABLE TO COAL MINING

Priority: Agency Determination

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 70; 30 CFR 71; 30 CFR 75; 30 CFR 77

Abstract: MSHA plans to review these standards to: (1) clarify and update existing standards; (2) eliminate unnecessary standards; (3) reduce recordkeeping burdens on the industry; and (4) incorporate technological advances. MSHA has initiated a review of all safety standards for underground coal mines. As part of this review, MSHA is specifically suggesting for regulatory changes to roof support, explosives, and the ventilation requirements in sec 75.316.

83. MINER PARTICIPATION IN THE RESPIRABLE DUST SAMPLING PROGRAM

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 70; 30 CFR 71; 30 CFR 90

Abstract: This regulatory action is removed from the Agenda. The proposal, which would amend MSHA's coal mine respirable dust regulations to permit miners' representatives to participate in the existing sampling programs, was based on the Agency's experience prior to the 1980 revision of the sampling programs. Compliance with the revised programs has improved, resulting in greater confidence in the overall dust program.

84. CONSTRUCTION WORK AT SURFACE AREAS OF MINES: SAFETY, HEALTH STANDARDS

Priority: Undetermined

Legal Authority: 30 USC 811(a)(8)

CFR Citation: 30 CFR 110

Abstract: In accordance with section 101(a)(8) of the Mine Act, MSHA is evaluating the practicability and necessity of promulgating separate safety and health standards for construction activities at surface mines. This agenda item is being re-analyzed in light of MSHA's comprehensive standards review project. Where appropriate, the uniqueness of construction-type hazards and the adequacy and extent to which they are currently addressed will be issues of consideration in each of the substantive areas under review. When the standards review project is completed, the Agency will determine if separate publication of standards applicable to surface construction is warranted. This entry is removed from the Agenda.

89. ENFORCEMENT OF NONDISCRIMINATION ON THE BASIS OF HANDICAP IN DEPARTMENT OF LABOR PROGRAMS

Priority: Agency Determination

Legal Authority: 29 USC 794

CFR Citation: 29 CFR 33

Abstract: Before the 1978 Amendments to Section 504 of the Rehabilitation Act of 1973, Congress had not held Federal Agencies to the same standard of accessibility to which recipients of Federal assistance were held. This proposed regulation would not require DOL to take any action when it can demonstrate that taking such action would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. This regulation would require, however, that persons with handicaps, who are eligible for and who can achieve the purpose of a federally-conducted program or activity, be allowed access to that program or activity. Effective communication would also be required with applicants, participants, personnel, and members of the public that have impaired vision or hearing.

Legal Authority: 5 USC 301; 40 USC 486(c); 41 USC 401; EO 12352

CFR Citation: 48 CFR 29

Abstract: Acquisition policies and procedures of the Federal Government have been developed in the past with little regard to uniformity among agencies. The result of this was a wide range of different procurement policies which caused contractors considerable confusion. The Office of Federal Procurement Policy, working with other agencies and the public, developed a uniform and simplified procurement regulation known as the Federal Acquisition Regulation (FAR) which became effective April 1, 1984. However, because the FAR does not contain all the procedural details for implementing specific policies, agencies are authorized to issue their own supplementary regulations. The Department of Labor Acquisition Regulation is being issued to implement the FAR where required and to supplement the FAR, with policies unique to DOL in areas where there is no FAR coverage. The DOLAR implements the FAR to the extent necessary incorporating public comments where appropriate, without duplicating, paraphrasing or contradicting the FAR. The DOLAR adheres to the FAR structured organization of subject matter and complies with the (cont)

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1450

Abstract: Existing OSHA standards are designed to protect employees who are engaged in work involving exposure to only a few toxic chemicals during relatively standardized, continuous or repetitive processes. In contrast, laboratory workers are exposed to a multitude of toxic substances under frequently changing or unpredictable conditions. OSHA will examine whether prudent work practices and protective equipment, chosen for the specific facility and task, are more effective, feasible and economical for laboratory work than adhering to OSHA's current substance-specific exposure standards.

95. CARCINOGEN POLICY

Priority: Major, Task Force

Legal Authority: 29 USC 653; 29 USC 655; 29 USC 657

CFR Citation: 29 CFR 1990

Abstract: The Carcinogen Policy describes the criteria and procedures OSHA will use to identify, classify, and then regulate carcinogens. The Policy also establishes a process for screening chemicals and for setting priorities for potential rulemaking activities. The validity of the scientific criteria set forth in the policy and the cost-effectiveness of the rule are being reexamined. The original standard was issued in 1980 before the Supreme Court "benzene" decision on significant risk. Thereafter, a final rule deleting provisions of the Carcinogen Policy that were inconsistent with the benzene decision was published on 01/19/81 (46 FR 4889). A proposal was published on 01/23/81 (46 FR 7402) to permit alternatives to the risk analysis section of the carcinogen policy to be addressed. The proposal was withdrawn on 03/27/81 (46 FR 19000). An advance notice of proposed rulemaking was published on 01/05/82 (47 FR 187) with comments due by 04/05/82. That document also proposed to stay the publication of the candidate and priority lists. The final stay was published on 01/04/83 (48 FR 241). As part of its evaluation of the policy, OSHA is reviewing the public comments received in response (cont)

96. COTTON DUST

Priority: Major

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1043

Abstract: This standard, issued in 1978, was challenged in the courts and has been stayed as it applies to certain industrial sectors. In addition, where the standard is in effect, there have been problems with the device that is used to measure cotton dust, control methods specified by the standard may not be cost-effective, and there is question about the demonstration of a significant risk of disease in some of the industry sectors covered by the standard. Data have been collected to determine how and to what extent the rule should be revised. Two ANPRMs have been published: 03/31/81 (46 FR 19501) and 02/09/82 (47 FR 5906). The second ANPRM modified and expanded the issues set forth in the first ANPRM. On 08/13/82 (47 FR 35255) OSHA proposed to stay enforcement of the current standard for knitting operations. A notice of final decision on the stay was published 02/04/83 (48 FR 5267). A proposal to revise the standard for cotton dust was published 06/10/83 (48 FR 26962). Public hearings were held during September/October 1983. On 02/23/84 (49 FR 6717) OSHA published an administrative stay on the effective date for implementation of the engineering and (cont)

Abstract: The present respiratory protection standards have been in place for more than 10 years and do not take into consideration the current state-of-the-art for respiratory protection. In addition, the general industry standard for respirators contains redundancies and includes several advisory provisions which should be eliminated or changed. OSHA is reviewing the current standards and intends to propose revisions following its analysis of the standard and other comments and information received in response to the ANPRM published 05/14/82.

98. ETHYLENE DIBROMIDE (EDB)

Priority: Major

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1048

Abstract: Recent scientific studies have reported that ethylene dibromide causes cancer when administered orally, by inhalation and by skin application in laboratory animals. In addition, other studies have shown the chemical to be a mutagen, teratogen and testicular toxin in experimental animals. On the basis of these reports, OSHA has determined that its current permissible exposure limit of 20 ppm does not provide exposed workers adequate protection against cancer and other adverse health effects. A proposed standard for ethylene dibromide was published 10/07/83 (43 FR 45956). Public hearings were held in February 1984. OSHA is currently in the process of decisionmaking on the provisions to be included in the final standard.

99. LEAD - RECONSIDERATION OF WHOLE STANDARD

Priority: Major

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1025

Abstract: The current standard for occupational exposure to lead was promulgated in 1978. It sets a PEL of 50 micrograms of lead per cubic meter of air (50 ug/m3), and requires the use of feasible engineering or workpractice controls. There are serious questions concerning significant risk, feasibility and cost-effectiveness of the standard in certain industries; therefore, OSHA has announced its intention to review and reconsider the regulation.

100. LEAD - COVERAGE OF THE STEVEDORING INDUSTRY

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1025

Abstract: Circumstances unique to the stevedoring industry may make the application of the OSHA Lead Standard, in its present form, inappropriate. Therefore, OSHA has proposed to exempt this industry or to administratively stay application of the entire standard to this industry while the Agency examines (1) whether the stevedoring industry should be subject to this, or any lead standard and (2) if the industry should be subject to a different lead standard, what form that standard should take. This action has been combined with RIN 1218-AA11 and publication of action on this item will occur at the time action is taken on item AA11.

101. ACCESS TO EMPLOYEE EXPOSURE AND MEDICAL RECORDS

Legal Authority: 29 USC 655(b), 29 USC 657

CFR Citation: 29 CFR 1910.20

Abstract: The regulation, promulgated in May, 1980 (45 FR 35212), requires employers to preserve and maintain exposure and medical records pertinent to an employee's occupational exposure to toxic substances, and to assure access to these records by employees, designated employee representatives, and OSHA. OSHA has reviewed the regulation and has proposed certain modifications including revision of the definitions of "toxic substance" and "exposure records", changes in the scope and application of the regulation and additional trade secret protection provisions.

102. ASBESTOS

Priority: Major

Legal Authority: 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1910.1001

Abstract: OSHA has announced its intention to revise this standard because data indicate that the present OSHA permissible exposure limit (PEL) may not adequately protect workers from asbestos-related diseases. The revision will include a change in the PEL and other appropriate modifications. On November 4, 1983, OSHA published an Emergency Temporary Standard (48 FR 51086) which immediately reduced the PEL to 0.5 fibers/cc. The ETS was challenged in the U.S. Court of Appeals for the 5th Circuit, and was stayed pending judicial review on 11/23/83. The review was completed on 3/7/84. At that time the Appeals Court held the ETS to be invalid and ordered enforcement of the ETS permanently stayed. OSHA has published a proposal to revise the current standard on 04/10/84 (49 FR 4116). Public hearings were held in June 1984. OSHA is in the process of analyzing all of the information contained in the rulemaking record prior to making a decision regarding the provisions to be included in the final standard.

103. METHODS OF COMPLIANCE

Priority: Major, Task Force

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1000(e); 29 CFR 1910.134(a)(1)

Abstract: OSHA's policy concerning the use of engineering controls and respirators was targeted for review by the President's Task Force on Regulatory Relief in 1981. Current OSHA regulations require that employers implement feasible engineering controls to maintain air contaminant concentrations in the workplace at or below the prescribed permissible exposure limits. The use of respirators is permitted only in those cases where engineering controls are not feasible, not yet installed, or not adequate. This policy has been criticized as being inflexible, not cost-effective, and often unnecessary for employee health protection. OSHA believes that any changes to the policy for use of engineering controls must be based on changes that are made to the respiratory protection regulations (29 CFR 1910.134). Proposals regarding revision of the methods of compliance policy will be made after OSHA has made decisions regarding revision of the respiratory protection regulations. Thus, no further regulatory action on this item is expected during the next six months.

Abstract: OSHA is considering amending 29 CFR 1928 (Standards for Agriculture) to require employers to provide sanitation facilities for agricultural employees working in the field. OSHA is taking this action in compliance with an order of the District Court for the District of Columbia and a negotiated settlement with the Migrant Legal Action Program which requires the Agency to make a good faith effort to complete a field sanitation standard or to publish a determination that no such standard is needed.

Priority: Undetermined

Legal Authority: 29 USC 655(b); 29 USC 657

CFR Citation: Not yet determined

Abstract: OSHA has joined with the Environmental Protection Agency (EPA) to solicit additional information concerning production and use of 4,4'-methylenedianiline (MDA), estimates of environmental and occupational exposure, and studies of the toxic and carcinogenic effects of MDA. The two agencies are concerned that the risks from exposure to MDA, a carcinogen in animals, may be significant; hence the agencies are exploring regulatory options under their respective statutory authorities to reduce such risks. In order to conserve resources and to avoid duplication of effort, OSHA and EPA have established a single docket of information on MDA.

107. SAFETY AND HEALTH REGULATIONS FOR SHIPYARD EMPLOYMENT

Priority: Agency Determination

Legal Authority: 29 USC 655 (Occupational Safety and Health Act of 1970); 33 USC 941 (Longshoremen's and Harborworkers Compensation Act)

CFR Citation: 29 CFR 1915, (Recodification)

Abstract: The purpose of this action would be to place unrevised in Part 1915, all OSHA Part 1910 General Industry Standards that are not now located in Part 1915, but that relate to the work undertaken in shipyard employment, thereby creating a vertical standard.

The Action is essentially only bookkeeping, i.e., moving standards, unchanged from one location in the CFR to another -- from Part 1910 to Part 1915. It can therefore be done without a proposed rule, and will be published as a final rule. It will end the long standing confusion over the application of OSHA standards to this industry among employers, employees, and OSHA compliance staff.

As these are existing standards, there are no potential costs. This inclusion project will be coordinated with the project designed to revise Part 1915.

Priority: Agency Determination

Legal Authority: 29 USC 655 (Occupational Safety and Health Act of 1970); 33 USC 941 (Longshoremen's and Harborworkers Compensation Act)

CFR Citation: 29 CFR 1910.16, 29 CFR 1918, (Revision)

Abstract: The purpose of this regulatory action would be to update and revise a standard first issued in 1960. The current language in many instances addresses the hazards to cargo handling involving methods long since abandoned, and fails to address the serious hazards of newer methods. Because so much of the current standard is out of date, compliance is minimal. These revised guidelines will provide both employers and employees with a blueprint for effective and safe workpractices in the cargo handling industry.

No other alternative other than revision is contemplated. The current standard is too outdated to serve as a basis for increased consultation, training or education. The annual cost of the revision is expected to be minimal -- less than five million dollars.

Abstract: One of the greatest hazards associated with concrete and masonry structures in the construction industry is the collapse or failure of the entire structure or its forms and shoring. The catastrophic failures of recent years indicate that revision of the existing standard applicable to such construction operations may be necessary.

Abstract: Employees in grain handling facilities (grain elevators, processing plants, and mills) are exposed to safety hazards associated with fires and explosions. Enforcement personnel have met with difficulties in the application of existing OSHA general industry standards to control these major hazards. OSHA is now developing a proposed standard for grain handling facilities.

Priority: Agency Determination

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910

Abstract: The present Subpart H, Hazardous Materials, standard is out of date and in some respects is oriented towards public safety and property protection. OSHA has been petitioned to cover many other hazardous materials operations where presently it has no standards. It is the purpose of this revision to consolidate the existing standards for flammable and compressed gases by providing general requirements and specific requirements for selected gases which warrant special attention due to their hazards and uses within the industrial environment. The overall intended effect of the revision is to update and simplify the existing requirements while enhancing employee safety and health.

Abstract: This proposal addresses various requirements in the General Industry standards (Part 1910) for either "safety testing" of certain workplace equipment and materials or the use of equipment/materials "certified for safety." It would include many self-regulatory and standards-developing efforts in the private sector and use already existing systems (in private sector or Government) for (1) the accreditation of testing laboratories and third-party certification programs, and (2) the certification for safety of workplace equipment. New Part 1936 would affect only applicants seeking system recognition by OSHA. New Part 1935 would contain those test methods/procedures already specified in OSHA standards or adopted through 6(b) rulemaking. Amended Part 1910 would (1) clarify employer responsibilities, (2) require valid test results or certifications, and (3) provide uniformity in OSHA terminology for several already-existing requirements and definitions. The remainder of Part 1907 would be revoked.

Legal Authority: 29 USC 655

CFR Citation: 29 CFR 1926.550(g)

Abstract: The use of cranes and derricks to suspend personnel in platforms is a hazardous operation that is not currently covered by OSHA Construction Standards. OSHA has issued administrative instructions on this practice, but this alternative to rulemaking has not been successful. This NPRM has been developed to reduce the number of accidents, many of which involve multiple fatalities, that result from equipment inadequacies and failures or improper work practices. Data to determine the potential costs and benefits from this rulemaking are currently being collected by OSHA's Office of Regulatory Analysis.

124. ACCIDENT PREVENTION TAGS

Priority: Agency Determination

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910

Abstract: Standards for accident prevention tags, contained in 29 CFR Part 1910; Subpart J, would be revised to update existing criteria, and to provide more flexibility by correcting problems associated with the specificity of some of the existing requirements. The proposed revision would also recognize the use of symbols or pictographs rather than only written legends, and would ensure that tags are designed and used properly to enhance their function in identifying hazards to employees.

125. LADDERS AND SIMILAR CLIMBING DEVICES (GENERAL INDUSTRY)

Priority: Agency Determination

Legal Authority: 29 USC 655(b)

126. CONFINED SPACE (GENERAL INDUSTRY)

Priority: Agency Determination

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910

Abstract: Entry into confined spaces has been responsible for many employee deaths and injuries. However, current standards do not specifically address the hazards associated with entry into confined spaces. Therefore, OSHA is proposing certain criteria and precautions which are necessary to minimize the hazards associated with employees entering confined spaces.

127. LOGGING

Priority: Agency Determination

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.266, (Revision)

Abstract: Logging is a very hazardous industry. It has an incidence rate nearly twice that of manufacturing, and reflecting the seriousness of the injuries incurred, a lost workday rate nearly four times as high. The purpose of the standard will be to protect workers from the ever-present hazards of chain saw operation, falling objects (trees, branches), rolling or sliding logs, falls from trees, and materials handling accidents. At present there is no OSHA standard specifically applicable to logging in general. There is a standard, 29 CFR 1910.266, applicable only to pulpwood logging; however, pulpwood is logging estimated to account for less than half of the logging activity in the United States. Development of a national OSHA standard addressing all types of logging will provide coverage for those loggers not now protected. The new regulation will provide coverage where there is no approved state regulation and will set a minimum safety level for those states that chose to develop a state regulation.

128. CONTROL OF HAZARDOUS ENERGY SOURCES (LOCKOUT/TAGOUT) (GENERAL INDUSTRY)

Priority: Agency Determination

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910. (New)

Abstract: The proposed standard will fill a major gap in our current regulations which now depend for enforcement on the general duty clause, 5(a)(1). It will apply to those situations where the unexpected energization, start up or the release of stored energy would cause injury to employees. Providing comprehensive and uniform control procedures is also expected to reduce significantly the potential for injury and death of employees because the hazards targeted for control exist in virtually every workplace. Further, the proposed standard will respond to the concerns of organized labor who petitioned OSHA in 1979 and again in 1982 for regulatory action to protect employees and to the American National Standards Institute's petition for OSHA to adopt its consensus standard ANSI Z244.1-1982. Regulatory options involve developing a comprehensive standard covering all potentially hazardous energy sources or limiting the scope and application to those certain machines or industries that are causing most of the injuries. The potential cost and benefits cannot be assessed until a regulatory impact analysis is conducted.

Priority: Agency Determination

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.211, (Revision); 29 CFR 1910.217, (Revision)

Abstract: This regulatory action will remove an existing provision which prohibits Presence Sensing Device Initiation of Mechanical power presses, and will add provisions which will enable the Presence Sensing Device Initiation to be done safely. Presence Sensing Device Initiation has been identified as presenting potential increases in safety and productivity with an ergonomic advantage of less worker fatigue. A regulatory impact analysis is in progress.

Priority: Agency Determination

Legal Authority: 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1926.1050 to 1926.1051

Abstract: The use of stairways and ladders during construction can be extremely hazardous for employees. OSHA presently has regulations covering the construction, use, and maintenance of stairways and ladders, used on construction worksites. However, this NPRM has been developed to streamline those requirements and to reduce the number of accidents that result from insufficient fall protection provisions. Data to determine the potential costs and benefits from this rulemaking are currently being collected and analyzed by OSHA's Office of Regulatory Analysis.

131. ELECTRIC POWER GENERATION, TRANSMISSION AND DISTRIBUTION

Priority: Agency Determination

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910

Abstract: A major area of coverage not addressed in the current OSHA electrical standards for general industry (29 CFR 1910) involves the maintenance and operation practices associated with electrical transmission and distribution lines, substations and generating stations. It is intended that the proposed standard fill this void by establishing minimum requirements for electrical safety work practices for employees working on or near facilities whose purpose is the generation and distribution of electricity.

CFR Citation: 29 CFR 1910; 29 CFR 1915; 29 CFR 1918; 29 CFR 1926

Abstract: The purpose of this regulatory action is to revise 24 provisions in Parts 1910, 1915, 1918, and 1926 to allow employers to certify that regulatory requirements have been met instead of requiring employers to maintain extensive and burdensome records of the results and findings of various tests, inspections and maintenance checks required in the standards. CFR Citation: 29 CFR 1910.1047

Abstract: OSHA has amended its standard for occupational exposure to ethylene oxide. The new standard establishes a permissible exposure limit of 1 part ethylene oxide (Et0) per million parts of air and requires, among other things, personal protective equipment, exposure measurement, training, medical surveillance, signs and labels, and recordkeeping. The basis for this action is OSHA's determination that exposure to Et0 presents a carcinogenic, mutagenic, genotoxic, reproductive, neurologic and sensitization hazard to workers.

Semiannual Agenda of Regulations and Regulatory Flexibility Agenda

AGENCY: Department of State.

ACTION: Publication of regulatory agenda.

SUMMARY: As required by Executive Order 12291 and OMB Bulletin 85-6, the April 1985 agenda of regulations of the Department of State is set forth below. The agenda also contains regulatory flexibility information required by the Regulatory Flexibility Act of 1980 (Pub. L. 96-354).

FOR FURTHER INFORMATION CONTACT: K. E. Malmborg, Assistant Legal Adviser for Management, Department of State, Room 4427A, 2201 C Street, N.W., Washington, D.C. 20520, telephone (202) 632-2350.

DATED: March 7, 1985.

FOREIGN MISSIONS ACT REGULATIONS

Legal Authority: 22 USC 4301 et seq; 22 USC 254(e)

CFR Citation: Not yet determined

Abstract: The Foreign Missions Act creates certain authorities for the Secretary of State relating to the regulation of foreign missions, diplomatic, consular, and international organizations. Exercise of those authorities could involve restricting or controlling the access of such missions to American vendors of goods and services. Exercise of other authorities in the Foreign Missions Act could affect the location of premises of foreign missions. Exercise of authority in the Diplomatic Relations Act, 22 USC 254(a) et seq., as amended by Title VI of P.L. 98-164, will have an impact on the acquisition of liability insurance coverage for the operation of motor vehicles, vessels, and aircraft by personnel of foreign missions, and could in certain situations, subject foreign missions to surcharges or fees. The regulations under consideration would provide procedures for exercise of these authorities. These regulations are at the stage of preliminary consideration. No timetable has been established other than that established in Title VI of P.L. 98-164.

Department Regulations Agenda; Semiannual Summary

AGENCY: Department of Transportation.

ACTION: Department Regulations Agenda.

SUMMARY: The Regulations Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding twelve months or such longer period as may be anticipated, or for which action has been completed since the last Agenda. The Agenda provides the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of, and allow it to more effectively participate in, the Department's regulatory activity.

ADDRESSES: The mailing address for the initiating offices of the Department which appear in the Agenda are 400 Seventh Street, S.W., Washington, D.C. 20590, except for the Federal Aviation Administration which is located at 800 Independence Avenue, S.W., Washington, D.C. 20591; the U.S. Coast Guard, which is located at 2100 Second Street, S.W., Washington, D.C. 20593; and the Saint Lawrence Seaway Development Corporation, which is located at 400 Seventh Street, S.W., Box 44090, Washington, D.C. 20026-4090.

Background

Improvement of government regulations is a prime goal of the Reagan Administration. There should be no more regulations than necessary, and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department of Transportation ("Department") achieve these goals, and in accordance with Executive Order 12291 ("Federal Regulation"; 46 FR 13193; February 19, 1981) and the Department's Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), the Department prepares a semiannual Regulations Agenda for publication in the **Federal Register.** The Agenda summarizes all current and projected rulemaking, reviews of existing regulations and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding twelve months or such longer period as may be anticipated or for which action has been completed since the last Agenda.

The Agendas are based on reports submitted by the initiating offices in January and July each year. After these reports are consolidated for, and reviewed by, the Department Regulations Council, the Department's Regulations Agenda is prepared and published in the **Federal Register.** The Department's last Agenda was published in the **Federal Register** on October 22, 1984 (49 FR 41857). The next one is scheduled for publication in the **Federal Register** in October 1985.

Regulatory Flexibility Act

In 1980, Congress passed the Regulatory Flexibility Act (RFA), Pub. L. 96-354, which requires the designation of those regulations for which a Regulatory Flexibility Analysis will be prepared, i.e., those regulations that would have a significant economic impact on a substantial number of small entities. The heading "Small Entity" will indicate whether a Regulatory Flexibility Analysis is required by a "yes" or a "no." If a regulatory flexibility analysis will be prepared for a particular rulemaking, that fact also will be noted under the heading "Analysis."

The RFA also requires that each year the Department publish a list of those regulations that have a significant economic impact on a substantial number of small entities and are to be reviewed under the Act during the succeeding twelve months. The Agenda includes those regulations to be reviewed under the RFA or those for which review has been concluded since the last Agenda. A "yes" or "no" will be found under the heading "small entity," for each such regulation. It should be noted, however, that after a preliminary assessment of the regulations listed for RFA review, it may be found that the regulations, in fact, do not have a significant economic impact on a substantial number of small entities and a full RFA review will be unnecessary.

DOT

Definitions

The Agenda covers all rules and regulations of the Department, including those that establish conditions for financial assistance. The following definitions are provided for ease in understanding the information in this document.

(1) *Initiating office* means an operating administration or other organizational element within the Department, the head of which is authorized by law or delegation to issue regulations or to formulate regulations for issuance by the Secretary.

(2) *Significant regulation* means a regulation that is not an emergency regulation and that in the judgment of the head of the initiating office, or the Secretary, or the Deputy Secretary

(a) Is a major regulation;

(b) Concerns a matter on which there is substantial public interest or controversy;

(c) Has a major impact on another operating administration or other parts of the Department or other Federal Agency;

(d) Has a substantial effect on State and local governments;

(e) Has a substantial impact on a major transportation safety problem;

(f) Initiates a substantial regulatory program or change in policy;

(g) Is substantially different from international requirements or standards; or

(h) Otherwise involves important Department policy.

(3) *Major regulation* means a significant regulation for which a Regulatory Impact Analysis is required to be prepared.

(4) *Emergency regulation* means (a) a regulation that, in the judgment of the head of the initiating office, circumstances require to be issued without notice and opportunity for public comment or made effective in less than 30 days after publication in the **Federal Register**; or (b) is governed by short-term statutory or judicial deadlines.

(5) *Nonsignificant regulation* means a regulation that, in the judgment of the head of the initiating office, is neither a significant nor an emergency regulation.

A preliminary and final Regulatory Impact Analysis is required for each proposed and final regulation, respectively that

(1) Is likely to result in:

(a) An annual effect on the economy of $100 million or more;

(b) A major effect on the general economy in terms of costs, consumer prices, or production;

(c) A major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions;

(d) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets; or

(2) The Secretary or head of the initiating office determines deserves such an analysis.

Explanation of Information on the Agenda

The format for this Agenda is required by Office of Management and Budget Bulletin No. 85-6 (December 13, 1984).

First, the Agenda is divided by initiating offices. Then, in accordance with the OMB Bulletin, for each initiating office the Agenda is divided into three categories: (1) current and projected rulemakings, (2) reviews of existing regulations, and (3) completed actions. These categories are further subdivided into priority rulemakings (or regulations) and other rulemakings. Priority rulemakings are divided into major and non-major, with non-major including all significant rulemakings that do not require a regulatory impact analysis. The priority entries include those regulations that were designated for review by the Presidential Task Force on Regulatory Relief. The "other rulemakings" include all those defined by the Department as nonsignificant, including the routine and frequent rulemakings. For each entry, the Agenda provides the following information: (1) a short descriptive title; (2) the legal basis for the action being taken or the regulation being reviewed; (3) the related regulatory citation in the Code of Federal Regulations; (4) an abstract of the review or the proposed or final regulation; (5) a timetable, including the earliest expected date for a decision on whether to issue the proposed or final regulation, or complete the review and determine the corrective action to be taken. (The action taken can be revocation or revision of the regulation, or it can be a determination that no regulatory action is necessary because the regulation is found to be achieving its goals and the goals and objectives of Executive Order 12291 and the Department's Regulatory Policies and Procedures.); (6) a statement as to whether the Regulatory Flexibility Act applies because of the rulemaking's effect on small entities; (7) if there is information that does not fit in the other categories, it will be included under a separate heading, entitled "Additional Information"; (8) a listing of any analyses an initiating office will prepare or has prepared for the rulemaking document; e.g., a Regulatory Impact Analysis or Evaluation, an Environmental Impact Statement (EIS), a Regulatory Flexibility Analysis, or an Urban Impact Analysis. (It should be noted that, even though a Regulatory Impact Analysis is not required for some items on the Agenda, the Department requires an economic analysis for all of its regulations. This economic analysis is contained in the Regulatory Evaluation.); (9) an agency contact office or official who can provide further information, including advice on how to obtain documents referenced in the Agenda; and (10) a "RIN" number assigned solely to identify an individual action in the Agenda. Finally, for priority rulemakings, the method by which it was determined that the rulemaking was "priority" is also provided.

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules) to keep those requirements operationally current, only the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations are included; individual regulations are not listed.

If a regulatory docket number has already been established, it may be provided under the "Additional Information" heading. If a member of the public desires further information regarding a particular proposal or regulation, reference should be made to this docket number. The Federal Highway Administration also provides an FHPM number at this point for easier reference by those who use the Federal-

aid Highway Program Manual (FHPM). The numbers following the FHPM represent, respectively, the volume, chapter, section and subsection at which the material is located in the FHPM.

In the "Timetable" column, abbreviations are used to indicate the particular documents being considered for issuance by that date. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, NPRM for Notice of Proposed Rulemaking, and FR for Final Rule. Listing a future date in this column is not an indication that a proposed or a final rule will be issued on that date; it is the earliest date on which a decision is expected to be made on whether to issue the document listed. Submittal of any proposed or final rule to the Office of Management and Budget for review, under Executive Order 12291, must follow such a decision. For major rules, this review could take 60 days or more. If any document is issued, publication in the **Federal Register** would follow within a few days. In addition, these dates are based on current schedules. Subsequently received information could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

It should be noted that some of the items on the Agenda result from programs that were established to review existing regulations and revoke or revise those regulations that the initiating office determined were not achieving their intended purpose. Projects under regulatory development that resulted from a review of existing regulations to determine whether they should be revoked or revised are preceded by the word "Review" in the "Title" column. Because some reviews can be large-scale undertakings, and because there are already a number of these in the regulatory development process, the Department thought it would provide the public with valuable information if it indicated not only which regulatory reviews are under consideration but also which reviews have now reached the stage where proposed revisions are being, or have been, prepared. The number of regulatory projects that an initiating office can handle is limited by available resources. Therefore, the number of projects in the regulatory development stage may limit the number of reviews that can be added.

General

To allow for easier use of the Agenda and for quick comparison with earlier Agendas, the Department has instituted the following additional procedures in the Agenda: (1) Items listed on the Agenda retain the same order in each semiannual publication. If subheadings are used within an initiating office's listing, then the same order is retained within each subheading. (2) New items generally are added at the end of the appropriate portion of the Agenda. A dot (●) preceding an entry indicates that the entry appears in its present section of the Agenda for the first time.

Civil Aeronautics Board

The Civil Aeronautics Board (CAB) ceased operations on December 31, 1984. Under the Federal Aviation Act, as amended, most of the continuing functions transferred to the Department of Transportation. As explicitly noted in the "Civil Aeronautics Board Sunset Act of 1984" (Pub. L. 98-443, October 4, 1984), most of the CAB rules and pending rulemakings were carried over to DOT intact. All the rulemaking actions of the CAB completed between the publication of the last Unified Agenda and the end of 1984 are listed in a separate "CAB Completed Actions section". All rulemaking actions completed since January 1, 1985, or currently pending at DOT are listed in this document under "Office of the Secretary".

When the word "Act" is used in conjunction with the former CAB rules, it means the Federal Aviation Act of 1958, as amended, 49 U.S.C. 1301 *et seq.*, including amendments made by the Airline Deregulation Act of 1978 (Pub. L. 95-504, 92 Stat. 1705), the Civil Aeronautics Board Sunset Act of 1984 (Pub. L. 98-443, October 4, 1984), and the International Air Transportation Competition Act (Pub. L. 96-192, 94 Stat. 35).

ER-, EDR-, SPR-, SPDR-, and similar designations appearing in parentheses were the internal designations for final rules and proposed rules used by the Civil Acronautics Board. NPRMs and final rules issued by the Department relating to aviation economic matters are referenced with the DOT internal designation system. Docket numbers, however, remain the same as assigned by the CAB if the proceeding was initiated by that agency.

Mailing Lists for Regulatory Documents

To assist the public in obtaining regulatory documents issued within the Department of Transportation, an Appendix A has been included in this document. The appendix contains instructions on how to be placed on mailing lists for copies of regulatory documents, including the Department's Semiannual Regulations Agenda, issued by the operating administrations of the Department and the Office of the Secretary. There is no charge for this service; however, because of the costs involved, the number of copies of a document forwarded to an individual requestor may be limited. Persons already on mailing lists for particular documents within the Department will remain on those lists and should not reapply.

By following the instructions specified in the appendix, a person can be placed on a mailing list for future copies of the Department's Regulations Agenda, which will be updated and published in the **Federal Register** every year during April and October. By using the Agenda, individuals can determine which Notice or Advance Notice of Proposed Rulemaking, to be issued by elements of the Department, is of interest to them. Then, using the instructions in the appendix, such persons also can be placed on a mailing list to ensure that, after the document of interest is issued, a copy will be mailed to them for their review and comment. In this way, individuals will be relieved of the burden of having to review the **Federal Register**, perhaps on a daily basis. The Department expects that this process will ensure that those people placed on mailing lists will receive early notice so that their views on the document can be adequately prepared and presented within the established comment period.

General Rulemaking Contact Persons

To assist persons desiring to obtain general information concerning the rulemaking process within the Department's operating administrations, an Appendix B has been added to the Agenda. This appendix sets forth the addresses and the telephone numbers of the persons who can respond quickly to requests for general rulemaking information. Please note, however, that questions related to particular rulemaking actions should still be

referred to the contact person listed with the particular rulemaking on the Agenda.

Public Rulemaking Dockets

To facilitate the inspection of docket files and the submission of comments by the public, an Appendix C sets forth the addresses and working hours for the Rules Docket for each operating administration.

Request for Comments

Agenda

Our Agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful information as well as make the Agenda easier to use. We would also like you, the public, to make suggestions or comments on how the Agenda could be further improved. For example, do you find the information presented in an easily understandable manner? Do you find it easy to follow a regulation's development from Agenda to Agenda? Do you find that the format for setting out the information enables you to use the Agenda easily? Do you find that the explanation of the information in the Agenda is clearly explained in the preamble to the Agenda? Your responses to these questions or any other comments or suggestions you may have should be sent to Neil R. Eisner, whose address appears above.

Reviews

In an effort to comply further with the spirit of Executive Order 12291 and the Regulatory Flexibility Act, we are also seeking suggestions on existing regulations that should be included in our review of existing regulations list; that is, which existing regulations issued by an operating administration of the Department or the Office of the Secretary do you believe need to be reviewed to determine whether they should be revised or revoked? The Department is particularly interested in obtaining information on requirements that have a "significant economic impact on small entities" and therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please send them, along with your explanation of why they should be reviewed, to the concerned operating administration or the Office of the Secretary, at the appropriate address noted in the "Addresses" paragraph above.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that are targeted for review under the RFA. Those comments should be addressed to the "contact" person of the operating administration involved, at the appropriate address noted in the "Addresses" paragraph above.

Purpose

The Department is publishing this Regulations Agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity. Knowledge of the nature and scope of this activity, as well as the specific proposals and reviews being considered, should result in more effective public participation in the Department's regulatory activity. For example, awareness of the dates when notices may be issued seeking public comment should allow appropriate planning and more efficient use of the comment period. By providing the expected date for a decision on whether to issue a final rule, the Department expects that more appropriate planning by those concerned with the regulation will also be possible. This publication in the **Federal Register** does not impose any binding obligation on the Department, or any of the offices within the Department, with regard to any specific item on the Agenda or the Review List. Regulatory action in addition to the items listed is not precluded. If further information is desired on any of the items listed in the Agenda or the Review List, the public is encouraged to contact the individual listed for the particular item. Additional information concerning the Agenda, in general, or the Department's Regulatory Policies and Procedures may be obtained from Neil R. Eisner, whose address and telephone number appear above.

Issued in Washington, D.C. on March 29, 1985.

Elizabeth Hanford Dole,

Secretary of Transportation.

Appendix A - Instructions for Obtaining Copies of Regulatory Documents

United States Coast Guard (USCG)

Persons who desire to obtain a copy of any regulatory document to be issued by the USCG that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), United States Coast Guard, 2100 Second Street, S.W., Washington, D.C. 20593.

Federal Aviation Administration (FAA)

The FAA has a mailing list system for Notices and Advance Notices of Proposed Rulemaking (NPRMs and ANPRMs). Persons interested in obtaining future copies of all of those documents to be issued by the FAA or only of those concerning certain parts of the Federal Aviation Regulations should request a copy of Advisory Circular No. 11-2, which describes the application procedure, by calling 202-426-8058 or by writing to: Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, S.W., Washington, D.C. 20591.

Federal Highway Administration (FHWA)

The FHWA maintains a consumer mailing list for individuals and agencies wishing to routinely receive Federal-aid highway related rulemaking actions. Persons may selectively choose to receive rulemaking materials in a number of separately identified program categories from the Code of Federal Regulations, Title 23. Those wishing to take advantage of the FHWA consumer mailing list may obtain additional information by writing to: Consumer Affairs Representative, Office of Public Affairs, Room 4208, Federal Highway Administration, 400 7th Street, S.W., Washington, D.C. 20590.

Persons who desire to obtain a copy of any regulatory document to be issued by the FHWA that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), Federal Highway Administration, 400 7th Street, S.W., Washington, D.C. 20590.

Federal Railroad Administration (FRA)

Persons who desire to obtain a copy of any regulatory document to be issued by the FRA that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name

of contact person), Federal Railroad Administration, 400 7th Street, S.W., Washington, D.C. 20590.

National Highway Traffic Safety Administration (NHTSA)

Persons who desire to obtain a copy of any other regulatory document to be issued by the NHTSA that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), National Highway Traffic Safety Administration, 400 7th Street, S.W., Washington, D.C. 20590.

Urban Mass Transportation Administration (UMTA)

Persons who desire to obtain a copy of any regulatory document to be issued by UMTA that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), Urban Mass Transit Administration, 400 7th Street, S.W., Washington, D.C. 20590.

Saint Lawrence Seaway Development Corporation (SLSDC)

Persons who desire to obtain a copy of any regulatory document to be issued by SLSDC that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the address specified below: (Name of contact person), Saint Lawrence Seaway Development Corporation, 400 7th Street, S.W., Room 5424, P.O. Box 44090, Washington, D.C. 20026-4090.

Research and Special Programs Administration (RSPA)

Persons wishing to be placed on mailing lists for regulatory documents to be issued by RSPA should contact: Mr. Roosevelt McKinley, Jr., Information Services Division, DMT-11, 400 7th Street, S.W., Washington, D.C. 20590.

Maritime Administration (MARAD)

Any one desiring a copy of a MARAD regulatory document referred to in the Agenda may request a copy of that document by contacting Mrs. Georgia Stamas, Secretary, Maritime Administration, 400 Seventh Street, S.W. (Room 7300), Washington, D.C. 20590, (202) 426-5746.

Office of the Secretary (OST)

Persons desiring to receive future copies of the Regulations Agenda should submit their request to: Assistant General Counsel for Regulation and Enforcement, C-50, Office of the General Counsel, Department of Transportation, Washington, D.C. 20590, (202) 426-4723.

Persons who have an interest in specific regulatory documents to be issued by the Office of the Secretary should forward requests for copies of those documents to the same address. These requests should fully identify the document desired. Persons requesting a rulemaking document on an aviation matter (of the kind formerly handled by the CAB) will be placed on a mailing list for all OST aviation related rulemakings.

Appendix B - General Rulemaking Contact Persons

The following is a list of persons who can be contacted within the Department for general information concerning the rulemaking process within the various operating administrations.

USCG - Capt. Chris Hoiland, Marine Safety Council, USCG Headquarters Building, Room 4402, 2100 Second Street, S.W., Washington, D.C. 20593. Telephone: 202/426-1477.

FAA - John H. Cassidy, Office of Chief Counsel, Regulations and Enforcement Division, 800 Independence Ave., S.W., Room 915A, Washington, D.C. 20591. Telephone: 202/426-3073.

FHWA - Michael J. Laska, Office of the Chief Counsel, 400 7th Street, S.W., Room 4223, Washington, D.C. 20590. Telephone: 202/426-0761.

FRA - Mike Haley, Office of Chief Counsel, 400 7th Street, S.W., Room 8201, Washington, D.C. 20590. Telephone: 202/472-9042.

NHTSA - Roger Fairchild, Office of Chief Counsel, 400 7th Street, S.W., Room 5219, Washington, D.C. 20590. Telephone: 202/426-2992.

UMTA - Katherine Cowen, Office of Chief Counsel, 400 7th Street, S.W., Room 9228, Washington, D.C. 20590. Telephone: 202/426-4011.

SLSDC - Fredrick A. Bush, General Counsel's Office, 400 7th Street, S.W., Room 5424, P.O. Box 44090, Washington, D.C. 20026-4090. Telephone: 202/426-3574.

RSPA - Vita Simon, Office of Chief Counsel, 400 7th Street, S.W., Room 8420, Washington, D.C. 20590. Telephone: 202/755-4972.

MARAD - Mrs. Georgia Stamas, Secretary, Maritime Administration, 400 7th Street, S.W., Room 7300B, Washington, D.C. 20590. Telephone: 202/426-5746.

OST - Neil Eisner, Office of Regulation and Enforcement, 400 7th Street, S.W., Room 10424, Washington, D.C. 20590. Telephone: 202/426-4723.

Appendix C - Public Rulemaking Dockets

The following is a list of Rule Docket locations for the various operating administrations where the public may review regulatory dockets and hand deliver comments on advance notices and notices of proposed rulemaking:

USCG - Marine Safety Council, 2100 2nd Street, S.W., Room 4402, Washington, D.C. 20593. Working Hours: 7:30-4:00 (Monday-Friday).

1. ALLOCATION OF "SLOTS" AT WASHINGTON NATIONAL AIRPORT

Priority: Major

Legal Authority: 49 USC 1303; 49 USC 1347; 49 USC 1348(a); 49 USC 1348(b); 49 USC 1348(c); 49 USC 1354(a); Federal Aviation Act of 1958, as amended, Sec 103; Federal Aviation Act of 1958, as amended, Sec 306; Federal Aviation Act of 1958, as amended, Sec 307(a); Federal Aviation Act of 1958, as amended, Sec 307(b); Federal Aviation Act of 1958, as amended, Sec 307(c); Federal Aviation Act of 1958, as amended, Sec 313(a); 49 USC 106(g); Act for the Administration of Washington Natl Airport, Sec 2

CFR Citation: 14 CFR 93

Abstract: Proposed amendment to establish procedures for allocating the hourly number of instrument flight operations (takeoffs and landings) or "slots" that may be reserved at Washington National Airport (WNA) in accordance with the FAA's High Density Rule. This proposal is considered a significant rulemaking project due to substantial public interest and potential costs to airlines. The Department of Justice has expressed concerns about continuing the antitrust immunity under which the airline scheduling committees currently allocate slots at WNA. A new method of allocation may become necessary.

Additional Information: The CAB in conjunction with the FAA commissioned the Polinomics Research Laboratories, Inc., to research the allocation problem. A report of its findings has been prepared. Another report by Econ, Inc., analyzing a slot allocation auction procedure has been prepared under an FAA contract. The emergency regulation was published in the Federal Register on November 3, 1980 (45 FR 72637). The NPRM for a long term solution to the slot allocation problem was issued on October 27, 1980 (45 FR 71236). A public hearing was held on February 13, 1981, and the comment period was extended until February 26, 1981 (46 FR 932, January 5, 1981). On June 1, 1984, the FAA issued NPRM 84-6, dealing with slot transfers among carriers, and NPRM 84-7 proposing a slot allocation method for use if a scheduling committee should fail to allocate slots. These NPRMs are discussed in the FAA portion of the agenda.The withdrawal of this NPRM might be accomplished in conjunction with final action on NPRMs 84-6 and 84-7.

2. NONDISCRIMINATION ON THE BASIS OF HANDICAP (MASS TRANSIT PROGRAMS)

Priority: Major

Legal Authority: 29 USC 794 Rehabilitation Act of 1973, as amended; 49 USC 1612(a) Urban Mass Trans. Act of 1964, as amended; 23 USC 142 Note Federal-aid Highway Act of 1973, as amended; 49 USC 1612(d) Urban Mass Trans. Act of 1964, as amended

CFR Citation: 49 CFR 27

Abstract: The Department's rule concerning mass transit service for handicapped persons is currently an interim final rule published July 20, 1981 (48 FR 37488). This rule was issued after a court decision said that section 504 did not authorize the Department's previous mass transit requirements. In 1983, Congress enacted section 317(c) of the Surface Transportation Assistance Act of 1982, which requires the Department to publish a new rule. The Department published an NPRM for this new rule on September 8, 1983 (48 FR 40684). The Department will review the comments and publish a final rule based on this NPRM.

4. MINORITY BUSINESS ENTERPRISE PROGRAM (DIRECT CONTRACTING)

Priority: Agency Determination

Legal Authority: EO 11625; EO 12138; 45 USC 803; PL 95-507

CFR Citation: 49 CFR 23

Abstract: As part of the NPRM that proposed its minority business program rule, (49 CFR Part 23), the Department proposed rules concerning minority business involvement in direct DOT procurement. However, because of the program established by Public Law 95-507, these proposed rules became unnecessary, and were never finalized. That program provides for subcontracting plans and goals in certain direct Federal contracts as well as for disadvantaged business set-asides under the Small Business Administration 8(a) program. The Department intends to withdraw this proposal.

CFR Citation: 49 CFR 23

Abstract: The Department is reviewing its regulation establishing a minority business enterprise (MBE) program in its financial assistance programs (49 CFR Part 23). This regulation has been controversial, is of interest to most DOT grant recipients and contractors, and affects the operations of all DOT financial assistance programs. As part of the Administration's program of reviewing regulations that are costly or controversial, the Department has decided that it is necessary to consider revisions of the existing rule. The aim of the revisions would be to reduce regulatory burdens associated with the present rule and clarify the administration of some provisions about which questions have been raised. On the basis of this review, the Department intends to publish an NPRM that would propose changes in the administrative mechanism through which the Department's minority business program is carried out. This review is to improve the administration of the existing program, and it is not intended to affect the major policy provisions of the regulation.

6. PUBLIC AVAILABILITY OF INFORMATION

Priority: Agency Determination

Legal Authority: 5 USC 552 Freedom of Information Act

CFR Citation: 49 CFR 7

Abstract: This involves a revision of DOT's Freedom of Information Act regulations. Specific areas to be addressed include fees to be charged for search and reproduction costs and the establishment of more precise criteria to enable the Department to determine when a waiver of fees is in the public interest. It would also address records relating to those functions of the Civil Aeronautics Board that were transferred to the Department. This rulemaking is significant because of substantial public interest. It is needed because the Freedom of Information Regulations need periodic revision to keep current with changes in case law, policy, and implementation costs.

Priority: Agency Determination

Legal Authority: Federal-Aid Highway Act of 1968, as amended, Sec 22(a); RR Revitalization & Regulatory Reform Act of 1976, Sec 905; 49 USC 1615 Urban Mass Transportation Act of 1964, as amended; 29 USC 794 Rehabilitation Act of 1973, Sec 504

CFR Citation: 49 CFR 1.48(c), 49 CFR 2.49(u); 49 CFR 1.51(a)

Abstract: The proposed regulation would set forth requirements and procedures for all State Departments of Transportation (DOTs) equal employment opportunity compliance programs. It would also consolidate FHWA, FRA, and UMTA responsibilities in this area. This proposed regulation is significant because it would affect the equal opportunity employment programs of all State transportation agencies. It is needed because OST, FHWA, FRA, and UMTA each have responsibility for implementing the equal employment opportunity programs of State DOTs. This proposed rule would assure full coordination among these departmental elements, reduce the burden on the recipients, simplify reporting requirements, and eliminate duplication of effort.

Priority: Agency Determination

Legal Authority: 29 USC 794; PL 97-248, Sec. 511-519 Airport and Airway Improv. Act of 1982

CFR Citation: 49 CFR 27; 14 CFR 382

Abstract: The Civil Aeronautics Board (CAB) has a regulation providing protection of the rights of handicapped air travellers. Based on recent Congressional action, DOT began enforcing this regulation on January 1, 1985. DOT is preparing an NPRM that would extend to passengers on all airlines the provisions of subparts B and C of the rule, which now applies only to subsidized carriers. This NPRM would respond to the decision of the U.S. Court of Appeals for the D.C. Circuit in Paralyzed Veterans of America v. Civil Aeronautics Board, which said that Section 504 applied to all air carriers, whether or not they receive a direct Federal subsidy.

Abstract: On January 1, 1985, the authority of the Civil Aeronautics Board (CAB) to approve and grant antitrust immunity to certain aviation-related agreements, mergers, consolidations, acquisitions of control and interlocking relationships transferred to DOT. In order to implement this authority, the Department is proposing regulations

that 1) specify the information that must be submitted when Department approval is sought; 2) set out the procedures to be followed when an application for approval has been filed; and 3) exempt certain transactions and relationships from the requirement to obtain Department approval. The proposed regulations are, in most respects, very similar to existing regulations of the same subject matter, and were drafted in cooperation with the Antitrust Division, Department of Justice.

Priority: Agency Determination

Legal Authority: PL 98-575

CFR Citation: 14 CFR 400 to 405; 14 CFR 411 to 422; 14 CFR 440 to 441

Abstract: This rulemaking addresses the components of the launch license required by the Commercial Space Launch Act of 1984 and describes the Federal interagency process for evaluating license applications. The ANPRM proposes a two-part process for reviewing license applications: 1) Mission Review, focusing on national security and foreign policy issues; and 2) Launch Safety Review, focusing on issues affecting public safety, including the safety of property. This rulemaking will also address regulatory actions necessary to meet U.S. obligations under international law to authorize and supervise private space launches as well as to protect U.S. national security, foreign policy and public safety interests. The ANPRM states that DOT will regulate private space launches only to the extent necessary to fulfill these objectives. This regulation is significant because it involves substantial public interest and important Departmental policy.

13. ● REVIEW OF SAMPLE SIZE AND ADMINISTRATION OF THE AIRLINE PASSENGER ORIGIN-DESTINATION SURVEY

Priority: Agency Determination

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1382

CFR Citation: 14 CFR 241

Abstract: OMB has mandated that the 10 percent sampling requirement contained in the Passenger Origin-Destination Survey be eliminated and that a requirement that the collection include a statistically valid sample be substituted. The NPRM will request comments on the size of the sample and invite the public to propose alternative methods of administering the statutory data collection requirements contained in the Civil Aeronautics Board Sunset Act of 1984. This change has the potential for reducing the burden on the industry. This rulemaking is significant because it may substantially change the reporting requirements for the aviation

industry and significantly reduce the associated paperwork burdens.

Priority: Agency Determination

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1387

CFR Citation: 14 CFR 241

Abstract: OMB stated that the continuation of uniform, detailed financial and operating reporting of domestic air transportation appears to be contrary to airline deregulation. It has mandated that an NPRM be issued soliciting specific recommendations from the affected public. The NPRM will be broad enough in scope to accommodate a wide range of alternatives, including complete elimination of all requirements. The NPRM will specifically request comments on the need for, and frequency of, the collection in the light of the information collection requirements imposed on the airlines by other Federal agencies. Additionally, the NPRM will request specific comments from other agencies that presently use the Form 41 data. This rulemaking is significant because it may substantially change the reporting requirements for the aviation industry and significantly reduce the associated paperwork burdens.

15. LIBERALIZATION OF AIR CARRIER CHARTER RULES

Priority: Agency Determination

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1372; 49 USC 1381, 49 USC 1386

CFR Citation: 14 CFR 207; 14 CFR 208; 14 CFR 212; 14 CFR 298; 14 CFR 380

Abstract: The CAB proposed new charter rules for direct and indirect air carriers. The proposed rules retain the financial protections of existing rules for direct air carriers while eliminating rules restricting the types of groups (such as "affinity" or "single-entity") to whom charters may be sold. The proposal would also retain a security instrument and depository system for indirect air carriers, along with contract rules for public protection. The proposal also highlights depository bank and travel agent responsibilities in handling passenger funds. The proposal replaces one made earlier. DOT is considering what action should be taken. This rulemaking is significant because it is potentially controversial and because it affects the interests of charter carriers and the traveling public.

16. NONDISCRIMINATION ON THE BASIS OF HANDICAP BY AIRLINES

Priority: Agency Determination

Legal Authority: 29 USC 794

CFR Citation: 14 CFR 382

Abstract: The CAB considered whether to include provisions regulating carrier employment practices. An NPRM was adopted by the Board on May 31, 1984. It was sent to DOJ and EEOC for approval as required by the Rehabilitation Act. The rulemaking is significant because it involves important Departmental policy and substantial public interest. The current rule is involved in litigation and a Federal Court of Appeals has ordered DOT to redraft it to apply all provisions of the rule to all carriers. The Department of Justice has asked for a rehearing in the case.

Priority: Agency Determination

Legal Authority: PL 95-504; 49 USC 1371; 49 USC 1374; 49 USC 1386

CFR Citation: 14 CFR 205; 14 CFR 298

Abstract: This rule would set the minimum per-person aircraft accident liability insurance limits for U.S. and Canadian on-demand air taxi operators at $150,000, instead of at $300,000 as it is for other air carriers. The NPRM further includes alternative proposals to set the per-person limit at $75,000 or $100,000 or to eliminate all minimum amounts, requiring a public notice instead. Other rules for insurance

coverage for these carriers would be as in 14 CFR Part 205, including the prohibition on safety-related exclusions. This rulemaking is significant because of substantial public interest.

18. DURATION OF CERTIFICATE AUTHORITY AND ANALYSIS OF CRITERIA FOR AIR CARRIER SELECTION IN LIMITED DESIGNATION INTERNATIONAL MARKETS

Priority: Agency Determination

Legal Authority: 49 USC 1371

Abstract: This action will enable the Department to establish criteria upon which carriers will be selected to serve those markets where the number of U.S. flag carriers is restricted under current bilateral arrangements. The proposal will also examine whether certificate authority should be awarded for a limited duration or on a permanent basis. This rulemaking is significant because it could potentially establish new policy and legal precedent in the selection of carriers for limited designation markets and the duration of the authority which these carriers are awarded.

Abstract: The CAB reviewed its rules that implement Title VI of the Civil Rights Act of 1964, in response to suggestions from the Department of Justice. An NPRM was approved by the Board on June 15, 1982, and was forwarded to the Justice Department for review in accordance with Executive Order 12250. CFR Citation: 14 CFR 377

Abstract: In the past, the CAB had held that a foreign air carrier's permit or exemption authority continues after the underlying bilateral Service Agreement expired, by virtue of section 558(c) of the Administrative Procedure Act. This rule would reverse that policy in order to ensure equal competitive opportunities for U.S. carriers. This rulemaking is significant because it involves substantial public interest. CFR Citation: 14 CFR 399

Abstract: Republic Airlines petitioned the CAB for emergency rulemaking and other relief concerning changes in carrier interline practices. It stated that a number of major carriers have withdrawn from the current multilateral interline traffic agreement and henceforth will maintain interline arrangements only pursuant to bilateral agreements that are terminable monthly

without notice. It alleged that failure to notify passengers that interlining may cease abruptly and without notice could constitute an unfair or deceptive practice within the meaning of section 411 of the Federal Aviation Act of 1958. In addition, it argued that the right to terminate interline agreements without notice could be used for anticompetitive purposes. Republic asked the CAB to adopt interim rules requiring notice to passengers and to institute a rulemaking proceeding to determine whether these no-notice bilateral interline agreements are an unfair method of competition. The CAB denied the request for emergency rules. DOT is now considering the subject of interlining and whether to begin a rulemaking proceeding. Priority: Agency Determination

Legal Authority: 49 USC 1302; 49 USC 1324; 49 USC 1381

CFR Citation: 14 CFR 399

Abstract: The CAB proposed adding a policy statement that it would regard it as an unfair and deceptive practice and an unfair method of competition if two or more carriers share a single carrier designator code without giving reasonable notice to consumers of the identity of carriers actually providing service under the shared code and the nature of the relationship between carriers involved. The Board considered a final rule but took no final action. DOT is now considering what action to take. This rulemaking is significant because consumers may be at a disadvantage without full disclosure of the identity of carriers providing services for all parts of the trip.

23. CONSUMER PROTECTION FOR DEFAULT BY SCHEDULED AIR CARRIERS

Priority: Agency Determination

Legal Authority: 49 USC 1371; 49 USC 1372; 49 USC 1381

Abstract: Transamerica petitioned the CAB to investigate ways to protect consumers against service defaults by scheduled air carriers in domestic, overseas, and foreign air transportation. Transamerica suggested that the Board condition the award of operating authority to perform direct carrier scheduled service on air carriers developing a default protection plan. For foreign air travel, it suggested that the obligation be limited to outbound flights. The petitioner argued that prompt action is necessary in order to ensure continued public confidence in scheduled air service and to protect passengers from unnecessary financial hardship. DOT is considering what action should be taken on the petition.

24. ● ELECTRONIC FILING OF TARIFFS

Priority: Agency Determination

Legal Authority: 49 USC 1373

CFR Citation: 14 CFR 221

Abstract: DOT will examine whether conversion from a paper document system to a computerized system of filing and monitoring air carrier tariffs can reduce paper flow, speed up processing, and allow the industry to utilize computer and telecommunications technology to communicate with DOT. The alternative is to maintain the current paper tariffs system. Potential savings to the industry may be greater than to the government, since airlines already utilize automated fare and rate systems. In addition, airlines may be able to implement changes faster, thus responding more quickly to market conditions, and may be less burdened with the cost of producing and transmitting paper documents. The Department may reduce paper flow, experience savings in processing time and staffing, and improve the accuracy and control of tariff data. Costs to the government include systems design and the hardware, software and telecommunications facilities to operate the system.

Priority: Agency Determination

Legal Authority: 40 USC 486(c); 10 USC 2301; 48 CFR 1.301; 49 CFR 1.59

CFR Citation: 48 CFR 1201

Abstract: The Department of Transportation Acquisition Regulation (TAR) is established to implement and supplement the Federal Acquisition Regulations (FAR), (Far Title 48 CFR Chapter 1). The intended effect of the Department's acquisition regulation is to implement the FAR where required and to supplement the FAR in areas where there is no FAR coverage of policies unique to DOT. Lack of a particular subject area in the TAR means the Department accepts the FAR coverage without further implementation. The proposed TAR was published in the FEDERAL REGISTER on June 1, 1984, 49 FR 22922, as an interim final rule inviting public comments. The changes that were made were appropriate to incorporate the comments received as well as other administrative and editorial changes, and these changes will be made, as appropriate, to incorporate typographical corrections discovered by the Department.

26. TITLE VI CIVIL RIGHTS REGULATION

Legal Authority: 42 USC 2000d-4

CFR Citation: 49 CFR 21

Abstract: In 1981, the Department proposed a consolidation and expansion of its existing Title VI regulation (49 CFR Part 21). Few comments were received on this NPRM, and a final regulation was never published. The Department reviewed the existing regulation to determine if changes were needed. It was concluded that the Department can continue to enforce Title VI appropriately through the existing regulation. Consequently the Department does not anticipate further rulemaking action, and intends to withdraw the NPRM.

Legal Authority: 49 USC 1324; 49 USC 1371

CFR Citation: 14 CFR 207; 14 CFR 208

Abstract: This rule would make direct air carriers responsible for returning charter passengers stranded by strikes or other interruptions of their services by eliminating the force majeure clause from charter contracts. However, the Department is considering a comprehensive proposal (RIN 2105-AA41 in this agenda) to revise and simplify air charter rules. The Department's final action in this proceeding will be consistent with the comprehensive review of the charter rule.

36. ZONES FOR AIRLINE MAIL RATES

Legal Authority: 49 USC 1302; 49 USC 1324; 49 USC 1376

CFR Citation: 14 CFR 233, (Proposed)

Abstract: This proposed rule would end the current practice of prescribing fixed rates for the transportation of mail by air, and in its place establish zones for each category of mail. Each zone would be defined by maximum and minimum rates prescribed by DOT, and airlines would be free to contract with the Postal Service for the carriage of mail at any price within the zone.

37. AIR TRAVELERS: AGE DISCRIMINATION

Legal Authority: 42 USC 6102

CFR Citation: 14 CFR 376, (Proposed)

Abstract: This rule will prohibit discrimination against air travelers on the basis of age and implement the Age Discrimination Act of 1975. A final rule was adopted by the CAB on April 10, 1980, and was forwarded to the Secretary of HHS for approval, as required by the Age Discrimination Act. The rule was approved by HHS on July 13, 1984, with changes. DOT is making these changes and will publish the final rule shortly.

38. POLICY STATEMENT ON AIRLINE PREEMPTION

Legal Authority: 49 USC 1305

CFR Citation: 14 CFR 399

Abstract: This rule will set out Department policies for regulation of the rates, routes, and services of airlines that have interstate authority. The CAB concluded that under section 105 of the Federal Aviation Act of 1958 it, not the States, was responsible for economic regulation (or deregulation, as the case may be) of all the routes, rates, or services of any airline holding either (i) a certificate of public convenience and necessity to provide interstate air transportation, or (ii) an exemption under section 416 of the Act from the requirement for such a certificate.

39. INDIRECT AIR CARRIERS-GROUP CONTRACTOR EXEMPTIONS

Legal Authority: 49 USC 1371; 49 USC 1386

Abstract: This rule would codify the Department's treatment of group contractors. A group contractor, like a charter operator, is an indirect air carrier that purchases air transportation from a direct air carrier and sells it to passengers as a principal rather than as an agent. Unlike charter operators, however, a group contractor is backed up financially by the direct carrier so that a passenger may look to the direct carrier for transportation or refund if the group contractor defaults. Group contracts are currently governed by the CAB Order 81-7-109, July 31, 1981, as modified by Order 82-3-132, March 24, 1982. They are sometimes referred to as "contract bulk fare operators."

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377

CFR Citation: 14 CFR 241

Abstract: As part of the continuing effort to align the DOT's aviation accounting rules with generally accepted accounting principles, certain sections of the Uniform System of Accounts and Reports need to be deleted or amended. These changes would provide relief from the present requirements for most air carriers.

41. REVISE DEFINITION OF AIRLINE REVENUE AND NONREVENUE PASSENGERS

Legal Authority: 49 USC 1324; 49 USC 1373

CFR Citation: 14 CFR 241

Abstract: The present definition of revenue and nonrevenue passengers for aviation reporting purposes is stated in terms of the exemptions for free and reduced-rate transportation in sections 403(b) of the Federal Aviation Act of 1958. These definitions have become outmoded in the process of air fare deregulation. The DOT is considering several options for revising these definitions.

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1387

CFR Citation: 14 CFR 241

Abstract: This proposed rule would standardize service segment data reporting for aviation. Presently, larger carriers file very detailed service segment data in ADP format while smaller carriers file a condensed version on a hardcopy report. This rule would standardize domestic service segment data at the condensed level.

Legal Authority: 49 USC 1324; 49 USC 1372; 49 USC 1508

CFR Citation: 14 CFR 375

Abstract: The CAB proposed to simplify and clarify its rules governing the navigation of foreign aircraft that are not engaged in foreign air transportation. The proposed rule would delete outdated provisions and conform the language of the rule to FAA regulations. In addition, the rule would expand the definition of foreign and civil aircraft to include U.S. registered aircraft owned by non U.S. citizens and would revise the application procedures for foreign aircraft permits to expedite their processing.

CFR Citation: 14 CFR 253; 14 CFR 399

Abstract: The CAB proposed to amend its rules requiring notice of contract terms for domestic travel to require that actual notice be given passengers of terms absolving carriers from any responsibility to transport a passenger to the destination named on the ticket, or to reimburse the passenger for expenses in reaching the airport noted on the ticket when a flight is diverted to another airport in the same metropolitan area. Alternatively, the Board proposed to declare it to be an unfair and deceptive practice to divert a passenger without arranging and paying for alternate transportation to the destination airport named on the passenger's ticket. Abstract: DOT subsidizes certain air carriers to provide essential air service to some small communities in the U.S. If a subsidized carrier wants to reduce or suspend its air service to certain communities, DOT "holds-in" the subsidized air carrier until a replacement air carrier can be found to provide the essential level of air service. Abstract: The Compact of Free Association between the U.S. and the governments of certain territories in the

The Compact of Free Association and related Article IX of the Federal Programs and Services Agreement would make provision for payment of subsidy, if necessary, to maintain essential air transportation to the Federated States of Micronesia and the Marshall Islands when they acquire their new status. The Compact and Agreement also permit the Department under certain conditions to pay subsidy to freely Associated States air carriers and to authorize these carriers to carry local air traffic between Guam, the Commonwealth of the Northern Mariana Islands, and Honolulu, Hawaii. CFR Citation: 14 CFR 399

Abstract: TWA petitioned the CAB to establish an expanded policy of international cargo rate flexibility by which carriers would file for expedited effectiveness certain increased cargo rates on inbound traffic to the United States. The rate changes involved would be currency-related adjustments that carriers file in response to foreign government orders. TWA stated that this change is needed so that airlines are not exposed to penalties for failing to comply with foreign government directives. In addition, it argued that protracted review of these filings has a severe impact on airline revenues because an airline cannot change its tariffs to reflect currency devaluations. DOT is considering what action to take in response to this petition.

Abstract: The American Association of Airport Executives, the Airport Operators Council International and the Air Transport Association of America petitioned the CAB to simplify its countersign requirements. Presently, airlines are required to display four different consumer protection notices on their ticket counters. The petitioners alleged that the current notices are hard to read and, therefore, do not provide much notice to passengers. They proposed replacing the four notices with one simplified countersign. The CAB adopted an NPRM that proposed a number of alternatives, such as a long and/or short notice, where the notices would be required to be posted and whether a smoking notice should be included. DOT is now considering what action to take in response to the notice and comments filed.

Legal Authority: 49 USC 1373

CFR Citation: 14 CFR 221.160

Abstract: Would propose to amend regulations to allow cargo tariffs which are within the zones established under 14 CFR 399.41 to be filed on 30 days' notice. There are two alternatives: either maintain the status quo (60 days' notice) or change cargo tariff filing regulations to 30 days' notice to be consistent with passenger tariff filing requirements. Standardization of the regulatory tariff filing requirements for both cargo and passenger tariffs would benefit the industry.

Abstract: The Civil Aeronautics Board was an independent agency; its rules have now been transferred to DOT, a cabinet department. This review will identify any CAB rules which are not consistent with Department or Administration regulatory criteria, such as those that impose an unnecessarily high cost or those with paperwork burdens that can be reduced or which involve a level of benefits or costs which are either higher or lower than necessary. The review will examine all alternatives, from strengthening a given rule to eliminating it. Non-regulatory approaches, including the supplying of information by the government, or regulation by another level of government, will be also considered. The benefits and costs will be known only after these alternatives have been developed. This review is a priority because it involves important departmental policy.

72. ESSENTIAL AIR SERVICE SUBSIDY GUIDELINES

Legal Authority: 49 USC 1324

CFR Citation: 14 CFR 271

Abstract: The Board provided subsidy to airlines to ensure that small communities receive essential air service at a level determined in accordance with 14 CFR Part 338. 73. OBLIGATION OF CARRIERS TO PROVIDE ADEQUATE SERVICE AT ELIGIBLE POINTS

Legal Authority: 49 USC 1374; 49 USC 1389

CFR Citation: 14 CFR 399

Abstract: The CAB set essential air service levels under section 419 of the Act for eligible points (small communities). Some of these points were being served by air carriers that were not providing the required level of service. This rule would have established a new policy under which the CAB would have relied on the "adequate service" provision of section 404(a) of the Act as authority to order these carriers to provide adequate (i.e., essential) service at points they now serve. The rulemaking was withdrawn because it was no longer necessary.

Legal Authority: 49 USC 1374; 49 USC 1484; 49 USC 1601

CFR Citation: 14 CFR 399

Abstract: The mandatory joint fare requirements established in the Domestic Passenger Fare Investigation ended on January 1, 1983, with the end of the CAB's jurisdiction over domestic passenger fares. The CAB issued a proposal on its own initiative and in response to a petition filed by American Airlines to change the joint fare requirements in 1 of 3 ways. The CAB considered eliminating the system in some or all markets, or making interlining mandatory upon request. The rulemaking was terminated because the CAB no longer had authority to regulate this area.

Legal Authority: 49 USC 1324; 49 USC 1374; 49 USC 1375; 49 USC 1381

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1387

CFR Citation: 14 CFR 241

Abstract: This rule would eliminate from the Aviation Uniform System of Accounts and Reports (USAR) 16 financial and statistical schedules, 4 yearly summarization schedules and 9 accounting policy standards. Priority: Agency Determination

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1387

CFR Citation: 14 CFR 241

Abstract: This rule would require only those certificated carriers operating large aircraft (more than 60 seats or more than 18,000 pounds of payload) to file the Form 41 report. Carriers operating other than large aircraft would report under Part 298. This rulemaking is significant because it may significantly impact on the aviation industry and may lead to a reduction in paperwork burdens.

85. AIR SERVICE TERMINATIONS IN FOREIGN MARKETS

Legal Authority: 49 USC 1324; 49 USC 1377

CFR Citation: 14 CFR 323

Abstract: The CAB eliminated all advance notice requirements for terminations of service in foreign air transportation. This created problems in some limited designation markets where the incumbent carrier terminated service without informing the CAB. The CAB proposed to require carriers to report to the CAB if they were

terminating foreign air service so that the CAB would have time to find a replacement, if necessary. The CAB terminated the rulemaking because it was unnecessary and because there were no significant problems in the area for the last 2 years.

86. EMPLOYEE RESPONSIBILITIES AND CONDUCT

Legal Authority: PL 95-521

CFR Citation: 14 CFR 370; 14 CFR 300

Abstract: The CAB considered revisions of its ethics rules to reflect its experience since the last revision and to conform to the Ethics in Government Act, Pub. L. 95-521. The rulemaking is no longer necessary because DOT has its own ethics rules.

87. RECONSIDERATION OF THE 1-HOUR EXEMPTION FOR DENIED BOARDING COMPENSATION

Legal Authority: 49 USC 1324; 49 USC 1371 to 1374; 49 USC 1377; 49 USC 1381; 49 USC 1386; 49 USC 1482

CFR Citation: 14 CFR 250

Abstract: The CAB denied a petition by the Aviation Consumer Action Project (ACAP) to modify the 1-hour exemption to the oversales rule. The exemption provides that carriers need not pay denied boarding compensation to passengers who are accommodated on alternative flights that are scheduled to arrive within 1-hour of the scheduled arrival time of the original flight. ACAP argued that this change will increase overbooking, undermine volunteer solicitation, and result in no compensation to passengers who are injured.

Legal Authority: 49 USC 1371; 49 USC 1372; 49 USC 1381; 49 USC 1386

CFR Citation: 14 CFR 380

Abstract: The CAB adopted a rule requiring advertising of charter flights, charter tours, or components of charter tours to state the entire price that a passenger must pay for the flight, tour or tour component. The rule will apply to advertising distributed after March 18, 1985.

CFR Citation: 14 CFR 399

Abstract: The CAB had standard conditions that it placed on permits given to foreign air carriers. Some, but not all of those conditions were listed in the CAB's (now DOT's) statements of general policy for convenience. This rule eliminated the statement of policy because it was duplicative. The conditions, however, remain unchanged and will continue to be included on each foreign air carrier permit.

Legal Authority: 29 USC 794; 49 USC 1324

CFR Citation: 14 CFR 383, (Proposed)

Abstract: The CAB had rules that prohibited discrimination against the handicapped by air carriers. The CAB considered developing rules to prohibit such discrimination by the CAB itself. This rulemaking was terminated because DOT already has a broader rulemaking on this subject.

Legal Authority: 49 USC 1324; 49 USC 1372

CFR Citation: 14 CFR 221

Abstract: The CAB adopted an interpretative amendment to clarify its rules concerning placement of the notice of limitations of baggage liability in international air transportation. The prior rule stated that the notice must be provided "on" the ticket. USAir asked that airlines be allowed to provide the notice "on" or "with" the ticket to permit use of automated ticketing and boarding passes. The final rule granted USAir's request.

CFR Citation: 14 CFR 250

Abstract: People Express petitioned the CAB to clarify, interpret or amend its oversales rule to allow air carriers to give involuntarily bumped passengers vouchers instead of checks. These vouchers could be used for transportation or mailed in to the airline for a refund. People Express argued that such a change would benefit consumers because it would give them the option to choose a cash refund or free or reduced-rate air transportation without having to make a decision on the spot. The CAB denied the petition because such vouchers would not satisfy the "immediate negotiability" requirement of the rule.

Priority: Major

Legal Authority: 46 USC 3306

CFR Citation: 46 CFR 45; 46 CFR 93

Abstract: Would require a level of subdivision for new ships which is at least equivalent to that required for Maritime Administration construction loan guarantees. Would reduce the risk of catastrophic sinking and increase the time available to utilize recently improved survival gear. This project is significant because it would initiate a significant change in policy which differs substantially from international standards. Additionally, it could result in a major price increase for an individual industry.

97. SEGREGATED BALLAST, DEDICATED CLEAN BALLAST, AND CRUDE OIL WASHING ON EXISTING TANK VESSELS OF 20,000 TO 40,000 DEADWEIGHT TONS (82-028)

Priority: Major

Legal Authority: 46 USC 3705(c); 46 USC 3706(d); 46 USC 2104; 46 USC 3306

CFR Citation: 33 CFR 157

Abstract: This project would amend 33 CFR pt. 157 for the purpose of implementing the tanker construction and equipment standards in 46 USC 3705(c) and 46 USC 3706(d). These statutes require tank vessels of 20,000 to 40,000 DWT that are 15 years old or older to have segregated ballast tanks, dedicated clean ballast tanks or a crude oil washing system by January 1, 1986 or the date they reach 15 years of age; whichever occurs later. This rulemaking is considered significant because of the economic impact of the statute on industry, and Congressional and Administration interest. It is needed because implementing standards mandated by the Port and Tanker Safety Act, will reduce operational pollution from ballasting, tank cleaning and sludge removal on existing tank vessels that are 15 years old or older.

Legal Authority: 33 USC 1223; 33 USC 1224

CFR Citation: 33 CFR 166; 33 CFR 167

Abstract: Would implement the results of the Port Access Route Study mandated by the Ports and Waterways Safety Act. As a result of the study, the Coast Guard has preliminarily determined that potential conflicts between oil drilling and shipping require creation of a fairway system off the coast of California from the vicinity of San Francisco to Los Angeles/Long Beach and changes to the San Francisco and Santa Barbara channel traffic separation schemes. No structures would be permitted in the fairway.

Abstract: Would redefine and establish qualifying criteria for certifying individuals engaged in the carriage and transfer of the various categories of dangerous cargoes in bulk. This is considered significant because of passage of the Port and Tanker Safety Act of 1978 and the fact that the International Convention on the Standards for Training, Certification and Watchkeeping for Seafarers of 1978 will enter into force on April 28, 1984. This rulemaking is necessary because most pollution incidents are the result of personnel error; consequently, the minimum qualifications of persons involved in handling polluting substances should be specified.

Abstract: Various Coast Guard regulations specify the intervals for drydocking and tailshaft examinations on inspected vessels. The Coast Guard is considering changing these intervals. Extending the interval between drydockings, if it could be accomplished without diminishing overall vessel safety, could result in significant savings to vessel operators. The ANPRM sought information from industry on developing technology. This regulation is significant because it involves important departmental safety policy.

CFR Citation: 33 CFR 27; 33 CFR 66; 33 CFR 74; 33 CFR 100; 46 CFR 159

Abstract: This proposal would impose fees for certain Coast Guard services in keeping with the Administration's policy of recovering costs of services provided by the Federal Government to identifiable beneficiaries to the extent practicable. This rulemaking is significant because it will set precedent for a whole range of anticipated Coast Guard initiatives and is likely to create an adverse public reaction. Priority: Agency Determination

Legal Authority: 49 USC 1354(a) Federal Aviation Act of 1958, Sec. 313(a); 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1423 Federal Aviation Act of 1958, Sec. 603

CFR Citation: 14 CFR 21

Abstract: Would (1) simplify the procedure for approving a PMA applicant's design on the basis of identicality to an already approved design; (2) reduce PMA application and reporting requirements; and (3) add a marking requirement which will facilitate field installation of replacement parts manufactured under a PMA and help avoid use of incorrect parts. The proposed revision is considered to be significant because it is controversial. Differences of opinion exist with respect to the methods available for showing identicalness of parts. Also the Parts Manufacturer Approval application and reporting requirements may be unnecessarily burdensome. Public comments, agency discussions, and information from other Federal departments and agencies indicate that there is substantial confusion about the PMA process and misinterpretation of PMA regulations. Thus, the agency has commissioned a study and evaluation of the PMA process to determine whether any regulatory changes are necessary. The study is completed and is being reviewed.

195. AIRBORNE LOW-LEVEL WIND SHEAR EQUIPMENT REQUIREMENTS

Priority: Agency Determination

Legal Authority: 49 USC 1354(a) Federal Aviation Act of 1958, Sec. 313(a); 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1424 Federal Aviation Act of 1958, Sec. 604

CFR Citation: 14 CFR 121

Abstract: Would revise existing regulation to require all large passenger-carrying aircraft be equipped with a device that will display wind shear information to the pilots. This action is considered a significant project because it will generate substantial public interest and will be controversial. As a result of several accidents involving wind shear, it is necessary to identify equipment that will enable pilots to identify low level wind shear conditions.

Additional Information: Docket No. 19110. In 1975, the FAA began a two year effort to develop a wind shear program. As part of the program, FAA began work to develop a wind shear warning and pilot aiding device which has achieved encouraging results. Following the initial announcement of this proposal it was determined that a regulatory analysis would not be required; however, an evaluation will be made and docketed. ANPRM No. 79-11 was published on May 3, 1979 (44 FR 25807) and comment period closed August 3, 1979. (14 CFR Parts 91, 121 & 135.)

196. REVIEW: UPDATE OF PART 139

Priority: Agency Determination

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1429 Federal Aviation Act of 1958, Sec. 609; 49 USC 1430 Federal Aviation Act of 1958, Sec. 610; 49 USC 1432 Federal Aviation Act of 1958, Sec. 612

CFR Citation: 14 CFR 139

Abstract: Revision of 14 CFR Part 139 to update and clarify the part including fire-fighting, rescue, and airport fueling operation requirements. This rulemaking is significant because of substantial public interest.

Additional Information: This project was initiated on June 25, 1975, in response to a GAO evaluation of the FAA's Airport Certification Program and the result it has on improving the safety of airports. The project has been delayed for a number of reasons that impacted completion and publication of an NPRM. Some of these reasons are: FAA cost benefit analysis of CFR services, recent changes to the F.A. Act and proposed sunset of CAB. On November 22, 1982 FAA conducted a listening session with aviation industry representatives. A public meeting was held on July 14, 1983, to discuss areas of concern such as airport crash, fire and rescue equipment requirements, snow removal and extended safety areas.

Additional Information: Docket No. 22471. The rule was originally promulgated to reduce air traffic congestion and delay. With the advent of improved programs, procedures, and air traffic flow management, the rule is felt to be unnecessary. On March 6, 1984, the FAA issued an interim final rule that amended the High Density Rule (49 FR 8237; March 6, 1984). The agency will reexamine within the next 6-9 months (from the 3/1/84 issuance date) the capability of the air traffic control system to handle the unusual demands that a less constrained system may create, such as significant airborne holding and multiple requests by operators for release from gates. This will be examined in connection with airport capacity and the experience levels of air traffic control personnel.

CFR Citation: 14 CFR 93

Abstract: This rulemaking proposes to change the annual passenger ceiling at

Washington National Airport from 16 million to 14.8 million or to a figure between 14.8 million and 16 million depending upon the highest annual passenger level forecasted within the next 2 years. It also proposes to allow commuter carriers utilizing smaller, quieter aircraft to conduct a limited number of "stol runway" operations at National Airport in addition to the operations permitted by the current limitations. This amendment is proposed to guide the future operation and development of Washington National and Dulles International Airports and to improve the quality of the environment in the areas around National. This rulemaking is considered to be significant because of possible public interest.

National Environmental Policy Act, Title I; EO 11514

CFR Citation: 14 CFR 21; 14 CFR 36

Abstract: Would revise noise certification standards for aircraft to add provisions applicable to helicopters. These would apply to civil helicopters in the normal, transport, and restricted categories, and would provide noise level limits and test procedures for the issuance of new and amended type certificates. It would also prohibit changes in type design of helicopters that might increase their noise levels beyond certain limits. Although this notice contains several provisions similar to those in an earlier notice, which was withdrawn in 1981, it differs from that notice in several important aspects. One is the absence of any limit on manufacture of older non-conforming types; another is the increased commonality between these proposed standards and those adopted by the International Civil Aviation Organization (ICAO).

Additional Information: Part 36 of the Federal Aviation Regulations (14 CFR Part 36) contains noise standards for aircraft type and airworthiness certification. As the part is currently organized, Subparts B and C and Appendices A, B, and C apply to transport category large airplane and subsonic turbojet powered airplanes regardless of category. Appendix F contains the provisions applicable to propeller driven light airplanes. This notice proposes to prescribe noise levels and test procedures for civil helicopters certificated in the normal, transport, and restricted categories. These proposals include rules governing the issuance of new and amended type certificates for helicopters for which application is made on and after the publication date of this notice. The proposed rule would prohibit certain growth or other design changes if those changes might result in noise levels beyond prescribed limits. The proposed rule also provides the test conditions and procedures for conducting helicopter noise tests to demonstrate compliance with the prescribed noise levels.

CFR Citation: 14 CFR 93

Abstract: This proposed rule is designed to alleviate increased delays throughout the air traffic system. If implemented, the FAA would alter current airline scheduling through a lottery process to more evenly space arrivals and departures throughout the day. Alternatives include voluntary schedule changes by the airlines. The rule, or the alternatives, would benefit the airline industry and the public by limiting delays. This regulation is

216. SHOULDER HARNESSES IN NORMAL, UTILITY, AND ACROBATIC CATEGORY AIRPLANES

Priority: Agency Determination

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec 313; 49 USC 1421 Federal Aviation Act of 1958, Sec 601; 49 USC 1423 Federal Aviation Act of 1958, Sec 603

CFR Citation: 14 CFR 23; 14 CFR 91

Abstract: This notice proposes to amend Parts 23 and 91 of the Federal Aviation Regulations (FAR) to require the installation of shoulder harnesses at all seats of normal, utility, and acrobatic category airplanes with a passenger seating configuration, excluding pilot seats, of nine or less, manufactured after December 31, 1984, and to require the pilot-in-command to brief passengers on how to fasten and unfasten their shoulder harness for takeoff and landings if shoulder harnesses are installed. This proposal responds to the conclusions of an FAA Crashworthiness Study Report, a Petition for Rulemaking from the General Aviation Manufacturers Association (GAMA), and Safety Recommendations from the National Transportation Safety Board (NTSB). This proposal will enhance the crashworthiness of small airplanes manufactured after December 31, 1984. This regulation is significant because of substantial public interest.

217. ● PROPOSED REVISION TO NOISE CERTIFICATION STANDARDS FOR PROPELLER DRIVEN SMALL AIRPLANES

Priority: Agency Determination

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1423 Federal Aviation Act of 1958, Sec. 603, 49 USC 1431 Federal Aviation Act of 1958, Sec. 611

CFR Citation: 14 CFR 21; 14 CFR 36

Abstract: Would revise noise certification standards for propeller-driven small airplanes to substitute the use of actual takeoff tests for the level flyover tests currently specified. This proposal would revise test procedures applicable to noise certification tests conducted on or after January 1, 1987. It would also revise the noise level limit numbers to approximate the equivalent of the sound levels measured and corrected in accordance with the current standard. These proposals result from industry requests for certification to be more directly based upon typical inservice noise measurements and from studies conducted in several nations over a three year period under the auspices of the International Civil Aviation Organization. In addition, the FAA proposes to exempt antique airplanes and changes involving the addition of floats or skis from the acoustical change measurement and documentation requirements of Part 21. This regulation is significant because of substantial public interest.

Legal Authority: 49 USC 2402 Admin. of Washington National Airport Act; 49 USC 2405 Admin. of Washington National Airport Act

CFR Citation: 14 CFR 159.181 to 185

Abstract: Proposed revision to reflect changed costs of operating the airports. This rulemaking is significant because it may involve possible controversy resulting from increased landing fees. It is of special interest to the airline industry.

219. ● PROPOSED LIMITS ON THE GROWTH OF NOISE FROM CERTAIN AIRPLANES AND AIRPLANE TYPES

Priority: Agency Determination

Legal Authority: 49 USC 1354(a) Federal Aviation Act of 1958, Sec. 313(a); 49 USC 1421(a) Federal Aviation Act of 1958, Sec. 601(a); 49 USC 1423 Federal Aviation Act of 1958, Sec. 603; 49 USC 1431(b) Federal Aviation Act of 1958, Sec. 611(b); 49 USC 1421 et seq National Environmental Policy Act, Title I; EO 11514; 49 USC 106(g)

CFR Citation: 14 CFR 36; 14 CFR 91

Abstract: Would revise both noise certification standards and operating noise rules to ensure that aircraft certificated within certain broad noise groups or "stages" remain within those stages. Those proposals would apply to transport category large aircraft and to turbojet powered aircraft regardless of category. The proposed rule would prohibit modification of both individual

airplanes and whole airplane types where those modifications would result in the growth of noise beyond the limits of the airplane's current stage. While the proposal would not restrict airplane changes that result in lower noise, it would in some cases prohibit re-modification of those aircraft to return to their original noise levels. The FAA believes that these rules are necessary to correct a defect in the current regulations and to protect airports, aircraft operators and the public from the effects of that defect. This rulemaking is significant because of intense public interest.

Aviation Act of 1958, Secs. 602 to 610; 49 USC 1502 Federal Aviation Act of 1958, Sec. 1102

CFR Citation: 14 CFR 91

Abstract: This review deals with the air traffic and general operating rules in Part 91 - the most fundamental aviation regulations. This action would reorganize and rearrange the rules without substantive change, to make them easier to use and understand. (Phase I). A later action will review and revise them to eliminate unnecessary burdens in keeping with E.O. 12291. (Phase II). AOPA withdrew its petition on November 20, 1980, so the FAA could proceed with this two-step review. ANPRM 79-2 published the original AOPA petition for comment on January 22, 1979 (44 FR 4571). NPRM 79-2A proposing reorganization of Part 91 was published on September 10, 1981 (46 FR 45256). NPRM 79-2B extended the comment period to April 9, 1982 (December 10, 1981; 46 FR 60461). Comments received on NPRM 79-2A will form a basis for proceeding with Phase II.

246. AIRPORT IMPROVEMENT PROGRAM

Legal Authority: PL 97-248 Airport and Airway Improvement Act of 1982

CFR Citation: 14 CFR 156. (Proposed)

Abstract: This action would prescribe requirements and procedures for applicants desiring to receive financial assistance under the Airport and Airway Improvement Act of 1982. The program provides grants for planning and developing public-use airports and the implementation of noise compatibility programs. Generally, to receive funds, the applicant must be a public agency; although, in some instances, private airport owners may receive funds. 247. NOISE STANDARDS: AIRCRAFT TYPE AND AIRWORTHINESS CERTIFICATION

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1423 Federal Aviation Act of 1958, Sec. 603; 49 USC 1431 Federal Aviation Act of 1958, Sec. 611

CFR Citation: 14 CFR 36

Abstract: Part 36 prescribes noise type certification standards for turbo jet powered airplanes and propeller driven small airplanes regardless of category. This review will examine the need to reorganize and realign the noise standards to make them more understandable and easier to use. This review would reorganize existing material into several new subparts, and utilize an improved numbering system to provide for the easier inclusion of future changes. Other improvements would be made by deleting redundancies, obsolete compliance dates, and making other minor changes. Additionally, Part 36 will be reviewed in accordance with Executive Order 12291 to reduce regulatory burdens on the public, including the preparation of both a Regulatory Evaluation and a Regulatory Flexibility Analysis.

Existing Regulations Under Review
Priority Reviews

Sec. 601; 49 USC 1427 Federal Aviation Act of 1958, Sec. 607

CFR Citation: 14 CFR 67

Abstract: These regulations specify the medical standards which must be met before a medical certificate is issued to an airman. For example, a medical certificate is required before a person can obtain a pilot license. During a recent rulemaking involving these regulations, a considerable number of commenters expressed the belief that the current standards should and could be revised to state, in generally applicable objective terms, all those circumstances in which the FAA will issue medical certificates. In the past, some certificates have been issued on a case-by-case basis, with appropriate limitations, under exemption and waiver provisions where strict compliance with the existing standards was not essential in the interest of safety. A comprehensive review of these regulations is necessary to determine if the commenters' arguments are correct. If they are and the requested regulatory changes are possible, it could greatly reduce burdens, both on the FAA and airmen, associated with the processing of medical certificates.

Other regulatory projects affecting Part 23, and not needing analysis more in-depth than would occur as part of this review, are being included in this review to assure efficient use of the affected FAA rulemaking resources. Current projects in this category include the project to revise Part 23 to include Special Conditions and the project to amend Part 23 to include Marking Requirements for External Openable Exits. A public meeting is planned as a result of proposals received and four separate NPRM's are planned to resolve the known issues, the first of which is anticipated for mid summer '85.

CFR Citation: 14 CFR 150

Abstract: Revises and replaces with a final rule the interim rule (FAR Part 150) on this subject. (1) prescribing requirements for airport operators choosing to submit an airport noise exposure map or an airport noise compatibility program. (2) establishing a single system of measuring aircraft noise and a single system for determining the exposure of individuals to noise in the vicinity of airports. and (3) identifying land uses that are normally compatible (or noncompatible) with various levels of noise around airports. The regulation is significant because it is of substantial interest to the public, potentially affecting State and local governments and the aviation community. The Aviation Safety and Noise Abatement Act of 1979 requires the Secretary of Transportation (and through delegation, the Administrator of the FAA) to establish items (1), (2), and (3).

Priority: Major

Legal Authority: 49 USC 2314; 49 USC 3102; Section 414 of STAA of 1982

CFR Citation: 49 CFR 393

Abstract: Section 414 of the Surface Transportation Assistance Act of 1982 (Pub. L. 97-424) states that Congress declares the visibility on wet roadways in the Interstate System should be improved by reducing splash and spray from truck tractors, semitrailers and trailers. Congress instructed the Secretary to establish, by regulation, minimum standards with respect to the performance and installation of splash and spray suppression devices on truck tractors, semitrailers and trailers. Further, Congress mandated that all vehicles in use 5 years from date of enactment, be equipped with such devices. The revisions to 49 CFR .393 will implement this mandate. This rulemaking is considered significant because of its economic impact on the motor carrier industry.

304. DRIVER'S RECORD OF DUTY STATUS

Priority: Major

Legal Authority: 49 USC 3102

CFR Citation: 49 CFR 395

Abstract: A final rule with a request for comments was issued to comply with an opinion issued by the United States Court of Appeals for the District of Columbia. The FHWA is amending the Federal Motor Carrier Safety Regulations (FMCSR) to (1) reinstate the 12 hour limitation in the 100 mile exemption provision in lieu of the present 15 consecutive hours, and (2) reinstate the 7 data items deleted from the recordkeeping requirement of the driver's record of duty status. The Court stated that the FHWA had not adequately demonstrated that the enforcement of drivers' hour requirements would not be compromised by the omission of the seven items or the expansion of the exception. A public docket is being opened and FHWA will determine if such a factual basis for future rulemaking can be demonstrated.

305. REVIEW: DESIGN STANDARDS FOR HIGHWAYS

Priority: Agency Determination

Legal Authority: 23 USC 109; 23 USC 315; 23 USC 402

CFR Citation: 23 CFR 625

Abstract: This regulation amends the existing geometric design standards for highways for the new construction and major reconstruction of Federal-aid highways by replacing several publications incorporated by reference in 23 CFR Part 625 with a single new publication. Public comments were requested on the geometric design criteria as presented in a draft of the new publication, "A Policy on Geometric Design of Highways and Streets" prepared by the American Association of State Highway and Transportation Officials (AASHTO). Comments received as a result of NPRM published February 14, 1980 (45 FR 10236) have been evaluated and recommended changes submitted to AASHTO for consideration.

306. ● TRUCK SIZE AND WEIGHT; INTERPRETATION AND POLICY STATEMENT; PROPOSED RULEMAKING

Priority: Agency Determination

Legal Authority: 23 USC 315; PL 97-424, Sec 133; PL 97-424, Sec 411; PL 97-424, Sec 412; PL 97-424, Sec 413; PL 97-424, Sec 416

CFR Citation: 23 CFR 658

Abstract: The FHWA is proposing to provide a statement of FHWA interpretation and policy addressing the size and weight provisions contained in the Tandem Truck Safety Act of 1984 (TTSA) which amended the Surface Transportation Assistance Act of 1982 (STAA). This action will also identify for re-examination specific routes with lanes less than 12 feet wide that are in States which do not provide authority for 102-inch vehicles to use the public highway. Comments are being requested on the ability of specific segments with less than 12 foot lanes to safely accommodate the longer dimensioned trucks authorized by the STAA. This rulemaking is significant because of substantial public interest.

FEDERAL MOTOR CARRIER SAFETY REGULATIONS

307. ● FEDERAL MOTOR CARRIER SAFETY REGULATIONS

Priority: Agency Determination

Legal Authority: 42 USC 3102; PL 98-554, Sec 206

CFR Citation: 49 CFR 390 to 399

Abstract: Section 206 of the Motor Carrier Act of 1984 (Pub. L 98-554) (the Act) directs the Secretary of Transportation to issue regulations pertaining to commercial motor vehicle safety. The Department has issued regulations, the Federal Motor Carrier Safety Regulations (FMCSR), on this subject under earlier authority (49 U.S.C. 3102). The purpose of this advance notice of proposed rulemaking (ANPRM) is to identify and solicit comment on specific changes which should be made to the FMCSR prior to reissuance in order to effectuate the purposes of the Act. The purposes of the Act are to ensure that: commercial motor vehicles are safely maintained, equipped, loaded and operated; the responsibilities of drivers do not impair their ability to drive safely; the physical condition of drivers is adequate to enable them to drive safely; and the operation of the vehicles does not have deleterious effects on drivers. This rulemaking will be a comprehensive effort, and thus the Agency will incorporate certain other regulatory actions which have been proposed but have not yet been completed. There is no alternative to the overall reissuance of the FMCSR. However,

Additional Information: (ABSTRACT CONT:) the agency intends to propose specific changes to the FMCSR which will then be fully analyzed, including a full range of alternatives to each proposal. Similarly, potential costs and benefits cannot now be identified, but rather must await the development of a notice of proposed rulemaking. This rulemaking is significant because of substantial public interest.

RIGHT-OF-WAY AND ENVIRONMENT

308. REVIEW: OUTDOOR ADVERTISING CONTROL AND ACQUISITION

Priority: Agency Determination

Legal Authority: 23 USC 131; 23 USC 148; 23 USC 315

CFR Citation: 23 CFR 750, Subpart G

Abstract: This regulation would provide a definition of "effective control" of outdoor advertising as required by 23 U.S.C. 131. It would also set further requirements for signs exempt from control under the statute and establish the basic framework for State development of police power regulations and procedures. The regulation would also outline the requirements for Federal participation in the acquisition of compensable nonconforming outdoor advertising devices. This proposal is significant because it may involve substantial

public interest, is controversial and involves important departmental policy. This regulation is necessary for the maintenance of national uniformity in the outdoor advertising control program. Since 23 U.S.C. 131 is regulatory in nature, it is necessary to establish and maintain minimum Federal program requirements. The proposal involves the consolidation of two existing regulations, 23 CFR pt. 750, subpts. D and G, and one interim regulation 23 CFR pt. 750, subpt. E. The regulations have been in effect since September 16, 1975 and July 29, 1974, respectively. The interim regulations have been in effect (cont)

ABSTRACT CONT: since October 18, 1976. The proposed consolidation will be issued as an NPRM. An ANPRM, published April 30, 1979, (44 CFR 25387) and a Notice, published May 17, 1979, (44 CFR 28946) announced public hearings as part of an overall review of the Highway Beautification Program. These currently proposed regulations may be modified as a result of this review. A Notice published June 15, 1979 (44 CFR 34516) announced a hearing site change and a change in hearing procedures. On June 25, 1979 (44 FR 37100), a Notice announced amendments to the Highway Beautification Act by the Surface Transportation Assistance Act of 1978. A Notice published on July 12, 1979 (44 FR 40781) announced the establishment of a National Advisory Committee on Outdoor Advertising and Motorist Information. The need for further action is being reviewed by the Department of Transportation.

309. REVIEW: ENVIRONMENTAL IMPACT AND RELATED PROCEDURES

Priority: Agency Determination

Legal Authority: 42 USC 4321 et seq; 23 USC 101 et seq; 49 USC 1601 et seq; 49 USC 303(c)

CFR Citation: 23 CFR 771; 49 CFR 622

Abstract: This regulation covers the preparation of environmental impact statements and related documents and compliance with other Federal environmental requirements under FHWA and UMTA grant programs. The changes are intended to streamline the project development process and provide increased decisionmaking authority to agency field offices. The amendments are significant because they involve important departmental policy. They are needed to reduce burdens associated with the environmental review process.

310. AIR QUALITY PROCEDURES FOR USE IN FEDERAL-AID HIGHWAY AND FEDERALLY FUNDED TRANSIT PROGRAMS

Priority: Agency Determination

Legal Authority: 23 USC 109(h); 23 USC 109(j); 23 USC 315; 42 USC 4332; 42 USC 7401; 42 USC 7506

CFR Citation: 23 CFR 770

Abstract: This regulation proposes to consolidate and amend existing air quality requirements for transportation projects into a single amended air quality regulation. The amended regulation is intended to streamline and simplify (1) the process of determining which highway projects are exempt from the Federal assistance limitations of section 176(a) of the Clean Air Act (CAA), and (2) the conformity and priority procedures contained in 23 CFR 770. The amendments are also intended to provide more authority and flexibility to State and local agencies and to meet the objectives of the CAA in the most cost-effective and expeditious manner. The amendments are significant because they involve important departmental policy.

Legal Authority: 23 USC 112(b); 23 USC 140(a); 23 USC 315

Additional Information: Additional Information: An interim policy statement was published 6/6/83 (48 FR 25181) to implement acceleration methods for selected projects within existing regulations. Initially, FHWA had considered issuing a new regulation as a vehicle for accelerating Federal-aid projects pursuant to Section 129 of the STAA of 1982. However, it has been determined that the objectives of Section 129 can be best implemented by revisions to existing regulations. Therefore, separate regulations will not be issued regarding the acceleration program. This approach received the concurrence of Deputy Administrator Lamm on April 11, 1984. This regulation will be withdrawn.

Legal Authority: 23 USC 109(a)(b)(c); 23 USC 315

CFR Citation: 23 CFR 626; 23 CFR 625

Abstract: The existing regulation on pavement design would be modified to eliminate unnecessary requirements and duplicative provisions. Currently, the Federal Highway Administration (FHWA) uses the "American Association of State Highway and Transportation Officials (AASHTO) Interim Guide for Design of Pavement Structures, 1972," Chapter III Revised, 1981, to evaluate the adequacy of the proposed pavement designs for Federal-aid projects. AASHTO is in the process of updating this guide. A draft of the update is scheduled for early 1985. FHWA will solicit comments on the update and evaluate whether the new guide should be adopted.

Legal Authority: 23 USC 110; 23 USC 120; 23 USC 315

CFR Citation: 23 CFR 635

Abstract: The revisions would address the extent to which Federal-aid highway funds may participate in awards and settlements of Federal-aid highway contract claims brought by private contractors against State Highway Agencies. The revisions would clarify the existing regulation by specifying more definitive criteria in determining eligibility for participation. It is anticipated that the revised regulation would enable State Highway Agencies to submit more specific information supporting their requests for participation determinations more consistent State-to-State.

CFR Citation: 23 CFR 230; 23 CFR 640; 23 CFR 642

Abstract: The FHWA is amending its regulation on recordkeeping and reporting requirements for on-the-job training on Federal-aid construction contracts. The revised regulation would no longer require contractors to submit the Federal-Aid Highway Construction Contractor's Semi-Annual Training Report (OMB No. 2125-0021) and would no longer require State Highway Agencies to complete and submit the Federal-Aid Highway Construction Semi-Annual Training Report (OMB No. 2125-0021). In addition, the specific recordkeeping requirement and documentation of contractor performance under the training special provision would be eliminated. The revisions are being proposed as a result of an effort to carry out an internal Cost Avoidance, Reduction, Efficiency, and Effectiveness (CARE) program.

329. CONTRACT PROCEDURES; ADVERTISING FOR BIDS; NONCOLLUSION AFFIDAVIT

Legal Authority: 23 USC 112; 23 USC 315

CFR Citation: 23 CFR 635

Abstract: The revisions would require all persons submitting bids on a Federal-aid highway project to submit with the bid an affidavit on non-collusion. The submission of an affidavit of non-collusion will serve to notify bidders that collusion on bidding is a violation of law and will serve in a court or administrative hearing as evidence of intent when other evidence that demonstrates the act of collusion is presented.

330. PUBLIC LANDS HIGHWAYS

Legal Authority: 23 USC 202(c); 23 USC 204; 23 USC 315

CFR Citation: 23 CFR 667

Abstract: The proposed revisions are intended to bring the existing regulation up to date considering recent legislative and administrative changes in the program. Public Lands Highways are Federal-aid highways which are bounded on both sides by unappropriated or unreserved public lands, nontaxable Indian lands or other Federal reservations. The regulation would specify procedures for allocation of funds and project administration and provides guidance on eligibility of work.

CFR Citation: 23 CFR 658

Abstract: The FHWA is proposing revisions to certain provisions as established by the final rule on truck size and weight published on June 5, 1984 (49 FR 23302). This action proposes: (1) to determine maximum semitrailer dimensions in use in each State on December 1, 1982, as referenced in 23 CFR Part 658.13(c)(2), and (2) to propose an interpretation of 23 CFR Part 658.13 that the combination vehicle described as a truck-tractor semitrailer-semitrailer be considered as a truck-tractor semitrailer-trailer for the purposes described in 23 CFR Part 658.

338. WRITTEN EXAMINATION

Legal Authority: 49 USC 3102; PL 98-554, Sec 206

CFR Citation: 49 CFR 391.35

Abstract: The FHWA is considering a revision of the written examination requirement for commercial vehicle drivers. The options being considered are (1) rescission of the requirement, (2) leaving the requirement as it is and updating the questions, or (3) changing the requirement to a pass/fail situation. An ANPRM was issued on 03/04/82 (47 FR 4256). The ANPRM issued on 3/4/82 (47 FR 4256) is being withdrawn pursuant to section 206 of the Motor Carrier Act of 1984. 340. REVIEW: NOTIFICATION, REPORTING AND RECORDING OF ACCIDENTS

Legal Authority: 49 USC 3102; PL 98-554, Sec 206

CFR Citation: 49 CFR 394

Abstract: The revision deals primarily with revising the truck and bus accident report forms. Being considered are (1) the consolidation of both forms into one, (2) reducing the number of copies to be filed and (3) raising the reporting threshold from the present $2,000 to a higher figure. The NPRM issued on 1/16/84 (49 FR 1912) is being withdrawn pursuant to section 206 of the Motor Carrier Safety Act of 1984. Legal Authority: 49 USC 3102; PL 97-261, Sec 25

CFR Citation: 49 CFR 393

Abstract: The FHWA is requesting comments on a recommendation by the National Research Council, Transportation Research Board, of the National Academy of Sciences (NAS) concerning the use of citizen band radios (CB's) on buses. This action is required by section 25 of the Bus Regulatory Reform Act of 1982. The NAS has recommended that FHWA maintain the status quo and allow motor carriers of passengers to continue to decide whether their drivers should be permitted to use CB's in buses, subject to collective bargaining.

PLANNING

348. REVIEW: HIGHWAY PLANNING PROGRAM ADMINISTRATION

Legal Authority: 23 USC 104; 23 USC 307; 23 USC 315

CFR Citation: 23 CFR 420, Subpart A; 23 CFR 450, Subpart C

Abstract: This revision to an existing regulation would reflect policy changes in management of the highway planning and research program, e.g., allowing separate projects for components of the program (urbanized area planning, statewide planning, research and development), and applying matching rates to time periods rather than a fiscal year fund, etc. NPRM was published January 11, 1979 (44 FR 2400). As a result of comments received to the Docket, as well as internal coordination, FHWA is considering combining this regulation with 23 CFR Part 450, Subpart C, Metropolitan Planning Funds, since both deal with program administration. A revised NPRM combining parts 420 and 450 and incorporating requirements mandated by the Surface Transportation Assistance Act of 1982 is being prepared.

Legal Authority: 23 USC 103(e)(5)(6); PL 96-106, Sec 2(c)

CFR Citation: 23 CFR 480

Abstract: Federal Highway Administration regulations in 23 CFR Part 480 prescribe the circumstances under which states must repay the Federal Government for the Federal contribution to the purchase of property for Interstate highway projects that are later withdrawn. Congress, in Public Law 96-106, amended 23 U.S.C. 103(e) to change the circumstances under which repayment must be made. CFR Citation: 23 CFR 810

Abstract: The existing regulation would be revised to incorporate statutory changes mandated by the Surface Transportation Assistance Act of 1982 (STAA) and to make other revisions to update references to other regulations or statutes and to reflect administrative changes. The revisions would provide the basic criteria for determining whether mass transit and special use highway projects are eligible for Federal-aid funding under 23 USC 137, 142, and 149. 355. PUBLIC HEARINGS AND LOCATION DESIGN APPROVAL

Legal Authority: 23 USC 101 et seq; 23 USC 109(h); 23 USC 128; 23 USC 315; 49 USC 1651; 49 USC 1657(e)(1)

CFR Citation: 23 CFR 790; 23 CFR 771.111(h)

Abstract: The existing regulation contains duplicative provisions that are contained in 23 CFR 771. The rescission of 23 CFR 790 will simplify and consolidate project development processes preceding PS & E (Plans, Specifications, and Estimates) under the NEPA process and will consolidate requirements for public hearings in a single regulation.

360. EMPLOYEE SAFETY AND HEALTH STANDARDS

Priority: Agency Determination

Legal Authority: PL 98-544, Sec 206; 49 USC 3102

CFR Citation: 49 CFR 399

Abstract: This regulation would provide safety and health standards to govern employees engaged in the operation, maintenance, and loading and unloading of motor vehicles, designed to eliminate uncertainty with regard to the jurisdictional authority of the Occupational Safety and Health Administration (OSHA). This proposal is significant because it may have a significant impact on OSHA. These standards are needed because they are designed to eliminate uncertainty with regard to the jurisdictional authority of the OSHA and to improve safety and health standards for employees of motor carriers. The NPRM issued on 3/2/78 (43 FR 8566) is being withdrawn pursuant to section 206 of the Motor Carrier Act of 1984. Section 206 requires the reissuance of regulations pertaining to commercial motor vehicle safety by April 30, 1986. Comments received concerning this rulemaking will be incorporated into a new rulemaking action. See "Other Rulemakings" portion of agenda.

Legal Authority: 23 USC 202; PL 97-424, Sec 126

CFR Citation: 23 CFR 660

Abstract: The revision would provide a method for allocating forest highway funds based upon the relative transportation needs of the national forest system pursuant to section 126 of the Surface Transportation Assistance Act of 1982. The FHWA and United States Forest Service have jointly developed the proposed allocation method based upon transportation needs of renewable resource outputs and backlog of forest related improvement costs of public roads designated as forest highways.

FEDERAL MOTOR VEHICLE SAFETY STANDARDS

368. HEAVY DUTY VEHICLE BRAKE SYSTEMS (FORMERLY TRUCK AND TRAILER BRAKE SYSTEMS)

Priority: Major

Legal Authority: 15 USC 1392 National Traffic & Motor Vehicle Safety Act of 1966; 15 USC 1407 National Traffic & Motor Vehicle Safety Act of 1966

CFR Citation: 49 CFR 571.121; 49 CFR 571.105

Abstract: Would establish a new brake standard for all trucks, buses and trailers with a Gross Vehicle Weight Rating (GVWR) over 10,000 pounds. This standard would replace Standard No. 121, Air Brake Systems, and that portion of Standard No. 105, Hydraulic Brake Systems, that applies to vehicles with a GVWR over 10,000 pounds. It would also establish new requirements for heavy trailers having other than air-actuated brakes. In developing the standard, the agency will consider compatibility with international regulations. Research programs in support of this new standard and possible future upgradings of the standard will investigate such long-term advanced braking system concepts as automatic brake adjustors, load-sensing proportioning valves, air driers, and retarders for heavy trucks, buses and trailers. This rule is considered significant because of the level of public and Congressional interest. It is necessary to prevent and reduce the severity of accidents involving heavy vehicles by providing increased accident avoidance capability.

369. OCCUPANT CRASH PROTECTION - TEST PROCEDURES AND OTHER ISSUES

Legal Authority: 15 USC 1392 National Traffic and Motor Vehicle Safety Act ETC; 15 USC 1407 National Traffic and Motor Vehicle Safety Act ETC

CFR Citation: 49 CFR 571.208; 49 CFR 572

Abstract: This rulemaking addresses the test procedures used in compliance testing, the dummy used for such testing, and the oblique angle test requirement in the automatic occupant crash protection standard. It also addresses some related issues including the standard's applicability to convertibles, reporting requirements for manufacturers, and the exercise of "due care" by manufacturers, in complying with the standard. This rulemaking will consider whether the Hybrid III dummy or a variation may be substituted for the dummy currently specified in 49 CFR 572 at some future time with corresponding changes in, or additions to the injury criteria established by the existing Federal Motor Vehicle Safety Standard 208. The costs and benefits of these various proposed changes are not yet known. This regulation is significant because of its involvement with departmental policy.

Abstract: In accordance with the mandatory requirements of section 502(b) of the Motor Vehicle Information and Cost Savings Act, this rulemaking establishes light truck average fuel economy standards for model year 1986 and revises the model year 1985 standard. The initial NPRM had proposed standards for MY 1987. That portion of the first proposal will be covered in a subsequent rulemaking. A second NPRM responded to a Ford Motor Co. petition for rulemaking to reconsider the model year 1984 and 1985 light truck fuel economy standards. The second NPRM proposed the maintenance of the 1984 standards and a lowering of the 1985 standards.

REGULATIONS OTHER THAN SAFETY STANDARDS AND FUEL ECONOMY STANDARDS/EXEMPTIONS

378. NATIONAL DRIVER REGISTER

Priority: Agency Determination

Legal Authority: 23 USC 401 Note

Abstract: The National Driver Register Act of 1982 directs the agency to establish a new National Driver Register (NDR) that will assist states in

electronically exchanging information about problem drivers. This rulemaking will establish the procedures for making an orderly transition from the current NDR system to the electronic system mandated by the act. This regulation is significant because it involves important departmental policy.

379. ● THEFT PREVENTION STANDARD

Priority: Agency Determination

Legal Authority: PL 98-547 Motor Vehicle Theft Law Enforcement Act of 1984

CFR Citation: 49 CFR 541

Abstract: In response to the provisions of the Motor Vehicle Theft Law Enforcement Act of 1984, a new standard would be established that would require certain major vehicle parts determined to have high theft potential be marked with the vehicle identification number or a derivative thereof.

380. SPLASH AND SPRAY SUPPRESSION DEVICES

Priority: Agency Determination

Legal Authority: 49 USC 2314

CFR Citation: 49 CFR 583

Abstract: In accordance with the mandate of section 414 of the Surface Transportation Assistance Act of 1982, would establish minimum standards with respect to the performance of splash and spray suppression devices on truck tractors, semitrailers and trailers. Would also establish minimum standards with respect to the installation of splash and spray suppression devices on new vehicles. This regulation is significant because it is potentially controversial.

Timetable:

Action	Date	FR Cite
NPRM	03/00/85	

Small Entity: Yes

Additional Information: NHTSA's rulemaking would only affect new vehicles and equipment. However, section 414 of the Surface Transportation Assistance Act also mandates that the Department of Transportation establish minimum standards with respect to the installation of splash and spray devices for vehicles already in service. The Federal Highway Administration will conduct the rulemaking to satisfy that mandate. The Federal Highway Administration has classified its rulemaking as major. The costs of that rulemaking are expected to be much greater than NHTSA's rulemaking since (1) the population of vehicles in service is many times the annual production of new trucks, (2) a truck manufacturer will pay less per unit for each splash and spray suppression device when ordered in large quantities, and (3) the labor time to install the devices is far less for a new truck manufacturer, since it can be done at the assembly plant. In 1984, the Surface Transportation Assistance Act was amended to change the implementation date from 1/1/85, for new vehicles and 1/1/88, for vehicles in service, to one year after publication of the Final Rule for new vehicles & 3 years later for vehicles in service.

381. UNIFORM TIRE QUALITY GRADING STANDARDS - TREADWEAR AMENDMENTS

Priority: Agency Determination

Legal Authority: 15 USC 1423

CFR Citation: 49 CFR 575

Abstract: Would amend treadwear grading procedures of the Uniform Tire Quality Grading Standards to assure greater reliability of grading information for consumers. Test procedures would be amended to reduce variability and uniform grade assignment procedure would be established. This regulation is significant because it involves important departmental policy.

Legal Authority: 15 USC 1392 National Traffic and Motor Vehicle Safety Act ETC; 15 USC 1407 National Traffic and Motor Vehicle Safety Act ETC

CFR Citation: 49 CFR 571.208

Abstract: This rulemaking responds to petitions for reconsideration of the Secretary's final rule on Standard No. 208. The petitions requested changes on the following actions: permitting compliance with the automatic restraint requirement by installing driver-only, non-belt systems during the phase-in period; rescinding the standard; requiring automatic restraints regardless of what action States take in adopting mandatory belt use laws (MULs); providing additional leadtime for implementation of the automatic restraint requirements; allowing States to authorize waivers from a belt use requirement if use of a belt interferes unduly with job-related use of vehicles; deleting the mitigation of damages provision from the MUL criteria; and eliminating the MUL criteria on the penalty for not wearing a belt and State enforcement efforts.

FEDERAL MOTOR VEHICLE SAFETY STANDARDS

425. LAMPS, REFLECTIVE DEVICES, AND ASSOCIATED EQUIPMENT

Priority: Agency Determination

Legal Authority: 15 USC 1392, 15 USC 1407

CFR Citation: 49 CFR 571.108

Abstract: This standard, which is applicable to both motor vehicles and equipment, specifies requirements for original and replacement lamps, reflective devices, and associated equipment necessary for signaling and for the safe operation of motor vehicles during darkness and other conditions of reduced visibility. The standard is being reviewed because of its relatively high costs and to refine previous agency estimates of its effectiveness. At the present time, the review is limited to the standards requirements for side marker lamps. An evaluation report will be prepared and made available for public comment before completion of the review. At that time, the agency will consider whether changes should be made in the standard's requirements.

A review has determined that this rule has minimal effects on small entities and therefore a Regulatory Flexibility Act Review (RFA Review) is not required. The rule will still be reviewed as a priority review item.

It is estimated that the rule requires a recurring investment of $130 million (an additional cost of $19 per vehicle). This review is completed. An evaluation report was published in February 1982. Abstract: This regulation provides minimum standards for side door crash resistance for passenger cars under static test conditions. NHTSA estimates that the standard saves 2,800 lives and averts 7,000 injuries a year. A recurring cost of $300 million (an additional cost of $38 per vehicle) is associated with the requirement. 428. ● FEDERAL MOTOR VEHICLE SAFETY STANDARD NO. 301 - FUEL SYSTEM INTEGRITY

Priority: Agency Determination

Legal Authority: EO 12291

CFR Citation: 49 CFR 571.301

Abstract: This standard, which is applicable to passenger cars, light trucks, and school buses, specifies requirements for the integrity of motor vehicle fuel systems. The purpose of the standard is to reduce deaths and injuries caused by fires which result from fuel spillage or after motor vehicle crashes. This evaluation follows up and expands on a prior study on passenger cars which showed that while the regulation was effective in preventing deaths and injuries, the incidence of crash fires appeared to be increasing. This evaluation will also provide the initial assessment of the regulation as it applies to light trucks. A review has determined that this rule has minimal effects on small entities, and therefore a Regulatory Flexibility Act Review is not required. The rule will still be reviewed as a priority review item. Subsequent to completion of the study and provision for public comment, the Agency will consider whether changes should be made in the standard's requirements.

439. CONTROLS & DISPLAYS

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.101

Abstract: This final rule amends several of the identification requirements of the standard to improve the system by providing easily recognizable, international symbols and to relieve unnecessary restrictions on manufacturers by providing additional flexibility in their ability to identify controls and displays. Some amendments are of an optional nature. Others are optional now and become mandatory on September 1, 1987.

441. LAMPS, REFLECTIVE DEVICES, AND ASSOCIATED EQUIPMENT

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.108

Abstract: Amends Safety Standard No. 108 by adopting changes in rear yellow turn signal photometrics, license plate lamp requirements, minimum headlamp mounting heights and test grids for stop, turn, parking and tail lamps. The primary purpose of the amendments is to bring the requirements in the standard closer to those of the Economic Commission for Europe of the United Nations (ECE). The amendments will permit cost savings without adversely affecting safety.

449. HYDRAULIC BRAKE SYSTEMS

Priority: Agency Determination

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.105

Abstract: This standard, which currently applies to passenger cars and school buses, specifies requirements for hydraulic service brake and associated parking brake systems. (The standard became applicable, in modified form, to hydraulic braked trucks, all types of buses, and multipurpose passenger vehicles, in 1983. A priority review of this extension of the standard has already been completed.) The purpose of the standard is to ensure safe braking performance under normal and emergency conditions. The standard is being reviewed because of its relatively high costs, and the controversial nature of some of its requirements, as well as to refine previous agency estimates of

its effectiveness. An evaluation report will be prepared and made available for public comment before completion of the review. At that time, the agency will consider whether changes should be made in the standard's requirements. It should also be noted that the agency is actively involved with the Economic Commission for Europe (ECE) in international harmonization efforts in this area. A review has determined that this rule has minimal effects on small entities, and therefore a Regulatory Flexibility Act Review (cont)

Priority: Agency Determination

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.301

Abstract: This review is completed. The review found that while the standard was effective in reducing fatalities and injuries in passenger car crashes, the incidence of crash fires appeared to be on the increase. A new evaluation will be initiated to assess the significance of this trend and also to evaluate, for the first time, the effectiveness of the standard as it applies to light trucks.

451. ALCOHOL AND DRUGS

Priority: Agency Determination

Legal Authority: 45 USC 431

CFR Citation: 49 CFR 218

Abstract: The NPRM invites comments on a proposed rule to address the problem of alcohol and drug use by employees engaged in rail operations. Alcohol and drugs may impair the performance of operating employees such as train and engine crews, and such impairment has been implicated in a number of serious railroad accidents. This rulemaking is significant because of substantial public interest.

467. IMPLEMENTATION OF SECTION 19 OF THE URBAN MASS TRANSPORTATION ACTS OF 1964 -- NONDISCRIMINATION

Priority: Agency Determination

Legal Authority: 49 USC 1615 UMT Act Sec. 19

CFR Citation: 49 CFR 626

Abstract: The proposed regulations would unify the civil rights regulations that recipients of funds under the Urban Mass Transportation Act must meet. This rulemaking is significant because substantial public interest is anticipated. Regulations are needed to implement a new statutory provision which consolidates UMTA's authority to assure effective and uniform compliance with civil rights and equal employment opportunity requirements in a manner comparable to other agencies within the Department of Transportation.

CFR Citation: 23 CFR 771; 49 CFR 622

Abstract: This regulation covers the preparation of environmental impact statements and related documents and compliance with other Federal environmental requirements under UMTA and FHWA grant programs. The changes are intended to streamline the project development process and provide increased decisionmaking authority to agency field offices. This rulemaking is significant because it involves important departmental policy. It is needed to reduce burdens associated with the environmental review process.

UMTA published an ANPRM on January 19, 1981, that proposed extensive changes to the regulations. (46 FR 5394). The comment period closed on March 5, 1981. UMTA reviewed the comments received and recognized that there were many fundamental issues that needed further exploration. Consequently, UMTA decided to issue a new ANPRM rather than to continue to develop the previously issued ANPRM into an NPRM. The new ANPRM was published on October 12, 1982, and the public comment period closed on Nov. 26, 1982. Based on comments to the ANPRM, UMTA will publish an NPRM in 1985.

Legal Authority: 23 USC 109(h); 23 USC 109(j); 23 USC 315; 42 USC 4332; 42 USC 7401; 42 USC 7506

CFR Citation: 23 CFR 770

Abstract: This regulation proposes to consolidate and amend existing air quality requirements for transportation projects into a single amended air quality regulation. The amended regulation is intended to streamline and simplify (1) the process of determining which highway projects are exempt from the Federal assistance limitations of section 176(a) of the Clean Air Act (CAA), and (2) the conformity and priority procedures contained in 23 CFR 770. The amendments are also intended to provide more authority and flexibility to State and local agencies and to meet the objectives of the CAA in the most cost-effective and expeditious manner. The amendments are significant because they involve important departmental policy.

472. ● EXTENSION OF SAFETY REQUIREMENTS TO ALL FEDERALLY ASSISTED BUSES

Priority: Agency Determination

Legal Authority: 49 USC 1602; 49 USC 1607

Abstract: On October 1, 1982, UMTA rescinded its policy making advanced design bus specifications (The "White Book") mandatory for its grantees, but continued to mandate certain safety requirements applicable to such buses. On October 16, 1984, UMTA issued an ANPRM on whether these safety requirements should be extended to other buses financed by UMTA. This rulemaking is significant because of substantial public interest and controversy and because of the potential impact on the bus industry.

Legal Authority: 33 USC 988 68 Stat. 96

CFR Citation: 33 CFR 402

Abstract: Revision of 33 CFR Part 402 in accordance with the statutory requirements of 33 USC 988. The NPRM will set forth proposed changes to the charges to be assessed for the full or partial transit of the Saint Lawrence Seaway in 1985 and thereafter as appropriate. The changes will be the result of international negotiations between the Saint Lawrence Seaway Development Corporation and the St. Lawrence Seaway Authority of Canada. Cost will be borne primarily by foreign vessels, since these regulations relate to commercial users of the Seaway. The economic benefits to be derived from a safe and efficiently operated St. Lawrence Seaway are considerable.

480. REVIEW: PERFORMANCE-ORIENTED PACKAGING STANDARDS

Priority: Agency Determination

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1808

CFR Citation: 49 CFR 172; 49 CFR 173; 49 CFR 178

Abstract: To develop performance-oriented packaging standards for small packagings based on the Recommendation of the United Nations Committee of Experts on the Transport of Dangerous Goods. Also includes former non-significant rulemakings entitled "Consolidation of Specifications and Establishment of Performance Standards for Specification Bags" (Docket No. HM-153), "Specifications for and use of Specification 17 Steel Drums" (Docket No. HM-182), and "Organic Peroxide Requirements" (Project 186-72). The rulemaking is significant because a large number of specifications for packaging in the Hazardous Materials Regulations would be affected by this project. To a large extent the complexity and mass of the present Hazardous Materials Regulations are due to the detailed specification-type packaging standards contained in these regulations. To replace these with standards based on the U.N. system would both simplify the present regulations and facilitate international trade.

Priority: Agency Determination

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1809

CFR Citation: 49 CFR 171

Abstract: The current regulations require reports of hazardous material incidents. The objective of this review is to determine if the current data requirements can be modified to reduce the burden on industry but still result in the collection of the information needed for the hazardous materials safety program. Although safety programs, such as the one covered by these regulations, require data in order to function properly, it is possible that the data collection can be made less burdensome.

511. MODIFICATIONS TO DOT SPECIFICATION 21PF-1 OVERPACKS

CFR Citation: 49 CFR 178

Abstract: This rulemaking responds to a Department of Energy request that we improve the water resistance of overpacks used in the transportation of uranium hexafluoride. The natural form of mined uranium has low radioactivity; it must be purified to produce a form suitable for certain commercial uses. The purification process produces a small amount of radioactive uranium hexafluoride and a large amount of waste uranium hexafluoride enriched in the fissionable U-235 isotope that is of low radioactivity. This rulemaking addresses the packaging for the more highly radioactive, enriched uranium hexafluoride. It does not address the low level radioactive waste uranium hexafluoride, which is transported in plain cylinders. In the recent capsize of a French vessel carrying uranium hexafluoride, there was a danger of radioactive contamination because the vessel was carrying a variety of uranium hexafluoride packages; some contained material that had been removed from spent reactor fuel and reprocessed for reuse. In the United States, this material is never reprocessed, furthermore, the enriched form of uranium hexafluoride is always carried (cont)

513. TRITIUM AND CARBON-14; LOW SPECIFIC ACTIVITY RADIOACTIVE MATERIALS TRANSPORTED FOR DISPOSAL

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1808

CFR Citation: 49 CFR 173.425(d)

Abstract: Currently, the transportation of tritium and carbon-14 is more strictly regulated than their disposal. In order to correct this disparity, MTB proposes to regulate their transportation to a degree more appropriate to the limited risk which they present. The proposal would permit shippers to disregard the radioactive hazard if the specific activity of the material does not exceed 0.05 microcuries per gram. This will permit disposal of these materials at other than radioactive material disposal sites. As this is a relaxation of the current rules there would be a cost savings to shippers. In addition, the scarce disposal sites for radioactive materials could be more efficiently used for the containment of more highly radioactive wastes.

Legal Authority: 49 USC 1804

CFR Citation: 49 CFR 107.401; 49 CFR 107.402; 49 CFR 107.404

Abstract: Most European countries are expected to require, beginning May 1, 1985, the certification by the national competent authority of packagings marked as conforming to performance standards specified in the United Nations Recommendations for the Transport of Dangerous Goods. That rule effectively eliminates use of packagings produced in the U.S. To assure acceptance of U.S.-produced packagings in Europe, DOT proposes a voluntary system of third-party packaging certification. Other alternatives considered were to do nothing and to issue certifications directly by DOT. Benefits and cost have not been quantified. However, as the proposed rule is strictly voluntary, it may be stated that there are no imposed costs. Benefits accrue when the affected parties avoid costs associated with having their packagings certified by a foreign Competent Authority. To receive such a certification the packaging must be sent to Europe for testing, or an agent of the foreign Competent Authority must be reimbursed for costs incurred in traveling to the U.S. to conduct an examination and testing. Both of those processes are costly to the party seeking the (cont)

Priority: Agency Determination

Legal Authority: 46 USC 1241(b); 46 USC 1114(b)

CFR Citation: 46 CFR 382, (New)

Abstract: Regulation would require provision of rate and cost data to MARAD so it can determine fair and reasonable rates for carriage of preference cargo at the request of concerned Federal agencies. Priority: Agency Determination

Legal Authority: 46 USC 1114(b); 46 USC 1171 to 1176

CFR Citation: 46 CFR 254, (New)

Abstract: Regulation states conditions for award of ODS for dry bulk cargo vessels engaged in worldwide trade. This rulemaking is significant because it reflects a change in policy on a matter of substantial public interest. It is needed because it would recognize unique economic aspects of dry bulk carriers and is intended to afford sufficient flexibility to allow them to compete in worldwide trade.

530. ● OBLIGATION GUARANTEES

Priority: Agency Determination

Legal Authority: 46 USC 1114 (b); 46 USC 1279 (b); 49 CFR 1.66

CFR Citation: 46 CFR 298

Abstract: This NPRM asks for comments on the following issues: procedures for the calculation of the internal rate of return, used to assist in determining the economic soundness of a project proposed for an obligation guarantee; the anticipated economic impact of the proposed requirement; and proposed changes to confidential information disclosure and insurance reporting requirements pertaining to obligation guarantees applications. This NPRM proposes specific, clear procedures for complying with the internal rate of return analysis required in the final rule on obligation guarantees (see Additional Information). The proposed calculation procedures would produce more accurate information to assist the Maritime Administration in selecting successful applicants. The cost of this NPRM would be an increase in the paperwork burden on applicants required to calculate the internal rate of return. Applicants would benefit from the institution of a more uniform, fair procedure. This rulemaking involves important Departmental policy and is, therefore, significant.

534. ● NOTICE OF INTENT TO REDESIGNATE ESSENTIAL TRADE ROUTES

Priority: Agency Determination

Legal Authority: 46 USC 1121

CFR Citation: Not applicable

Abstract: The Maritime Administration intends to redesignate U.S., foreign trade routes determined to be essential for the promotion, development, expansion and maintenance of the foreign commerce of the United States, under authority in the Merchant Marine Act, 1936. There have been no substantial changes in essential trade route designations since the Act's enactment, other than inclusion of the U.S. Great Lakes. This action recognizes that in recent years major changes in shipping technology and U.S. trade patterns have emerged. It consolidates the present 29 essential trade routes and essential trade areas into eight essential trade areas.

Legal Authority: 46 USC 1114(b); PL 97-31

CFR Citation: 46 CFR 310

Abstract: The Maritime Administration is amending its merchant marine training regulations to rescind a 10 percent reduction in the number of student incentive payments offered to incoming students at the state maritime academies/colleges. The reduction which is being rescinded was published in the Federal Register on April 4, 1984, as one of a number of amendments to 46 CFR Part 310 (49 FR 13364). 547. ● GENERAL PROCEDURES FOR DETERMINING OPERATING-DIFFERENTIAL SUBSIDY (ODS) FOR LINER VESSELS

Legal Authority: 46 USC 1173; 46 USC 1114(b)

Abstract: The procedure that MARAD now follows in determining ODS for liner vessels is set forth in a manual, rather than in a regulation. Under the existing procedure, final subsidy payments are delayed on the average of three years. The proposed rule prescribes a system of fixed and final ODS rates that would permit administration of the ODS program on a more current basis. A change in procedures for determining foreign competition more accurately could result in annual ODS savings of up to $4 million.

548. OBLIGATION GUARANTEES

Priority: Agency Determination

Legal Authority: 46 USC 1271 to 1279; 46 USC 1114(b)

CFR Citation: 46 CFR 298

Abstract: The amendments proposed in this rulemaking are intended to streamline procedures for processing applications for obligation guarantees under Title XI of the Merchant Marine Act, 1936, as amended, and to make those procedures more efficient and responsive; clarify the criteria that will be applied in evaluating Title XI applications; provide more detailed financial requirements; and establish specific criteria and procedures for reviewing and evaluating requests by Title XI obligors for advances to pay for debt service, insurance payments and other vessel-related expenses. The proposed rule is significant because it may involve important Departmental policy.

549. CARGO PREFERENCE; U.S.-FLAG VESSELS

Priority: Agency Determination

Legal Authority: 46 USC 1114(b); 46 USC 1241(b)(2); PL 97-31

CFR Citation: 46 CFR 381

Abstract: The rule sets forth procedures governing the evaluation by U.S. departments or agencies of bids from subsidized U.S.-flag bulk vessel operators for the carriage of dry bulk preference cargoes. It is significant because it is of substantial interest to the various U.S. shipper departments and agencies and to the maritime industry for which the shipment of preference cargoes represents a major source of business.

552. ● ADMISSION AND TRAINING OF MIDSHIPMEN AT THE UNITED STATES MERCHANT MARINE ACADEMY

Legal Authority: 46 USC 1114(b); PL 97-31

CFR Citation: 46 CFR 310

Abstract: The Maritime Administration has amended its regulations to change the deadline date by which a candidate seeking admission to the United States Merchant Marine Academy must have attained 17 years of age but not have passed his or her 25th birthday. The purpose of the amendment is to establish for the Academy a deadline date of July 1 which is consistent with all other Federal Service academies.

LIST OF PUBLIC LAWS

Last List April 23, 1985

This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202-275-3030).

S.J. Res. 63 / Pub. L. 99-28

To designate the week of April 21, 1985, through April 27, 1985, as "National DES Awareness Week". (Apr. 25, 1985; 99 Stat. 54) Price $1.00

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

New units issued during the week are announced on the back cover of the daily **Federal Register** as they become available.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $550 domestic, $137.50 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at **(202) 783-3238** from 8:00 a.m. to 4:00 p.m. eastern time, Monday—Friday (except holidays).

DEPARTMENT OF THE TREASURY

Office of the Secretary

31 CFR Subtitle A, Chs. I and II

Semiannual Agenda

AGENCY: Office of the Secretary, Treasury.

ACTION: Semiannual agenda.

SUMMARY: This notice is given pursuant to the requirements of the "Regulatory Flexibility Act" (Pub. L. 96-354, September 19, 1980) and Executive Order 12291 ("Federal Regulation," February 17, 1981), which require the publication of a semiannual agenda of regulations. The semiannual agenda of the Department of the Treasury conforms to the Unified Agenda Format developed by the Regulatory Information Service Center.

FOR FURTHER INFORMATION CONTACT: For additional information about a specific Office of the Secretary regulation contained in this agenda, contact the "agency contact" listed in the specific regulatory action. For general information concerning the agenda of the Department of the Treasury, contact Richard S. Carro, Director, Office of Legislation and Regulations, Office of the General Counsel, Room 1422, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220, (202) 566-8464.

SUPPLEMENTARY INFORMATION: The semiannual agenda of the Office of the Secretary includes the Office of the General Counsel and the Office of Revenue Sharing.

By direction of the Secretary.
DATED: February 25, 1985.
Edward J. Stucky,
Acting Executive Secretary.

1. DISCLOSURE OF RECORDS

Priority: Agency Determination

Legal Authority: 5 USC 552; 5 USC 552a; 31 USC 321

CFR Citation: 31 CFR 1.1

Abstract: This regulation amends the Department of Treasury's regulations implementing the Freedom of Information and Privacy Acts. The proposed amendments are intended to facilitate and simplify public requests for information, and to assure accurate and consistent application of policies and procedures throughout the Department. The regulation revises fees charged by the Department for duplication, search and other services to reflect increased costs to the Department.

2. AMENDMENTS TO IMPLEMENTING REGULATIONS–CURRENCY AND FOREIGN TRANSACTIONS REPORTING ACT

Legal Authority: 31 USC 5314 Currency and Foreign Transactions Reporting Act

CFR Citation: 31 CFR 103

Abstract: This regulation would establish a mechanism through which the Secretary of the Treasury, exercising the authority conferred on him by the Currency and Foreign Transactions Reporting Act, could issue substantive regulations requiring financial institutions in the United States to submit reports of financial transactions with foreign financial agencies.

3. CONTINUED PROFESSIONAL EDUCATION FOR INDIVIDUALS ENROLLED TO PRACTICE BEFORE THE INTERNAL REVENUE SERVICE

Legal Authority: 31 USC 330

CFR Citation: 31 CFR 10

Abstract: This notice reflects advance notice of an intention to modify the regulations governing practice before the Internal Revenue Service. The modification would require continuing professional education as a condition for the maintenance of good standing for enrollment to practice before the Internal Revenue Service.

4. ● REPORTING OF INTERNATIONAL CAPITAL AND FOREIGN CURRENCY TRANSACTIONS AND HOLDINGS, TRANSFERS OF CREDIT, AND EXPORT OF COIN AND CURRENCY

Legal Authority: 31 USC 5315

CFR Citation: 31 CFR 128

Abstract: Part 128 of Title 31, CFR, sets forth the requirements and describes the forms used for reporting international capital and foreign currency transactions and holdings. Large amounts of offshore loans to U.S. nonbank residents are not being properly reported on the TIC C-series forms prescribed in Subpart B of Part 128. Much of this underreporting results from confusion among nonbank borrowers over whether the source of their loans is domestic or foreign. This confusion is exacerbated by the failure of U.S. intermediaries to comply with existing obligations, specified in the Form BL-2 instructions, either to report certain foreign transactions on behalf of their U.S. customers or to inform those customers of foreign ownership of claims held against them. This final rule describes and authorizes the issuance of TIC Form BL-3, designed for use by a bank or other financial intermediary in the U.S. to notify a nonbanking customer that a foreign loan has been arranged and that the customer has an obligation to report on TIC Form CQ-1.

5. ● DISCIPLINE OF APPRAISERS AGAINST WHOM AIDING AND ABETTING PENALTIES UNDER THE INTERNAL REVENUE CODE HAVE BEEN ASSESSED

Legal Authority: 5 USC 301; 31 USC 321

CFR Citation: 31 CFR 10

Abstract: This notice solicits public comment on proposed regulations implementing section 156 of the Deficit Reduction Act of 1984 (98 Stat. 695). Section 156 provides for the disqualification of appraisals and appraiser testimony in connection with Treasury Department or Internal Revenue Service proceedings with respect to any appraiser who has been assessed an aiding and abetting penalty under 26 USC 7601(a) after July 18, 1984.

7. ● WIND DOWN OF REVENUE SHARING PROGRAM

Priority: Agency Determination

Legal Authority: 31 USC 6701 to 6724 The Revenue Sharing Act

CFR Citation: 31 CFR 51

Abstract: The administration is recommending termination of the Revenue Sharing Program one year in advance of the current authorization. The last payments would be made during the current FY instead of during FY 1986. A number of provisions of the regulations will have to be revised to permit the ORS to take certain actions before they are required by regulation. No alternative to wind down is available. It is expected that early termination of the program will effect a substantial cost savings.

8. ● REVISION OF SUBPART G

Legal Authority: 31 USC 6701 to 6724 The Revenue Sharing Act

CFR Citation: 31 CFR 51 Subpart G

Abstract: Subpart G contains the administrative hearing procedures to be used when a violation of the Revenue Sharing Act has occurred. These regulations have not been substantially reviewed since 1979 and need to be clarified and updated. No cost to the public or the Federal government is expected to be incurred as a result of this regulation.

11. REVISION OF TREASURY DEPARTMENT CIRCULAR (TDC) NO. 1075, REGULATIONS GOVERNING WITHDRAWAL OF CASH FROM THE TREASURY FOR ADVANCES UNDER FEDERAL GRANT AND OTHER PROGRAMS

Legal Authority: 5 USC 301; 31 USC 6503; 42 USC 4213

CFR Citation: 31 CFR 205

Abstract: Revision of TDC No. 1075 will formally establish the Letter of Credit-Treasury Financial Communications System (LOC-TFCS). The two established letter of credit systems, the Letter of Credit-Federal Reserve Bank System and the Letter of Credit-Treasury Regional Disbursing Office System, do not provide the combination of Federal agency preaudit of payment requests and guaranteed payment time. The LOC-TFCS provides both of these features, thus enabling improved Federal control of advances made through letter of credit. In addition, other financing issues, such as developing more definitive guidelines for the immediate cash requirements of recipient organizations receiving advances of Federal funds, will be addressed at this time.

Abstract: The amended regulations will revise United States Code references; revise titles of designated officials; reduce quarterly reporting requirements of insurance companies from an estimated 4,000 hours annually to approximately 2,000 hours; eliminate the admitted reinsurer requirement thereby eliminating the reporting requirements and fees of 150 companies and saving approximately 900 staff review hours. Other benefits will include the reduction in application and renewal fees currently $1,050 and $700 respectively (by 30 to 50 percent); reduction in staff hours required for annual reviews (cut from 3700 hours to 1850 hours); reduction in staff hours required for application reviews (cut from 1800 to 900) and quarterly reviews (cut from 200 to 100 hours). Purpose of the revisions is to substantially reduce the human and material resources needs of this operation.

14. FEDERAL RECURRING PAYMENTS THROUGH FINANCIAL ORGANIZATIONS BY MEANS OTHER THAN CHECKS

Legal Authority: 5 USC 301; 12 USC 391

CFR Citation: 31 CFR 210

Abstract: Analysis showed the need to simplify and clarify the reclamation sections of the regulation, and to provide notice to account owners when the Government seeks recovery of post-death direct deposit/EFT payments from financial institutions. A notice of proposed rulemaking published August 7, 1984 explains the reasons for these changes. See 49 FR 31450.

Priority: Agency Determination

Legal Authority: 5 USC 301; 31 USC 3301 to 3302; 31 USC 3720

CFR Citation: Not yet determined

Abstract: Authority to prescribe the timing and mechanisms for collection and deposit of Federal Agency Receipts will result in a development of an integrated government collection system, thereby reducing interest losses on collection float, providing accurate and timely cash position and account balance data, and provide for efficient handling of transactions. Regulations are required by Deficit Reduction Act of 1984, Division B, Title 6, Subtitle C, Section 2652.

Unified Agenda of Federal Regulations

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF); Department of the Treasury.

ACTION: General notice; Unified Agenda of Federal Regulations of regulatory projects under development, consideration, and review.

SUMMARY: Pursuant to section 5 of Executive Order 12291, entitled "Federal Regulations," ATF is publishing an agenda of proposed regulations that are expected to be issued and of proposed regulations that have been issued and an agenda of existing regulations that are being reviewed under the terms of the Executive Order, within the next six months. The latter agenda also lists regulatory projects identified for review pursuant to the ATF Regulatory Reform Program. Pursuant to section 610 of the Regulatory Flexibility Act (Pub. L. 96-354; 5 U.S.C. 610), ATF is also indicating whether a regulatory project is likely to have a significant economic impact upon a substantial number of small entities.

This general notice is designed to give the public adequate notice of the regulatory activities being contemplated by ATF.

The agenda is based on information available at the present time. The next Unified Agenda of Federal Regulations will be published in the **Federal Register** of October 1985.

FOR FURTHER INFORMATION CONTACT: For information about any particular regulatory project, contact the person listed in the subheading "Agency Contact," for the regulatory project.

18. REPORTING TAXES DUE TO THE GOVERNMENTS OF PUERTO RICO AND THE VIRGIN ISLANDS

Priority: Agency Determination

Legal Authority: 26 USC 5555; 26 USC 5207

CFR Citation: 27 CFR 19.377

Abstract: Changes the reporting requirements for most Puerto Rican and Virgin Islands spirits bottled at domestic distilled spirits plants. The reporting requirement will remain as a line item on the proprietor's monthly reports. However, the time for recording tax determination of insular spirits will change from the time these spirits enter the processing account to the time of tax determination.

24. CHANGE IN STANDARD OF IDENTITY FOR STRAIGHT WHISKIES OF THE SAME TYPE

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 5.22(b)(1)(iii); 27 CFR 19.346(b)

Abstract: Current regulations do not provide for distilled spirits plant proprietors to mingle and still designate as straight whiskies of the same type produced at different distilleries or produced by different distillers. This project will allow such whiskies to be labeled as straight as long as the whiskies are produced within the same state. Their only alternative is to leave the regulations as they are and to not allow such whiskies to be mingled and designated as straight. We do not anticipate any extra costs to result from this change in regulations. This change will result in greater flexibility for distilled spirits plant proprietors.

26. EFFECT OF REDUCED CUSTOMS STAFFING AT CUSTOMS BONDED WAREHOUSES

Legal Authority: 26 USC 7805

CFR Citation: 27 CFR 252; 27 CFR 251

Abstract: The Customs Bureau has withdrawn Customs Officers from Customs Bonded Warehouses, consequently, there are no Customs Officers present to certify ATF forms or to make gauges of distilled spirits. Because of possible jeopardy to the Federal Revenue, ATF has issued instructions to proprietors of customs bonded warehouses requesting them to certify ATF forms and make gauges of distilled spirits in the absence of customs officers. This change in regulations will formalize this procedure. The alternative to allowing customs bonded warehouse proprietors to sign forms and gauge spirits is to not require anyone to perform these functions. This would result in an unacceptable risk to the Federal Revenue. We do not anticipate any extra costs to result from this change in regulations. This change will ensure

that there is no jeopardy to the Federal Revenue.

27. REDUCED PROOF DISTILLED SPIRITS PRODUCTS

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 5.22

Abstract: ATF is publishing an ANPRM to gather information from consumers and industry on whether our regulations should be amended to provide for reduced proof distilled spirits products similar to "light beer," "light wine" and similar "light" products which have become increasingly popular with consumers in recent years. Since 1968, the words "light whisky" have referred to whisky produced by two processes which are different from other American whiskies and the term "light" does not refer to lower alcohol content. However, ATF is considering abolishing "light whisky" as a standard of identity, so that the word "light" can refer only to reduced alcohol content. Unlike wine and beer, distilled spirits products are usually sold at more than one bottling proof (e.g. whisky is frequently sold at 80 degrees, 86 degrees, and 100 degrees proof) with the difference in proof being the only distinction between products which are otherwise identical. Therefore, ATF must carefully consider labeling to insure there exists a clear cut difference in the minds of consumers between products at minimum bottling proof or above minimum bottling proof, and those which are reduced in proof.

Abstract: Under current law (26 USC 7652), the excise taxes collected on all merchandise manufactured in Puerto Rico and the Virgin Islands, and shipped to the U.S., are deposited into the Treasury of either Puerto Rico or the Virgin Islands.

The Caribbean Basin Economic Recovery Act was passed to promote the economic revitalization of the Caribbean Basin area by removing the duty on certain merchandise from certified Caribbean Basin countries. In order to minimize any adverse effects this would have on Puerto Rico and the Virgin Islands, a provision was added to require that the excise taxes collected on all rum that is imported into the U.S. be deposited in the Treasuries of Puerto Rico and the Virgin Islands. This would be in addition to the amounts already transferred under 26 U.S.C. 7652 (a) and (b).

Abstract: Implements Section 233 of the Trade and Tariff Act of 1984 (Pub. L. 98-573, 98 Stat. 2991). This section of the Act amended Section 925 of Chapter 44 of Title 18, U.S.C., by adding a new paragraph (e). Under this paragraph, the importation by a licensed importer of all rifles and shotguns listed by the Director as curios or relics, and all handguns listed by the Director as curios or relics that are recognized as particularly suitable for or readily adaptable to sporting purposes is allowed not withstanding any other provision of Title 18. This includes such firearms that may be surplus military firearms. 44. ● FIREARMS LICENSE AND EXPLOSIVES LICENSE OR PERMIT APPLICATION AND RENEWAL PROCEDURES

Priority: Agency Determination

Legal Authority: 18 USC Chapter 40 Section 841 to end; 18 USC Chapter 44 Section 921 to 928

CFR Citation: 27 CFR 55; 27 CFR 178

Abstract: Firearms licenses and Explosives licenses and Permits are currently acquired by an applicant filing an application with the Regional Director (Compliance) via the Director of the Internal Revenue Service Center for the area in which the applicant intends to engage in business.

This procedure will use a commercial lockbox operation for receiving, separating the forms and depositing the fees to the Governments account, and forward the applications to the right ATF licensing section expeditiously and at no cost to the Government.

This lockbox procedure will take the place of the receipt and collection function performed by the Internal Revenue Service Center.

Abstract: Currently, exporters of bottled distilled spirits are required to overprint the word "EXPORT" on the strip stamps (or alternative devices) affixed to each bottle that is exported (a tax-free removal). This requirement is burdensome for exporters in that it restricts flexibility over bottling operations.

ATF is proposing to eliminate this requirement, provided the exporter's records can be relied upon to accurately reflect all export transactions. Cases of bottled spirits will still be required to be marked in accordance with 27 CFR 252.103.

Semiannual Agenda of Regulatory Actions

AGENCY: Office of the Comptroller of the Currency, Department of the Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: As required by the Regulatory Flexibility Act and Executive Order 12291, the Office of the Comptroller of the Currency (Office) has prepared this semiannual agenda of its rules and regulations currently under review and scheduled for review. Regulatory actions taken since the publication of the Office's previous semiannual agenda on October 22, 1984 (49 FR 41995) are also included. It is expected that this semiannual agenda will enable the public to be more aware of, and allow it to more effectively participate in, the Office's regulatory activity.

ADDRESS: The mailing address for all contacts: Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, S.W., Washington, D.C. 20219.

FOR FURTHER INFORMATION CONTACT: For general information about this semiannual agenda contact Nancy Lowther, Financial Analyst, Legislative and Regulatory Analysis Division, (202) 447-1177.

For additional information about a particular item on this semiannual agenda contact the individual identified as the contact person.

SUPPLEMENTARY INFORMATION: The Office has determined that none of the rulemakings discussed in this semiannual agenda requires a regulatory flexibility analysis, although an analysis was prepared for Assessment of Fees; all entries have been determined not to have a "significant impact on a substantial number of small entities," and therefore are not subject to the provisions of the Act. Additionally, none of the rules, with the exception of Minimum Capital Ratios, is a "major" rule as defined by Executive Order 12291. Executive Order 12291 defines a "major" rule as one likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

DATED: February 21, 1985.

C. T. Conover,

Comptroller of the Currency.

56. RULES, POLICIES, AND PROCEDURES FOR CORPORATE ACTIVITIES

Priority: Agency Determination

Legal Authority: 12 USC 1 et seq

CFR Citation: 12 CFR 5

Abstract: The Office is engaged in a comprehensive review of its rules, policies, and procedures governing corporate activities. On August 27, 1984 at 49 FR 33846, the Office issued a final rule amending its policies and procedures on chartering national banks. The final rule expedited the application process for certain organizers, eliminated a duplicative publication requirement for bank holding companies, and clarified certain Office policies. On January 11, 1985 at 50 FR 1439, a final rule was published which set forth the Office procedures for determining fees for processing filings under 12 CFR Part 5 and eliminated reference to specific fee amounts appearing in different sections of Part 5. The Office will annually publish a single schedule of all processing fees eliminating confusion that may result from annually amending different sections of Part 5. The Office will provide copies of the analysis that underlies the fee schedule to interested parties. On April 25, 1984 at 49 FR 17764, the Office issued a proposed rule on equity capital and subordinated debt. On November 14, 1984 at 49 FR 45007, the Office issued a proposed rule on (cont)

57. FIDUCIARY POWERS OF NATIONAL BANKS AND COLLECTIVE INVESTMENT FUNDS

Legal Authority: Sec 1, 77 Stat 668; 12 USC 92a; 12 USC 481

CFR Citation: 12 CFR 9

Abstract: Comments in response to a prior rulemaking Final rule Docket No. 80-16 (46 FR 71571) published October 29, 1980 included recommendations that additional amendments should be made to 12 CFR Part 9. The Office believes that the issues raised by the commenters can best be addressed through a comprehensive review of its regulations concerning national bank fiduciary powers and collective investment funds. The Office requested comments from the public as to the desirability and feasibility of a comprehensive review of its trust regulations pertaining to collective investment funds, including specific matters which should be addressed. The effect on small entities will be considered in the development of this rulemaking.

58. SECURITIES EXCHANGE ACT DISCLOSURE RULES

Legal Authority: 15 USC 78

CFR Citation: 12 CFR 11

Abstract: Rule proposal addresses a series of amendments to the securities disclosure regulations of the Office. The proposed amendments govern such matters as the form and content of financial statements of national banks, prescribed formats for financial statements and schedules, and requirements prohibiting the falsification of accounting records and misrepresentations by officers and directors of national banks. The Office seeks to minimize the regulatory burden of the Securities Exchange Act disclosure requirements and to make these rules more understandable. The Office is particularly interested in meeting these goals in order to facilitate the development of conforming regulations concerning Securities Exchange Act disclosure requirements. The Office, together with the other banking agencies, is coordinating with the SEC in these efforts. The effect on small entities will be considered in the development of this rulemaking.

59. REQUIRED NOTIFICATION TO NOMINATE BANK DIRECTORS

Legal Authority: 12 USC 1 et seq

CFR Citation: 12 CFR 17

Abstract: This regulation states that national banks may adopt bylaws or articles of association that require any shareholder proposing to nominate a director, other than a management nominee, to file certain information in advance with the Office and the bank. A proposal to rescind this regulation was published in the Federal Register. Because of the comments received on that proposal, the Office is now considering retaining the regulation in revised form. Alternative approaches are being considered together with revisions of other rules affecting the corporate governance of national banks with a view toward developing uniform federal standards. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 1 et seq; 12 USC 93a; 12 USC 1818; 12 USC 1881 et seq

CFR Citation: 12 CFR 7.5225

Abstract: This ruling governs the reporting of crimes involving bank personnel or bank funds. The Office is considering changing the ruling into a regulation and making revisions to decrease the reporting requirements of banks. Topics under review include the number of offices with which reports must be filed, the $1,000 threshold for reporting mysterious disappearances of funds, and the range of crimes intended to be covered by the reporting requirements. The effect on small entities will be considered in the development of this rulemaking.

CFR Citation: 12 CFR 27

Abstract: This regulation requires national banks to record and retain information on age, race, sex, and marital status of applicants for home loans. Its purpose is to gather data necessary to statistically analyze lending practices to detect possible illegal discrimination. The Office anticipates amending this regulation only if it should become inconsistent with Regulation B data collection and recordkeeping requirements promulgated by the Board of Governors of the Federal Reserve System. 62. BANKERS' BANKS

Legal Authority: 12 USC 24(7); 12 USC 27

CFR Citation: Not yet determined

Abstract: The Garn-St. Germain Depository Institutions Act of 1982, PL 97-320, empowered this Office to charter bankers' banks, i.e., limited purpose national associations which will be owned exclusively by--and provide services solely to--depository institutions. On January 26, 1983, this office published an advance notice of proposed rulemaking Docket No. 83-3 (48 FR 3624) in order to solicit comments on what is virtually a new area of law. The effect on small entities will be considered in the development of this rulemaking. However, the Office is considering withdrawing the rulemaking proposal and issuing a policy statement.

63. BANK SERVICE CORPORATIONS

Legal Authority: 12 USC 1861 et seq

CFR Citation: 12 CFR 5, (New Subsection)

Abstract: The Bank Service Corporation Act was significantly amended by Section 709 of the Garn-St. Germain Depository Institutions Act of 1982, PL 97-320. Under the amended Act, a national bank may now invest up to 10% of paid-in and unimpaired capital and surplus in a bank service corporation. Prior approval of the appropriate federal regulator is necessary for a national bank to invest in a bank service corporation under certain conditions. The Office published notice of proposed rulemaking to solicit comments on proposed policies and procedures for obtaining the required approval. The effect on small entities will be considered in the development of this rulemaking.

64. BROKERAGE ACTIVITIES TO BE CONDUCTED IN AN OPERATING SUBSIDIARY

Legal Authority: 12 USC 1 et seq; 12 USC 24(7); 12 USC 92a; 12 USC 93a

CFR Citation: 12 CFR 5.52; 12 CFR 12.6(e)

Abstract: Rule proposal addresses circumstances under which the brokerage activities of national banks should be conducted in operating subsidiaries of such banks. Such arrangements would appear to provide this Office with a more efficient means of supervising and examining bank brokerage activities. The effect on small entities will be considered in the development of this rulemaking.

66. DISCLOSURE OF FINANCIAL AND OTHER INFORMATION REGARDING NATIONAL BANKS

Legal Authority: 12 USC 1 et seq; 12 USC 93a

Abstract: The advance notice of proposed rulemaking requests comments on whether changes should be made in the current public disclosures required of national banks. The comments received in response to the 25 questions posed will be used in the assessment of the need for and content of a regulation regarding financial disclosure. These questions are in four general areas: general characteristics of an effective disclosure system, additional information about operations and management, additional disclosure of administrative enforcement actions, and cost-benefit considerations of possible changes. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 24; 12 USC 92a, 12 USC 93a

CFR Citation: 12 CFR 12

Abstract: The proposed rule will relate to a national bank's obligation to forward proxy material and related information to bank customers owning securities held by the bank in its name or that of a bank nominee. Delays, inconsistent practices, voting difficulties, and other problems will be addressed. The rulemaking is expected to benefit bank customers by ensuring that they receive in a timely fashion those materials needed to make informed decisions on shareholder matters. Legal Authority: 12 USC 1 et seq; 12 USC 481; 12 USC 482

CFR Citation: 12 CFR 8; 12 CFR 5

Abstract: This final rule revised the fees charged by the Office for special examinations and investigations of national banking associations and District of Columbia banks, for examinations of the affiliates of such institutions, for examinations of fiduciary activities of such institutions exercising fiduciary powers, and for examinations and investigations made pursuant to Rules, Policies, and Procedures for Corporate Activities. This rule permits the Office to recover the expenses it incurs in performing these supervisory functions. The regulation does not impose additional reporting or recordkeeping requirements on any banks subject to the jurisdiction of this Office, nor does it have a significant impact on a substantial number of small entities.

Legal Authority: 12 USC 1 et seq; 12 USC 93a; 12 USC 161; 12 USC 1818; 12 USC 3907; 12 USC 3909

CFR Citation: 12 CFR 3, (New); 12 CFR 7.1100

Abstract: The proposed regulation would establish required minimum levels of capital for national banks and procedures to assure that national banks achieve and maintain adequate capital. This action is required by section 908 of the International Lending Supervision Act of 1983, 12 USC 3907. The proposed minimum ratios of capital to assets, definitions of primary and secondary capital, procedures, and other issues have been presented for comment and alternatives on these issues will be considered in conjunction with the final regulation. Because some banks, including several large banks, would need to raise or generate additional capital to meet the minimum ratios, underwriting costs may be significant, competition in capital markets is likely to increase, and dividends could be lower than historical averages until the required capital ratios have been achieved. Benefits of the proposal would include an increased capacity for banks to fund economic growth and to withstand losses, and increased stability in the nation's financial system. The minimum capital levels required by the regulation are lower than those currently contained in agency guidelines used to evaluate (cont)

71. ● ASSESSMENT OF FEES; NATIONAL BANKS; DISTRICT OF COLUMBIA BANKS

Priority: Agency Determination

Legal Authority: 12 USC 1 et seq; 12 USC 481; 12 USC 482

CFR Citation: 12 CFR 8 2

Abstract: The Office of the Comptroller of the Currency has increased the rates in its semiannual assessment schedule for national banks, District of Columbia banks, and federally licensed branches and agencies. Unchanged for eight years, the old schedule failed to produce revenue sufficient to cover operating costs, which were boosted by inflation, an increase in responsibilities, and a modernization of bank examination techniques. The new schedule, like the old one, conforms to this Office's philosophy that the assessments paid by a bank should reflect, to the extent possible under existing statutory provisions, the costs of supervising it. On a per-dollar-of-assets basis, those costs decline as bank size increases. In addition, the Office will offset declines in the overall average assessment rate due solely to inflationary growth in bank assets by indexing the schedule annually to changes in the general price level. The immediate effect of the revision will be to increase national bank assessments by approximately $15 million in 1985. The regulation does not impose additional reporting or recordkeeping requirements on any banks subject to the jurisdiction of this Office. An (cont)

Semiannual Agenda

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Semiannual agenda.

SUMMARY: In response to Pub. L. 96-354, the "Regulatory Flexibility Act," and Executive Order 12291, "Federal Regulations," Customs has prepared and is publishing for public information a list of regulations either under development or under review.

FOR FURTHER INFORMATION CONTACT: For additional information regarding the substance of any particular regulatory project described in the agenda, please communicate with the person identified as the "Agency Contact." All agency contact persons are located at U.S. Customs Service Headquarters, the address of which is noted below. Comments or inquiries of a general nature about the agenda itself should be directed to Gertrude A. Bresnahan, Regulations Control Branch, Office of Regulations and Rulings, Headquarters, U.S. Customs Service, Room 2426, 1301 Constitution Avenue, N.W., Washington, D.C. 20229 (202-566-8237).

SUPPLEMENTARY INFORMATION:

Background

Public Law 96-354, the "Regulatory Flexibility Act" (RFA) and Executive Order (E.O.) 12291 of February 17, 1981, "Federal Regulation," require semiannual publication, in April and October of each year, of an agenda of regulations which are "likely to have a significant economic impact on a substantial number of small entities" and "major" regulations, respectively. The RFA and E.O. 12291 also require agencies to include in their agendas currently effective rules which are under agency review. Customs agenda includes a brief abstract of each regulatory project ("project") being considered, an indication of whether the project will have an RFA impact, the section(s) of the Code of Federal Regulations affected, the legal authority for the action being taken, the name, title, and telephone number of an agency contact and, where applicable, an approximate timetable of completing action on any project for which Customs has published a notice of proposed rulemaking. In addition, the status of projects referred to in previously published agendas is shown.

The following is the ninth semiannual agenda to be published by Customs under the RFA and E.O. 12291. It has been determined that none of the projects listed as being under development meets the standards required of a "major" regulation provided in E.O. 12291.

General Statutory authority for the development or review of regulations relating to Customs matters is found in section 301, title 5, United States Code (5 U.S.C. 301), and in sections 66 and 1624, title 19, United States Code (19 U.S.C. 66, 1624). When appropriate, additional specific statutory authority is indicated as the legal authority for the project.

DATED: February 15, 1985.

John P. Simpson,

Director, Office of Regulations and Rulings.

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: This semiannual agenda lists the regulations determined as of January 31, 1985, that the Internal Revenue Service will be developing from January 31, 1985 through April 15, 1986. The purpose of this semiannual agenda is to give the public adequate notice of regulatory activities of the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Robert A. Bley, Executive Assistant to the Director, Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR (202-566-3331), not a toll-free call.

SUPPLEMENTARY INFORMATION:

General

Section 5 of Executive Order 12291 and section 602 of the Regulatory Flexibility Act and the Treasury Directive implementing that Act all require that a semiannual agenda of regulations under development and review be published in the **Federal Register**. The next semiannual agenda of the Internal Revenue Service will be published in the **Federal Register** in October of 1985.

Description

This Semiannual Agenda of Regulations lists all projects within the Internal Revenue Service (I.R.S.) as of January 31, 1985, for the development of regulations to appear in the Code of Federal Regulations. This agenda lists existing regulations under development by the Legislation and Regulations Division and the Employee Plans and Exempt Organizations Division of the Office of Chief Counsel, I.R.S. The following information is provided for each regulation project: The title; priority status; whether the regulation is currently under review; its effect, if any, on small businesses; the part of the Code of Federal Regulations affected; the legal authority for issuing the regulation; a brief description of the problem to be addressed in the regulation; and a timetable of action taken and to be taken. Under additional information there is provided the control number of the project within the Chief Counsel's Office, and the name and telephone numbers of the drafting and reviewing attorneys.

By direction of the Secretary of the Treasury.

Roscoe L. Egger, Jr.,

Commissioner of Internal Revenue.

Current and Projected Rulemakings

93. ● TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX RETURN ACT OF 1984, RELATING TO BELOW-MARKET LOANS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 7872 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: These temporary regulations provide taxpayers with a list of loan transactions that are not subject to section 7872. If a loan is subject to section 7872, the below-market loan is recharacterized as a market-interest rate loan coupled with a payment by the lender to the borrower in an amount generally equal to the amount of imputed interest. Taxpayers who are parties to a loan listed in these regulations are not subject to section 7872 with respect to that loan. Accordingly, no amounts are imputed under section 7872.

94. ● REGULATIONS ON INCOME TAX UNDER THE TAX REFORM ACT OF 1984, RELATING TO BELOW-MARKET LOANS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 7872 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: These regulations provide guidance to taxpayers who enter into certain below-market interest rate loan transactions. The regulations explain what type of transactions are treated as loans and what type of loans are subject to the provisions of section 7872. If the loan is subject to section 7872, the below-market loan will be recharacterized as an arm's-length market-interest rate loan coupled with a payment by the lender to the borrower in an amount generally equal to the amount of imputed interest. The regulations provide rules for determining the amount and the character of the imputed transfers.

136. INCOME TAX--TO AMEND THE REGULATIONS RELATING TO THE TREATMENT OF REPLACEMENT FUNDS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide guidance to issuers, purchasers and users of tax-exempt obligations relating to whether amounts are replaced by the proceeds of such obligations. As such, such amounts will be treated as proceeds of such obligation and would be required to be invested at less than a materially higher yield. If such amounts are not invested at less than a materially higher yield than the yield on the obligations then the obligations would be arbitrage bonds.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide that advance refunding issues defined as those refunding issues issued more than 180 days before the redemption of the issue to be refunded may be exempt issues if issued to refund qualified public facilities. A definition of qualified public facilities is provided. Special rules for multipurpose issues are also provided.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The amendments to the regulations would provide additional rules to determine under what circumstances property is treated as functionally related and subordinate to an exempt facility, such as a dock or wharf, and, therefore financeable with tax-exempt industrial development bonds. Furthermore, the regulations would examine the public use requirement which generally restricts tax-exempt financing to exempt facilities used by the general public.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103(b) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: This regulation would define the meaning of the term "principal user of a facility" for purposes of applying the limitation set by the Internal Revenue Code upon the permissible size of a small issue of tax-exempt industrial development bonds, as diminished by certain other capital expenditures. This regulation would help identify other facilities the capital expenditures from which must be taken into account in determining whether that issue exceeds the small issue limitation.

CFR Citation: 26 CFR 1

Abstract: The regulation would provide guidance regarding the effect of an urban development action grant with respect to a specific facility, upon the capital expenditures limitation with respect to a small issue of tax-exempt industrial bonds issued to finance such facility. The regulation may also provide guidance regarding the required size of such grant in relation to the cost of the facility to be financed by the bond issue, and the nexus between the grant and the financed facility.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103(b)(6) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: This regulation would establish revised procedures whereby the issuer of a small issue of tax-exempt industrial development bonds can elect to have a $10 million limitation rather than a $1 million limitation apply in determining the maximum allowable size of such issue. This regulation would centralize the filing of documents relating to this election to make its requirements more administrable.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The proposal will clarify the information reporting requirements with respect to private activity bonds. Industrial development bonds must be publicly approved--failure to fulfill this requirement results in loss of tax exemption for the interest on these bonds. Issuers of student loan bonds, charitable use bonds and industrial development bonds are required to supply certain information to the Internal Revenue Service. Failure to comply with this requirement will result in the loss of tax exemption for the bond's interest.

Legal Authority: 26 USC 7805 Internal Revenue Code; 26 USC 103A Internal Revenue Code

CFR Citation: 26 CFR 1

Abstract: The regulations will interpret the rules under section 103A, relating to mortgage subsidy bonds, as those rules relate to cooperatives. A mortgage subsidy bond is an obligation a significant portion of the proceeds of which are used to provide financing for single-family, owner-occupied residences. The proposed regulations also would provide rules for the treatment of certain leasing cooperatives under section 103 (b) (4) (A), relating to industrial development bonds for residential rental projects.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103(m) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The proposal would describe the application of new Code section 103 (m) to interest earned on obligations which are exempt from taxation under Federal laws outside the Internal Revenue Code. Section 103 (m) broadens the types of obligations described in section 103 (a) to include obligations on which the interest is tax-exempt under provisions of Federal law outside of the Code. Section 103 (m) provides that interest on obligations described in section 103 (m) is considered to be interest described in section 103 (a) for all purposes of the Code.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 274(b) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would reflect the modification by the Economic Recovery Tax Act of 1981 of the third exception to the term "gift" (i.e., the exception within certain dollar limitations for awards of tangible personal property). The regulations would define the term "qualified plan award." The regulations would clarify the existing regulations under section 274 (b) of the Internal Revenue Code of 1954 by excluding from the term "tangible personal property" any award of cash, or of a gift certificate, or of a right to choose among 5 or more different items.

245. ● AMENDMENT OF THE INCOME TAX REGULATIONS UNDER SECTION 367 OF THE CODE (TRANSFERS TO FOREIGN CORPORATIONS) TO REFLECT SECTION 131 OF THE TAX REFORM ACT OF 1984 (P.L. 98-369)

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 367 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1T

Abstract: The Income Tax Regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognitions provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the section conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of

branch operations that have operated at a loss.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 404(d) Internal Revenue Code of 1954; 26 USC 404(b) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations provide rules for taking a deduction under section 404(d) of the Internal Revenue Code for deferred compensation paid to independent contractors. A deduction is permitted only when there is a corresponding income inclusion by the plan participant. In addition, the regulations provide guidance with regard to the amendment of section 404(b) of the Internal Revenue Code by section 133 of the Revenue Act of 1978, which clarified that a method of compensation or contributions having the effect of a plan deferring the receipt of compensation does not have to be similar to a stock bonus, pension, profit-sharing, or annuity plan to be

subject to 404(a) of the Internal Revenue Code. The regulations describe methods of compensation or contributions subject to the section 404(a) rules. The regulations also reflect the amendment of section 404(b) of the Internal Revenue Code by the Tax Reform Act of 1984. That amendment provides that certain deferred benefits shall be treated as deferred compensation for purposes of section 404(a).

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 408 Internal Revenue Code of 1954; PL 98-369, Sec 147

CFR Citation: 26 CFR 1

Abstract: On June 28, 1983, the Internal Revenue Service issued news release IR-83-88 requiring new information reporting by trustees of individual retirement accounts and issuers of individual retirement annuities (including accounts and annuities that are simplified employee pensions). Form 5498, Individual Retirement Arrangement Information, was prescribed in the news release as the information return to be used for this purpose. This regulation project will amend the regulations under section 408 to conform them to the reporting requirements announced in the news release. In addition, section 147 of the Tax Reform Act of 1984 amended section 408 (i) of the Code to require that contributions be identified as to the taxable year to which they apply. This amendment will be included in this regulation period.

270. INCOME TAX--REQUIREMENTS FOR TAX CREDIT EMPLOYEE STOCK OWNERSHIP PLANS, EMPLOYEE PLAN CREDIT, AND DEFINED CONTRIBUTION PLAN VOTING RIGHTS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 409 Internal Revenue Code of 1954; 26 USC 48 Internal Revenue Code of 1954; 26 USC 401 Internal Revenue Code of 1954; 26 USC 6699 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations provide rules for electing the employee plan credit under section 48 of the Internal Revenue Code, establishing a tax credit employee stock ownership plan under section 409 of the Internal Revenue Code and providing voting rights to participants of certain defined contribution plans under section 401(a)(22) of the Internal Revenue Code. Further, the regulations provide guidance for determining the applicability of and calculating the assessable penalties relating to tax credit employee stock ownership plans under section 6699 of the Internal Revenue Code. The regulations reorganize and modify the current regulations which are based on section 301(d), (e), and (f) of the Tax Reduction Act of 1975, and provide a single set of rules that would apply to tax credit employee stock ownership plans established under the provisions of the Tax Reduction Act of 1975 and the 1978 Revenue Act.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 422A Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide guidance for taxpayers who either grant or receive incentive stock options. The grant of an incentive stock option to an employee by, generally, the employer, will not be a taxable event. At the time such an option is exercised by the employee, no amount of the spread will be included in the employee's gross income. When the stock acquired subject in the option is sold, the entire gain will be treated as capital gain and not ordinary income.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 464 Internal Revenue Code of 1954; 26 USC 278(b) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide that enterprises which qualify as farming syndicates must deduct expenses for feed, seed fertilizer, etcetera, only when used or consumed and to capitalize certain cost of poultry. Furthermore, farming syndicates are to capitalize certain expenses of groves, orchards and vineyard to the extent such expenses are incurred before the grove, orchard or vineyard becomes productive.

317. INCOME TAX--DETERMINATION OF AMOUNTS AT RISK WITH RESPECT TO CERTAIN ACTIVITIES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 465 Internal Revenue Code of 1954; Section 204 Tax Reform Act of 1976

CFR Citation: 26 CFR 1

Abstract: The regulations would provide guidance to taxpayers for purposes of determining the amount the taxpayer is at risk in certain activities. This guidance is necessary because a

taxpayer's deductions are limited to the amount the taxpayer is at risk in the activity. This at risk limit applies to most activities except the holding of real property and certain equipment leasing by closely-held corporations.

327. USE OF ONE INVENTORY POOL BY SMALL BUSINESS ELECTING LIFO METHOD OF ACCOUNTING

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 474 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: This project provides regulations pertaining to an election by a small business, which employs the dollar value LIFO method of pricing inventories, to use a single inventory pool. The regulations define "small business," thereby giving the rules of eligibility under this provision. Further, the regulations set forth the procedures of making a proper election and give transitional rules to govern pricing in the year of election.

334. INCOME TAX--TAX TREATMENT OF CERTAIN SOCIAL CLUBS & PROHIBITION OF DISCRIMINATION BY CERTAIN SOCIAL CLUBS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 501(c)(7) Internal Revenue Code of 1954; 26 USC 501(i) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations describe the requirements that a club must meet to qualify for tax exemption, explain the social character required of an exempt club, and prescribe the circumstances in which nonmember support is taken into account in determining whether substantially all of the club's activities are for its exempt purposes. Exemption is denied to clubs which by written policy discriminate on the basis of race, color, or religion.

339. INCOME TAX--UNRELATED TRADE OR BUSINESS INCOME

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 512(a) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulation will address the issue of what constitutes real property acquired by a qualified trust. The guidance provided on this issue will determine the scope of the exception under 26 USC 514(c)(9) for such acquisitions from the term acquisition indebtedness. Under 26 USC 514, the existence of such indebtedness on income producing property gives rise to unrelated debt-financed taxable income. The regulation will also address the issue of the proper allocation method to determine fixed indirect expenses connected with the unrelated trade or business use of an exempt organization's property.

358. INCOME TAX–AMENDMENT OF SEC 1.731-1(C) TO CLARIFY THE TAX TREATMENT OF A DISTRIBUTION OF PROPERTY BY A PARTNERSHIP TO A PARTNER WHO HAD RECENTLY CONTRIBUTED OTHER PROPERTY

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 731 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations provide that if property is contributed to a partnership and within a short period other property is distributed to the contributing partner, the distribution may fall outside of the nonrecognition provision of section 731. The regulations would provide that the substance of the transaction, rather than its form, determines whether the distribution is tax-free. The regulations would provide examples illustrating contribution/distribution transactions that will be treated as a taxable sale or exchange.

378. INCOME TAX--RECAPTURE OF OVERALL FOREIGN LOSSES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 904(f) Internal Revenue Code of 1954; PL 97-248, Sec 211

CFR Citation: 26 CFR 1

Abstract: The regulations would provide rules for determining the amount of and recapturing overall foreign losses. An overall foreign loss under any one of the separate limitations on the foreign tax credit may offset the taxpayer's United States tax on United States source income in the year of the loss. The recapture rules provide that a portion of the taxpayer's foreign taxable income under the same limitation in subsequent years is to be recharacterized as United States source income, thereby reducing the taxpayer's foreign tax credit and preventing a double tax benefit from the loss.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 905(c) Internal Revenue Code of 1954; 26 USC 6689 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1; 26 CFR 301

Abstract: The regulations will establish procedures for taxpayers by which they must notify the Service of a change in foreign tax liability for a taxable year for which they claimed the foreign tax credit. The regulations provide special rules for redetermining the taxpayer's United States tax liability when the dollar value of the foreign currency fluctuates between the time for which the foreign tax credit is originally claimed and the time for which the foreign tax credit is redetermined. In addition, the regulations set forth deadlines for compliance with the notification requirements.

CFR Citation: 26 CFR 1

Abstract: The regulations would provide rules for determining the basis of player contracts acquired by a purchaser upon the sale or exchange of a sports franchise. Generally, the purchaser's basis with respect to player contracts is to be determined by reference to the seller's adjusted basis and the gain the seller recognizes from the transfer of the player contracts. Exceptions are provided in the cases of certain corporate one-year liquidations, certain like-kind exchanges and for certain transfers relating to decedents. Furthermore, a presumption is provided that in the sale or exchange of a sports franchise, not more than 50-percent of the consideration will be allocable to player contracts unless the taxpayer can satisfy the Secretary it is proper to allocate an amount in excess of 50-percent.

402. ORIGINAL ISSUE DISCOUNT REPORTING REQUIREMENTS

Legal Authority: 26 USC 7805 Internal Revenue Code 1954; 26 USC 1275 Internal Revenue Code 1954

CFR Citation: 26 CFR 1

Abstract: Section 1275 (c) (2) of the Internal Revenue Code of 1954 as amended by section 41 of the Deficit Reduction Act of 1984 requires the issuer of a publicly offered debt instrument having original issue discount to furnish the Secretary certain information with respect to such an issue. These temporary regulations require that an issuer of a publicly offered debt instrument issued at a discount furnish the Secretary with his or her name, address, and taxpayer identification number, the issue date, maturity date, and CUSIP number of the issue, the amount of original issue discount for the entire issue, the issue price (expressed as a percentage of the stated redemption price at maturity), the stated redemption price at maturity, the stated interest rate and dates of interest payments, and a description of the issue. The information will be used to update Publication 1212, a list of publicly offered original issue discount obligations to enable brokers and other middlemen to identify publicly traded OID obligations.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 2210 Internal Revenue Code of 1954; 26 USC 2002 Internal Revenue Code of 1954; 26 USC 6018 (c) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: Allows estate tax liability for employer securities to be assumed by ESOP's rather than by the executor. To qualify, a qualified amount of employer securities must be acquired by the ESOP from "or on behalf of" the decedent. In addition, the executor must elect, in writing, to assume the attributable estate tax liability on behalf of the ESOP. The ESOP then becomes liable for the estate tax.

444. TO PROVIDE REGULATIONS RELATING TO BACKUP WITHHOLDING UNDER SECTION 3406

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 3406 Internal Revenue Code of 1954

CFR Citation: 26 CFR 31

Abstract: The regulations will provide that a tax equal to 20 percent of any reportable payment is required to be withheld if certain conditions exist. With respect to reportable interest or dividends, backup withholding applies if (1) no number is provided in the manner required, (2) the Service notifies the payor that the payee's taxpayer identification number is not correct, (3) the payee is subject to backup withholding due to a notified payee underreporting, and (4) the payee fails to certify when required that he or she is not subject to backup withholding due to notified payee underreporting. With respect to other reportable payments (such as rents, royalties, nonemployee compensation, broker transactions, or barter exchanges), backup withholding applies if (1) no taxpayer identification number is provided, or (2) the Service notifies the payor that the payee's taxpayer identification number is not correct.

445. TO PROVIDE TEMPORARY REGULATIONS RELATING TO BACKUP WITHHOLDING WHERE THE SERVICE NOTIFIES PAYOR TO WITHHOLD DUE TO AN INCORRECT TAXPAYER IDENTIFICATION NUMBER

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 3406 Internal Revenue Code of 1954

CFR Citation: 26 CFR 35a

Abstract: These regulations will prescribe when withholding is required when the Internal Revenue Service notifies the payor of an incorrect taxpayer identification number. The regulations will also describe that no withholding is required if the payee, within 30 days of the Service's notification, certifies under penalties of perjury that the name and taxpayer identification number are correct. If no certification is received within 30 days, backup withholding applies until such certification is received.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954, 26 USC 4994(c) Internal Revenue Code of 1954

CFR Citation: 26 CFR 51

Abstract: These regulations would provide rules relating to the treatment of front-end tertiary oil under the crude oil windfall profit tax. The proposed regulations explain the exemption from the windfall profit tax for domestic crude oil that is removed from the premises before October 1, 1981, and that is treated as front-end oil and used to finance a front-end tertiary project on one or more properties each of which is a qualified property.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 4996 Internal Revenue Code of 1954

CFR Citation: 26 CFR 51

Abstract: These proposed regulations would provide rules relating to the definition of "property" for purposes of the crude oil windfall profit tax. These regulations are important because the rate of tax depends, in part, on the characteristics of the property from which the crude oil is produced.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 6011 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would require certain returns to be filed on magnetic media. Prior to enactment of section 319 of the Tax Equity and Fiscal Responsibility Act of 1982, there was no statutory or regulatory requirement that any particular return be filed on magnetic media or in other machine-readable form. The regulations would provide standards for determining which returns would be required to be filed on magnetic medias.

482. INCOME TAX--INFORMATION RETURNS REQUIRED OF CERTAIN FOREIGN-OWNED CORPORATIONS; FOREIGN CORPORATION REPORTING REQUIREMENTS AND PENALTIES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 6038 Internal Revenue Code of 1954; 26 USC 6038A Internal Revenue Code of 1954; PL 97-248, Sec 338; PL 97-248, Sec 339

CFR Citation: 26 CFR 1

Abstract: The regulations would provide that certain foreign-owned corporations which transact business with other related corporations must furnish information about those transactions and the transacting corporations. The purpose of the reporting requirement is to verify that income is being reported accurately. The regulations would also amend existing penalty provisions for failure to supply information relating to certain foreign corporations, to conform those provisions to new statutory penalties imposed under the Tax Equity and Fiscal Responsibility Act of 1982.

484. INFORMATION RETURNS OF BROKERS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 6045 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations in this project clarify the definition of the term "commodity" for purposes of broker reporting. Rules are provided for determining whether personal property (including gold and silver) is a commodity. Generally, the term "commodity" is defined as personal property that is deliverable in satisfaction of a regulated futures contract, certain specified personal property that the secretary determines is to be treated as a commodity or any form or quality of or any interest in such personal property. The term "commodity" does not include a security, regulated futures contract, forward contract, or a form of tangible personal property if the gross proceeds from its sale exceed by more than 15 percent its value as a commodity. The rules proposed include alternative methods (the "exact" and "approximate" methods) of tangible personal property valuation

485. FURNISHING STATEMENTS REQUIRED WITH RESPECT TO CERTAIN SUBSTITUTE PAYMENTS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 6045 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: These regulations were designed in order to alleviate certain situations in which multiple deductions or exclusions were being claimed with respect to a single payment made with respect to a single security. These situations developed because of shortcomings in the broker reporting system. These regulations provide that a broker must furnish statements to its customers with respect to certain substitute payments received by the broker on behalf of its customer. These regulations also provide that brokers must make returns of information respecting any customer to which such broker is required to furnish a statement.

486. INFORMATION RETURNS OF BROKERS

Legal Authority: 26 USC 7805 Internal Revenue Code; 26 USC 6045 Internal Revenue Code

CFR Citation: 26 CFR 1

Abstract: The regulations provide a special rule for broker reporting with respect to transactions made through a cash on delivery account (COD). In addition, these regulations make technical corrections to the list of recipients exempted from coverage under the reporting requirement, and expand the class of brokers which qualify for the multiple broker rule.

527. ADMINISTRATIVE SUMMONSES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 7609 Internal Revenue Code of 1954; 26 USC 7610 Internal Revenue Code of 1954

CFR Citation: 26 CFR 301

Abstract: An administrative summons is used by the Internal Revenue Service to obtain taxpayer records in the hands of a third party recordkeeper, such as a bank. Sections 331, 332, and 333 of the Tax Equity and Fiscal Responsibility

Act of 1982 amended sections 7602 and 7609 of the Internal Revenue Code of 1954 relating to administrative summonses. The amendments alter the circumstances under which an administrative summons may be issued and also alter the rights and obligations of the subject taxpayer and third-party recordkeeper. This regulation project will provide guidance relating to these new administrative summons procedures.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103(c) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide miscellaneous changes to the arbitrage regulations. The changes would provide guidance to issuers, purchasers and users of tax-exempt obligations. The regulations would relate to the calculations of yield for purposes of determining whether obligations are tax-exempt. If the yield on obligations acquired with the proceeds of a governmental obligation are materially higher than the yield on the governmental obligation then the interest paid on the governmental obligation is not tax-exempt.

Legal Authority: 26 USC 7805 Internal Revenue Code; 26 USC 103 Internal Revenue Code

CFR Citation: 26 CFR 1

Abstract: The regulations would provide guidance to issuers, purchasers and users of tax-exempt obligations the proceeds of which are used to acquire acquired purpose obligations which are guaranteed by Federal Depository Insurance. Thus, the regulations would determine whether the yield produced by certificates of deposit are materially higher than the yield on the tax-exempt obligations. If the yield on acquired purpose obligations is materially higher than the yield on such obligations then the interest paid thereon is not tax-exempt.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 6045 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1(T)

Abstract: These regulations were designed in order to alleviate certain situations in which deductions and exclusions were being claimed more than once with respect to payments made on the same securities. These situations developed because of shortcomings in the reporting system. These regulations provide that a broker must furnish statements to its customers with respect to certain substitute payments received by the broker on behalf of its customer. These regulations also provide that brokers must make returns of information respecting any customer to which such broker is required to furnish a statement.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 7872 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: These regulations provide guidance to taxpayers who enter into certain below-market interest rate loan transactions. The regulations will explain what type of transactions are treated as loans and what type of loans are subject to the provisions of section 7872. If the loan is subject to the provisions of section 7872, the below-market loan will be recharacterized as an arms-length market interest rate loan coupled with a payment by the lender to the borrower in an amount equal to the inputed interest. The regulations provide rules for determining the amount and character of the inputed transfers.

Semiannual Regulatory Agenda

ACTION

ACTION

45 CFR Ch. XII

Executive Order 12291, Federal Regulation, Semiannual Agenda of Regulations

AGENCY: ACTION.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that ACTION will have under development, revision or review during the 12 month period from April 1985 to April 1986. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning ACTION regulations or this semiannual agenda contact Ronald C. Owens, Associate General Counsel, ACTION, 806 Connecticut Avenue, N.W., Washington, D.C. 20525, (202) 634-9333.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (5 U.S.C. 605) executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by ACTION are not "major" rules within the meaning of E.O. 12291 and no Regulatory Impact Analysis is required. ACTION has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

DATED: March 5, 1985.

CFR Citation: 36 CFR 800

Abstract: In order to streamline and increase the effectiveness of the Council's regulations at 36 CFR Part 800, the Council is in the process of preparing revisions to its regulations. The reason for the revisions is to implement new regulatory authorities set forth in PL 96-515, and to improve the efficiency of the historic preservation review process. The alternative to revision of the regulations is to leave them as they are, which would not achieve the goals the Council seeks. The revisions are expected to reduce the cost of complying with the regulations.

Semiannual Regulatory Agenda

EPA

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Ch. I

[FRL #2803-8]

Regulatory Agenda

AGENCY: Environmental Protection Agency (EPA).

ACTION: Regulatory agenda.

SUMMARY: EPA revises the Regulatory Agenda semiannually and it appears in the **Federal Register** each April and October. It provides specific information on the status of regulations that are under development, revision, and review at the Agency. The Agenda is published to keep interested parties informed of the progress of EPA regulations.

ADDRESSES: For specific information on any item in the Agenda, please contact the person listed with each entry.

If you have any suggestions for improving this publication, or need general information about the Agenda, please call or write to Angela Tyler, Regulation Management Staff, Environmental Protection Agency, PM-223, Washington, D.C. 20460, (202) 382-7203.

If you want to be on the mailing list for future Agendas, please call or write to Penelope Parker, Regulation and Information Management Division, Environmental Protection Agency, PM-223, Washington, D.C., 20460, (202) 382-5475.

FOR FURTHER INFORMATION CONTACT: Angela Tyler, (202) 382-7203.

SUPPLEMENTARY INFORMATION:

Organization of the Agenda

The Agenda is organized by statutory area -- generally by the titles of the major legislation authorizing EPA's pollution control programs. In a few cases, the Agenda combines regulations with differing statutory authorities that have closely-related subject matter. For example, the Fuel Economy Data regulation under the Energy Policy and Conservation Act appears together with mobile source regulations under the Clean Air Act. Also, a list of abbreviations of terms used in this document is included as Appendix A.

The statutory areas appear in the following order:

Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)
Federal Food, Drug, and Cosmetics Act (FFDCA)
Toxic Substances Control Act (TSCA)
Clean Water Act (CWA)
Marine, Protection, Research, and Sanctuaries Act (MPRSA)
Atomic Energy Act (AEA)
Uranium Mill Tailings Radiation Act (UMTRA)
Safe Drinking Water Act (SDWA)
Resource Conservation and Recovery Act (RCRA)
Hazardous and Solid Waste Management Act (HSWA)
Clean Air Act (CAA)
Energy Policy and Conservation Act (EPCA)
Comprehensive Environmental Response, Compensation, and Liability Act (Superfund) (CERCLA)
General -- Other Acts (including general grant and procurement regulations and regulations that cut across several program areas)

This Agenda includes the HSWA amendments that reauthorized the RCRA program. The President signed HSWA into law on November 8, 1984. Many of the provisions are effective immediately; other provisions establish tight schedules for Agency rulemaking. Also, some sections of the statute establish "hammer" provisions -- i.e., requirements that are effective on a certain date by statute if EPA fails to issue regulations before that date.

The following is a summary of the law's major provisions:

- A new program for banning wastes from land disposal;
- Prohibition against certain land disposal practices;
- Minimum technological measures for landfills, surface impoundments and incinerators;
- Requirements for retrofitting certain existing surface impoundments with liners;
- Authority to expedite permits for new and innovative treatment technologies to foster research and development;
- Authority to require permit conditions beyond the scope of EPA's existing regulations;
- Tighter controls on small quantity generators of hazardous wastes;
- Requirements to identify additional hazardous wastes;
- A full assessment of the hazard posed by a waste before EPA may delist it;
- Requirements for thorough inspections of State and Federal facilities;
- Enhanced Federal enforcement authorities;
- Specific controls on the burning and blending of hazardous wastes as fuels;
- Specific requirements for the regulation of used oil;
- Tighter controls on the export of hazardous wastes;
- A new program for identifying health risks presented by individual surface impoundments and landfills;
- An expanded program for the regulation of solid waste management facilities;
- Greater citizen involvement in "imminent and substantial hazard" cases under section 7003;
- A major new program for regulating underground tanks; and
- Establishment of a National Groundwater Commission.

This Agenda addresses current Agency activities in response to HSWA. The Agency is indefinitely postponing some RCRA actions listed in the previous (October 1984) Agenda, because the Agency has given higher priority to implementing the new HSWA amendments.

Within each statutory area the entries are divided into three categories: (1) Regulations currently under development; (2) regulations under review; and (3) regulations and reviews of regulations that EPA is deleting from the Agenda because the Agency has completed, withdrawn, or postponed them indefinitely. Detailed information on each of these sections is presented below.

Current and Projected Regulations

Current and projected regulations are generally listed in the Agenda once they are within a year of scheduled publication as a notice of proposed rulemaking (NPRM) or final action. Very important regulations will usually appear when the scheduled publication dates are more than a year away.

The current and projected regulations appear as: (a) "New Regulations," i.e., actions that will create new CFR parts, subparts, or subsections; or (b) "Revised Regulations," i.e., actions that revise or amend already existing CFR parts, subparts, or subsections. The word "revision" will appear in parentheses after the title of each regulation undergoing revisions. All regulations

appearing in the Agenda for the first time are marked with bullets.

The regulations are ordered numerically, by section number of the authorizing legislation. For example, all air regulations under section 109 of the Clean Air Act will appear before those under section 111.

The current and projected listing include most of the regulations under development that:
- Are subject to Executive Order 12291;
- The Presidential Task Force on Regulatory Relief has identified; or
- The Agency has designated for priority development or revision.

However, the listings exclude: (a) Specialized categories of actions (such as EPA approvals of state plans and other actions that do not apply nationally); and (b) routine actions (such as pesticide tolerances and minor amendments to existing rules).

For each current and projected regulation the Agenda includes:
- The title,
- The priority classification (if applicable),
- The legal authority,
- The CFR reference,
- A short abstract,
- An analysis section (if the Agency is preparing a Regulatory Impact Analysis [RIA] and/or a Regulatory Flexibility Analysis [RFA]),
- A timetable of existing and scheduled actions,
- A reference to small entity impacts,
- An Agency contact, and
- An additional information section.

The additional information section includes the FTS phone number for the Agency contact. It also includes the Start Action Request (SAR) number, which is assigned to the regulation for internal tracking purposes.

Regulations Under Review

The Agenda identifies existing EPA regulations: (1) That are now under review, or (2) whose review will begin before EPA publishes the next Agenda. The purpose of such reviews is to determine whether the Agency should revise the rule, rescind it, or leave it unchanged. If EPA decides to revise or rescind the regulation, the action will appear in the following Agenda as an entry in the appropriate section for current and projected rules, and will state the timetable for completing the revision or rescission.

The review section also includes evaluations of major information collection activities the Agency is conducting under the Paperwork Reduction Act (PRA). The Agency is currently performing reviews in three regulatory areas: General Pretreatment, New Source Performance Standards, and Superfund. The purpose of these reviews is to assess the quality, utility, effectiveness and efficiency of information requirements.

For each regulation under review, the Agenda provides the title, a short abstract, legal authority, CFR reference, any analysis EPA is preparing, contact person, and the schedule for completing the review. It also indicates the "review authority," which in many cases is different from the regulation's statutory authority. EPA reviews regulations under various mandates, and some reviews satisfy more than one of these mandates. The principal mandates are:

Executive Order 12291 establishes the general policy that EPA should review its existing regulations to ensure that the costs of these regulations are justified by their benefits.

The Regulatory Flexibility Act (5 USC 610) requires that EPA review existing regulations that have a significant impact on a substantial number of small entities, including small businesses, small organizations, and small governments, at least once every ten years. EPA issued its plan for conducting these reviews on July 16, 1981, at 46 FR 36930, and asked for public comment. The Agency has used those comments in identifying candidates for review. EPA invites public comment on the need to revise this candidate list.

Reviews under the RFA are identified by a "Yes" in the "small entity" category. When the Agency completes reviews of regulations with a significant impact on small entities, the Agenda entry includes an abstract that announces the Agency's decision of whether to revise, rescind, or leave the regulation unchanged. This announcement complies with the RFA and EPA's July 1981 plan for reviewing regulations under the Act.

The Paperwork Reduction Act mandates Federal agencies to:
- Minimize the paperwork burden that they impose on the public, and on State and local governments;
- Minimize the cost to the Federal government of collecting, maintaining, using, and disseminating information; and
- Maximize the usefulness of information collected by the Federal government.

To fulfill this mandate, EPA reviews its information collection activities to determine that:
- The Agency needs and will actually use all of the information that will be collected;
- The information to be collected does not already exist at EPA or at some other Federal agency;
- The information will be collected, managed, and used as efficiently as possible;
- The information will be of high quality, appropriate to its intended use; and
- The costs of collecting the information -- both to the respondents and to EPA -- will be held to a minimum.

Completed Actions

These are actions that appeared in the last Agenda, but which EPA is deleting because they are completed or are no longer under consideration. The information given on these regulations and reviews of regulations is less detailed than for those that are still under consideration. Generally, entries include: (1) The date and **Federal Register** citation, if any, of the last action on the regulation, and (2) an explanation of why the Agency is deleting the regulation from the Agenda.

ENVIRONMENTAL PROTECTION AGENCY (EPA)—Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)

Current and Projected Rulemakings

1. RESTRICTED USE CLASSIFICATION FOR CERTAIN ACTIVE INGREDIENTS USED IN FUMIGANTS

Legal Authority: 7 USC 136 / FIFRA 3

CFR Citation: 40 CFR 162.31

Abstract: FIFRA requires that pesticides be classified for either general use or restricted to trained, certified pesticide applicators, or people under their direct supervision. This rule would classify certain active ingredients in grain fumigants for restricted use based on an evaluation of the incremental risks and benefits of unrestricted use. Classification for restricted use permits the continued use of certain pesticides which, if used without restrictions may have unreasonable adverse effects on the environment.

2. COMPREHENSIVE REVISION OF PESTICIDE REGISTRATION, LABELING, AND CLASSIFICATION PROCEDURES (REVISION)

Priority: Undetermined

Legal Authority: 7 USC 136(d) / FIFRA 3

CFR Citation: 40 CFR 162

Abstract: These regulations will revise procedures and requirements for the registration and reregistration of pesticide products, the labeling of such products, and the classification of pesticide products as restricted use products.

3. SPECIAL REVIEW CRITERIA AND PROCEDURES (REVISION)

Priority: Agency Determination

Legal Authority: 7 USC 136 / FIFRA 3

CFR Citation: 40 CFR 162.11

Abstract: The Agency is revising its criteria for initiating special reviews of pesticides (previously known as the Rebuttable Presumption Against Registration (RPAR) Process). These revisions will make the special review process consistent with statutory changes and program experience. The Agency is also revising the procedures for special review of chemicals to make the process more efficient and to promote public discussion. The criteria are being revised at the request of the President's Task Force on Regulatory Relief.

4. PESTICIDE PRODUCTS; PACKAGE SIZE EXEMPTION FOR CHILD RESISTANT PACKAGING (REVISION)

Legal Authority: 7 USC 136d / FIFRA 3

CFR Citation: 40 CFR 162

Abstract: EPA is proposing to amend its regulations on the use of child resistant packaging for pesticide products to provide for exemptions for certain products based on the size of the package in which the product is distributed. This revision should reduce the cost of packaging for producers who market large-size containers to the pest control service segment of the user community.

5. ● PESTICIDES APPLIED TO BODIES OF WATER (REVISION)

Legal Authority: 7 USC 136/FIFRA 3; 7 USC 136/FIFRA 12; 21 USC 346/FFDCA 408, 21 USC 346/FFDCA 409

CFR Citation: 40 CFR 162; 40 CFR 180

Abstract: This final notice of procedural changes modifies EPA's administrative procedures for regulating aquatic pesticide uses which result in pesticide residues in drinking water. Since the authority of FFDCA no longer applies to drinking water, these new procedures eliminate the requirement for establishing a food tolerance regulation. Instead, the Agency regulates such residues as described in the procedures under the authority of FIFRA. When residues result in drinking water following application of aquatic use pesticides, acceptable levels will be set through coordination of the Office of Pesticide Programs and the Office of Drinking Water. This procedure will relieve registration applicants from filing a food additive petition under the FFDCA, in addition to filing the application for registration under FIFRA.

6. ● PESTICIDE REGISTRATION STANDARDS: DOCKETING AND PUBLIC PARTICIPATION PROCEDURES

Legal Authority: 7 USC 136/FIFRA 3

CFR Citation: 40 CFR 155

Abstract: This proposal would establish procedures for providing additional opportunities for public participation in the development of pesticide registration standards. The procedures would establish and provide for the maintenance of a docket for each registration standard, which would be indexed and made available to the public. The procedures would also provide for publication in the Federal Register of an annual schedule of registration standards under development, as well as announcements of the availability of the public docket and registration standards.

7. ● POLICY STATEMENT REGARDING CERTAIN MICROBIAL PRODUCTS

Legal Authority: 7 USC 136/FIFRA 3; 7 USC 136/FIFRA 5

CFR Citation: 40 CFR 172; 40 CFR 162

Abstract: New microorganisms developed through advanced techniques of genetic engineering and used for FIFRA commercial purposes will be subject to EPA requirements. OPTS is now developing general policies concerning the scope of PMN requirements for genetically engineered organisms, a policy for handling genetically engineered pesticides, and strategies for conducting risk assessments of these organisms. A proposed policy was published in December 1984. Comments are due on April 1, 1985. The policy will be revised, as appropriate, and a final statement will be prepared. In addition, OPTS is participating in a Cabinet Council working group on biotechnology to ensure that the overall Federal approach is integrated and consistent.

8. TOLERANCE FEES FOR PESTICIDE CHEMICALS (REVISION)

Legal Authority: 21 USC 346(a) / FFDCA 408

CFR Citation: 40 CFR 180.33

Abstract: Section 408(a) of the Federal Food, Drug, and Cosmetic Act authorizes EPA to collect fees from registrants seeking approval of tolerance petitions. The tolerance fee structure originally was designed to cover the Agency's processing costs for reviewing tolerance petitions and for establishing tolerance levels for pesticides used on food products. The Agency has not modified its tolerance fee structure since 1972. This proposed regulation will establish a new tolerance fee structure based upon the Agency's increased costs for processing tolerance petitions.

9. ENFORCEMENT POLICY REGARDING FAILURES TO REPORT INFORMATION UNDER SECTION 6(A)(2) OF THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT (FIFRA)(REVISION)

Legal Authority: 7 USC 136d / FIFRA 6

CFR Citation: Not applicable

Abstract: FIFRA section 6 (a)(2) requires that registrants report to EPA additional factual information regarding unreasonable adverse effects of their products. In addition to reiterating enforcement policy established in July 1979, this policy notice will expand upon the types of factual information which must be reported, and establish a uniform timeframe in which they must comply.

12. RULE GOVERNING ISSUANCE OF EMERGENCY EXEMPTIONS FROM FIFRA (REVISION)

Legal Authority: 7 USC 136 / FIFRA 18

CFR Citation: 40 CFR 166

Abstract: The Agency intends to revise certain provisions of this rule. These revisions will reflect the results of the Agency's investigation of the consistency of decisions to grant emergency exemptions under FIFRA. These revisions will more clearly specify the conditions under which EPA will authorize emergency exemptions and permit the public an opportunity to comment on exemption requests for certain categories of pesticide chemicals, including new chemicals, chemicals suspected of posing risks, and chemicals previously cancelled or suspended by EPA. This rule is being developed as part of a pilot effort on negotiated rulemaking which would give interested parties outside the Agency greater involvement and commitment to the decision-making process.

13. GUIDELINES ON DISPOSAL AND STORAGE OF PESTICIDES (REVISION)

Legal Authority: 7 USC 136q / FIFRA 19

CFR Citation: 40 CFR 165

Abstract: EPA's Office of Pesticide Programs is updating the Guidelines on Disposal and Storage of Pesticides to make them consistent with current regulations and technology. The Office of Pesticide Programs is also adding interpretive guidance on compliance with RCRA regulations on hazardous waste as they may apply to the disposal and storage of pesticides. These guidelines serve as guidance only and compliance is completely voluntary.

20. PMN EXEMPTION FOR LOW VOLUME CHEMICALS

Priority: Task Force

Legal Authority: 15 USC 2604 / TSCA 5

CFR Citation: 40 CFR 723

Abstract: Section 5(a) of TSCA requires manufacturers of new chemical substances to submit a premanufacture notice (PMN) to EPA before manufacture or import begins. Section 5(h)(4) authorizes the Administrator to exempt any person from the provisions of section 5 if the Agency determines that the substance will not present an unreasonable risk. This rule exempts manufacturers of certain chemicals produced at 1,000 kg/yr or less. This revision is being made at the request of the President's Task Force on Regulatory Relief.

Legal Authority: 15 USC 2604 / TSCA 5; 15 USC 2607 / TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 721

Abstract: EPA has instituted a program to monitor the commercial development of existing chemicals of concern and/or to gather information to support risk assessments on such chemicals. As these chemicals are identified, EPA will initiate rulemakings under TSCA section 5 and/or 8 to require reporting by the manufacturers, importers and/or processors of these chemicals. Individual proposed or final rules will be published at different times throughout the period of April 1985 to April 1986 on at least the following chemicals: 4,4'Methylene bis (2-chloroaniline); Hexamethylphosphoramide; Urethane; Methyl Butyl Ketone; 11-Aminoundecanoic Acid; Hexachloronorbornadiene; and Polybrominated Biphenyls and Tris/2,3-Dibromopropyl Phosphate.

Legal Authority: 15 USC 2604 / TSCA 5

CFR Citation: 40 CFR 720

Abstract: On September 13, 1983, EPA stayed the effective date of sections 720.3(y), 720.36, 720.50(c), and 720.78(b) of the final premanufacture notification (PMN) rule issued under section 5 of the Toxic Substances Control Act (TSCA). The stayed provisions concerned the section 5(h)(3) research and development exemption, data requirements on related chemicals, and the definition of "possession and control". All other provisions are effective as of October 26, 1983. This reproposal will revise the stayed provisions only.

Legal Authority: 15 USC 2604(b)(4) / TSCA 5

CFR Citation: 40 CFR 700

Abstract: EPA is announcing a proposed rulemaking to implement TSCA Section 5(b)(4), which provides EPA authority to develop by rule a list of substances which present or may present an unreasonable risk of injury to health or the environment. Submitters of TSCA section 5 notices for substances on the list must submit data which they believe show that the substances will not present an unreasonable risk of injury. The rule under consideration would list categories of chemicals which have frequently presented risk concerns to the Agency in the Section 5 premanufacture (PMN) review process.

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

Abstract: Subpart A of part 721 of 40 CFR contains general provisions for Significant New Use Rules (SNURs). The Agency has received comments requesting that the general provisions be modified to provide more flexibility in recordkeeping requirements; to revise its hazard communication provisions to make them more compatible with OSHA's Hazard Communication Standard; and to allow manufacturers and processors to seek Agency approval, outside the context of a PMN submission, for risk management measures which are equivalent to those described in a SNUR. 26. ● SIGNIFICANT NEW USE RULES TO EXTEND PROVISIONS OF SECTION 5(E) ORDERS

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

Abstract: When the Agency determines that in the absence of adequate safety data, the uncontrolled manufacture, distribution, use or disposal of a PMN substance may present an unreasonable risk, it may issue a proposed order under section 5(e) to limit the aforementioned activities. However, section 5(e) orders apply only to the PMN submitter. Once the substance is placed on the TSCA chemical inventory, other persons are free to manufacture or process the substance without controls. Therefore EPA, by rule, designates manufacture or processing of the substances for use without the specified controls as a significant new use. These SNURs ensure that the original submitter is not at a competitive disadvantage and that no uncontrolled activities will occur without an opportunity for prior Agency review.

27. ● GENERAL SIGNIFICANT NEW USE RULE (SNUR)

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

Abstract: EPA is considering developing general SNURs which would designate certain activities as generic significant new uses. The rules will define situations in which follow-up reporting has been routinely required. General rules, setting forth criteria under which follow-up reporting is automatically required, will eliminate the need for individual rules each time such criteria are met.

Legal Authority: 15 USC 2604/TSCA 5

CFR Citation: 40 CFR 721

Abstract: New microorganisms developed through advanced techniques of generic engineering and used for TSCA commercial purposes will be subject to EPA requirements. OPTS is now developing general policies concerning the scope of PMN requirements for genetically engineered organisms, a policy for handling genetically engineered pesticides, and strategies for conducting risk assessments of these organisms. A proposed policy was published in December 1984. Comments are due on April 1, 1985. The policy will be revised, as appropriate, and final statement will be prepared. In addition, OPTS is

participating in a Cabinet Council working group on biotechnology to ensure that the overall Federal approach is integrated and consistent.

29. PCB TRANSFORMERS IN BUILDINGS (REVISION)

Legal Authority: 15 USC 2605 / TSCA 6(e)

CFR Citation: 40 CFR 761.31

Abstract: Polychlorinated biphenyl (PCB) equipment is owned and operated by utilities and building owners throughout the U.S. Over the past two years, electrical transformers containing PCBs have been involved in several office fires. If the fire occurs in an occupied building, and ventilation ducts spread volatized toxic chemicals, such an incident could create a major public health problem. Although the intent of regulation would be to reduce the risk of future fires in PCB transformers that are located in buildings, the regulation would indirectly regulate the environmental dispersing of toxic chemicals that are created in transformer fires.

Legal Authority: 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 764

Abstract: 1,3-butadiene is a large scale, commercial chemical used primarily for manufacturing rubber and plastic products. It is a potent animal carcinogen and was the subject of a 180-day priority review by the Agency. An ANPR was issued in May 1984. EPA has determined that exposure to the chemical is primarily occupational.EPA is exploring various control alternatives, including section 9 referral to other agencies and/or section 6 regulations.

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608/TSCA 9

CFR Citation: 40 CFR 749

Abstract: The formulation of water-based metalworking fluids with nitrite in combination with alkanolamines may present an unreasonable risk to machinists due to the formulation of nitrosamines, particularly in n-nitrosodiethanolamine (NDELA). Recent studies indicate that NDELA is a potent animal carcinogen. EPA is investigating the regulatory options which would provide for rapid risk reduction in this area. The regulatory investigation centers on quantifying cancer risks and on the eificacy and cost of removing nitrites from metalworking fluids.

Abstract: As described in the Federal Register on May 23, 1984, the Agency is investigating regulatory options for the reduction of three categories of exposure to formaldehyde: 1) residents exposed to formaldehyde emissions from wood products used in the construction of mobile homes; 2) similarly exposed residents of conventional homes; 3) apparel manufacture employees exposed to formaldehyde released from treated fabrics. This investigation is being conducted in consultation with HUD, OSHA and CPSC. This investigation may lead to the initiation of various control alternatives, including section 9 referral to other agencies and/or section 6 regulations.

Legal Authority: 5 USC 556 / TSCA 6(e)(3)(B)

CFR Citation: 40 CFR 761

Abstract: Section 6(e)(3)(b) of TSCA provides that the Administrator may grant, by rule, exemptions from the prohibitions on the manufacture, processing and distribution in commerce of PCBs upon finding (1) that granting the exemption will not pose an unreasonable risk of injury to health or the environment, and (2) that good faith efforts have been made to develop a PCB substitute which does not pose an unreasonable risk of injury to health or the environment.

Abstract: MBOCA is a curing agent used in the manufacturing of elastomers and surface coatings. It has been shown to cause cancer in laboratory animals. Risks are primarily to workers, many of whom work for small businesses. The Agency is investigating regulatory options for reducing risks from exposure to MBOCA. Several studies are underway to determine the efficacy of various control methods including packaging requirements before proceeding with regulatory action. EPA is exploring various control alternatives, including referral to other agencies under TSCA.

39. HEALTH AND SAFETY DATA REPORTING; SUBMISSION OF TESTS AND COPIES OF HEALTH AND SAFETY DATA (REVISION)

Legal Authority: 15 USC 2607 / TSCA 8(d)

CFR Citation: 40 CFR 716

Abstract: This proposal would amend the automatic reporting provision of the Health and Safety Reporting rule under section 8(d) of the Toxic Substances Control Act (TSCA) (40 CFR Part 716 Subpart A) published on September 2, 1982 (47 FR 38780). The amendment will change 40 CFR 716.18(b) to require without separate proposal and comment, reporting of unpublished health and safety studies on chemicals recommended for testing by the Interagency Testing Committee (ITC) but not designated for action by EPA within 12 months. Two other amendments are also included. One would allow for the removal of ITC-recommended chemicals by the Assistant Administrator for Pesticides and Toxic Substances before the effective date of an amendment adding ITC-recommended chemicals to the section 8(d) rule. The other amendment would modify the procedures for requesting reporting deadline extensions.

41. CHEMICAL INFORMATION RULES; ADDITIONAL AUTOMATIC REPORTING (REVISION)

Legal Authority: 15 USC 2607 / TSCA 8(a)

CFR Citation: 40 CFR 712

Abstract: Current regulations provide that when the Interagency Testing Committee (ITC) recommends chemicals to EPA for priority consideration in the promulgation of test rules, the chemicals are automatically subject to the Section 8(a) Preliminary Assessment Information rule. This rule will amend the automatic reporting requirement to include for reporting those chemicals the ITC recommends for test rules, but are not designated for EPA's priority consideration. 42. PARTIAL UPDATING OF CERTAIN TSCA INVENTORY DATA BASE

Priority: Task Force

Legal Authority: 15 USC 2607 / TSCA 8(a)

CFR Citation: 40 CFR 1

Abstract: This proposal would update, under the authority of section 8(a) of TSCA, the production volume and plant

site data for certain substances reported for the TSCA Chemical Substances Inventory. The information is needed by EPA to perform a number of activities associated with the implementation of TSCA. The current Inventory data base was compiled in 1979, based on 1977 data. The obsolescence of the Inventory data base and the lack of an alternative source that can fully satisfy EPA's requirements have formed the basis for the proposed action. EPA proposes that certain manufacturers/importers of certain substances to report changes in production volume, plant site location, and site-limited status on an event-precipitated basis following the first reporting year during which time every person subject to this rule would be required to report.

43. SECTION 8 (A) PRELIMINARY ASSESSMENT INFORMATION RULE

Legal Authority: 15 USC 2607a / TSCA 8(a)

CFR Citation: 40 CFR 712

Abstract: This rule adds chemicals to the list of chemicals and designated mixtures subject to the requirements of the TSCA Section 8(a) Preliminary Assessment Information Rule - manufacturer reporting (40 CFR Part 712). Manufacturers and importers are required to submit exposure-related data (EPA Form No. 7710-35) on the chemicals. These data will be used to monitor the levels of production, import and/or processing of these substances and the avenues of human and environmental exposure to these substances. It will also support risk assessment and test rule decisions. Individual proposed or final rules will be published at different times throughout the period of October 1984 to October 1985.

Abstract: This rule will contain a comprehensive list of questions for industry reporting which will provide necessary information to complete chemical assessments. Each time EPA needs information on a chemical, the Agency will amend the rule to add the chemical. Not all questions will be selected for each chemical added to the rule; only the most relevant questions will be selected for each chemical. 46. ● SECTION 8(D) HEALTH AND SAFETY REPORTING RULE (REVISION)

Legal Authority: 15 USC 2607(d) /TSCA 8(d)

CFR Citation: 40 CFR 716

Abstract: EPA is considering amending the Toxic Substances Control Act (TSCA) Section 8(d) Health and Safety Data Reporting Rule by: removing the rule's sunset provision, limiting a certain reporting exemption, and clarifying the rule's confidentiality provisions. EPA believes that these three amendments will increase the number and usefulness of the health and safety data reports submitted to EPA, and will provide these reports during the same time period that EPA performs its chemical testing, hazard/risk assessment, and risk management determinations.

Legal Authority: 15 USC 2608 /TSCA 9

CFR Citation: 40 CFR 763

Abstract: EPA has determined that the manufacture, processing, distribution in commerce, use, and disposal of asbestos presents an unreasonable risk. EPA has also determined that the risk may be prevented or reduced to a sufficient extent through action by the Department of Labor (DOL) and the Consumer Product Safety Commission (CPSC). Therefore, EPA has submitted a report to DOL and CPSC describing the risks presented by asbestos and requesting that DOL and CPSC determine whether the risks can be sufficiently reduced by action under their respective authorities.

49. REVIEW OF TSCA SECTION 8(C) ADVERSE REACTIONS REPORTING AND RECORDKEEPING REQUIREMENTS

Legal Authority: 15 USC 2607 / TSCA 8

CFR Citation: 40 CFR 717

Abstract: Under Section 8(c) of the Toxic Substances Control Act, manufacturers, processors, and distributors are responsible for recording allegations that their products caused significant adverse reactions to health or the environment. As stated in the existing rule, EPA will, within 18 months, review the information requirements of the TSCA 8(c) to assess the quality, utility, effectiveness and efficiency of the requirements. This review will be conducted jointly with OPTS and the recommendations, where appropriate, will be implemented through revisions to the 8(c) rule.

Legal Authority: 33 USC 1361 / CWA 201

CFR Citation: 40 CFR 35.2205

Abstract: This rule proposes to specify a maximum allowable project cost which will limit increases on grants for construction of publicly owned treatment works (POTW's). This limit is intended to provide additional incentive for communities to manage their grant funds as efficiently as possible. It will limit the allowable cost increase for grants awarded after the effective date of this rule.

Legal Authority: 33 USC 1311 / CWA 301

CFR Citation: 40 CFR 122

Abstract: This action will develop an NPDES application form for new manufacturing, commercial, mining, and silvicultural operations. Besides obtaining information necessary for setting effluent discharge limitations, it will also help permit writers to determine whether the facility is a new source. This action will also develop a short, two-page application form for use by non-process wastewater dischargers. CFR Citation: 40 CFR 414; 40 CFR 416

Abstract: The Agency has proposed BPT, BAT, NSPS and pretreatment standards for the organic chemicals portion of this industry (SIC 2865, 2869). Pollutants include aromatic chlorinated hydrocarbons, phenolic compounds, and metals. EPA also proposed BCT, BAT, BPT, NSPS, and pretreatment standards for the plastics and synthetics portion of this industry (SIC 2821, 2823, 2824). CFR Citation: 40 CFR 439

Abstract: EPA has promulgated revised portions of the previous interim final BPT, BAT, NSPS, PSES, and PSNS effluent limitations and standards for the pharmaceutical manufacturing point source category. Additionally, the Agency is promulgating NSPS regulations to control the discharge of conventional pollutants for new source direct dischargers. The Agency further intends to promulgate limitations for the BCT control level. However, BCT limitations will not be established until the final BCT methodology POTW cost comparison test and industry cost effectiveness test is issued. The Agency has also postponed a final decision on the BAT and NSPS regulations that would control the discharge of the nonconventional COD pollutant.

Abstract: EPA is developing final effluent limitations and standards for BAT, BPT, BCT, NSPS, and Pretreatment (PSES, PSNS) controls for manufacturers and formulator/packagers of pesticides and related products. Pollutants of concern include active ingredient pesticides, organic solvents, and metals. The Agency also proposes to establish test procedures for the analysis of 66 of the 137 nonconventional pesticide pollutants for which effluent guidelines were proposed in November of 1982 (47 FR 53994). These analytical procedures will be used in supporting the final effluent guidelines and will also be used for filing applications for NPDES permits, state certifications, and for compliance monitoring under the Clean Water Act.

CFR Citation: 40 CFR 430

Abstract: EPA has promulgated effluent limitations and standards for BPT, BAT, NSPS, PSNS, and PSES levels of control for the Pulp and Paper point source category. BCT limitations will not be established until promulgation of the general methodology for determining appropriate levels of conventional-pollutant control under BCT. The Agency has proposed BAT and NSPS regulations that would limit the discharge of PCBs into waters of the United States from mills in this industrial category where fine and tissue papers are made from deink wastepaper. In response to a court remand of the final 1977 BPT regulation, EPA has also proposed a revised BPT limitation for the conventional-pollutant BOD in the acetate grade production subpart of the dissolving sulfite pulp subcategory. The Agency further intends to promulgate limitations for the BCT technology control level, the control of the pollutant PCB (polychlorinated biphenyls), and the BOD limitation for the acetate grade production in the dissolving sulfite pulp subcategory.

75. EFFLUENT GUIDELINES FOR ORE MINING AND DRESSING (PLACER MINING)

Legal Authority: 33 USC 1311 / CWA 301; 33 USC 1314 / CWA 304; 33 USC 1316 / CWA 306; 33 USC 1317 / CWA 307; 33 USC 1361 / CWA 501

CFR Citation: 40 CFR 144.103; 40 CFR 144.104

Abstract: The Agency is developing BAT and NSPS for mines and mills that beneficiate gold ores by gravity separation methods. These methods include mining of placer deposits, dredge mining, and hydraulic mining operations. These limitations will apply to wastewater generated by these operations and are an addition to those subcategories for which final regulations were issued on December 3, 1982.

Legal Authority: 33 USC 1311 /CWA 301; 33 USC 1314 /CWA 304; 33 USC 1316 /CWA 306; 33 USC 1317 /CWA 307; 33 USC 1361 /CWA 501

CFR Citation: 40 CFR 463

Abstract: The Agency promulgated BPT, BAT, BCT, and NSPS limitations for the plastics molding and forming industry on December 17, 1984, with the exception of three phthalates in two subcategories. Limitations were reserved for the phthalates because the Agency does not have treatability data for the technology identified to control those pollutants (i.e., activated carbon absorption). The Agency plans to obtain those data through a treatability study and then to propose and promulgate limitations for phthalates, if appropriate. The phthalates in each subcategory are: 1) bis(2-ethylhexyl) phthalate, 2) di-n-butyl phthalate, and 3) dimethyl phthalate.

79. BEST CONVENTIONAL POLLUTANT CONTROL TECHNOLOGY (BCT) COST TEST AND BCT EFFLUENT GUIDELINES

Priority: Agency Determination

Legal Authority: 33 USC 1314 / CWA 304

CFR Citation: 40 CFR 405; 40 CFR 406; 40 CFR 407; 40 CFR 408; 40 CFR 409; 40 CFR 411; 40 CFR 412; 40 CFR 415; 40 CFR 422; 40 CFR 424; 40 CFR 425; 40 CFR 426; 40 CFR 429; 40 CFR 430; 40 CFR 431

Abstract: EPA is revising the cost reasonableness test for BCT effluent limitations for primary and secondary industries, primarily food processors and light manufacturers. EPA issued a notice withdrawing the existing BCT limitations on February 17, 1982 (47 FR 6835). EPA proposed new BCT limitations for the affected industries, including seafood processing and meat packing, pulp and paper, timber, metal finishing, inorganic chemicals, ore mining, and leather tanning. EPA is making these revisions in response to a court decision. This revision also fulfills the request for review of the program by the President's Task Force on Regulatory Relief.

On September 20, 1984, EPA issued a notice of data availability concerning the proposed rule for best conventional pollutant control technology (BCT). This notice requested comments on new information that EPA is considering using in the final BCT methodology. The new information focuses on the cost of secondary and advanced secondary treatment at publicly owned treatment works. The comment period ended on January 3, 1985. Following analysis of the comments, EPA will publish a final BCT methodology.

81. REMOVAL OF OIL AND HAZARDOUS SUBSTANCE DISCHARGES

Legal Authority: 33 USC 1321 / CWA 311

CFR Citation: 40 CFR 111

Abstract: This regulation sets forth the methods and procedures for the

removal of oil and hazardous substances from inland waters of the United States, excluding the Great Lakes. Key elements of the regulation are voluntary removal guidelines for the proper removal and disposal of oil and hazardous substance discharges and mandatory provisions governing the use of chemical agents applied to discharges.

82. HAZARDOUS SUBSTANCES POLLUTION PREVENTION FOR FACILITIES SUBJECT TO PERMITTING REQUIREMENTS OF SECTION 402

Legal Authority: 33 USC 1321 / CWA 311

CFR Citation: 40 CFR 151

Abstract: This regulation's purpose is to prevent spills of hazardous substances into navigable waters. It sets forth requirements for the Spills Prevention Control and Countermeasure Plans for facilities which (a) are not related to transportation, (b) which store, manufacture or otherwise handle hazardous substances at their facilities, and (c) are subject to NPDES permits. The Agency will likely exempt any small facilities which store less than ten times the reportable quantities of spilled, hazardous substances.

84. NPDES PERMIT REGULATIONS FOR NONCOMPLIANCE AND PROGRAM REPORTING (REVISION)

Legal Authority: 33 USC 1342 / CWA 402

CFR Citation: 40 CFR 123.45

Abstract: This rule will revise certain program reporting requirements for the National Pollutant Discharge Elimination System (NPDES). It will revise the program requirements for quarterly noncompliance reports (QNCR) on major dischargers which are prepared by EPA Regions and NPDES States. The primary reason for this change in the QNCR is to establish a consistent basis for reporting noncompliance. The change should produce a more accurate and meaningful assessment of permit noncompliance by major dischargers within each State.

Legal Authority: 33 USC 1401 et seq /MPRSA

CFR Citation: 40 CFR 220 to 229

Abstract: These amendments are necessary to clarify the existing regulations, incorporate program experience gained over the past several years, provide additional regulatory and technical guidance in response to the City of New York decision (546 F. 2d 1084), and address the results of the NWF v. Costle decision (629 F, 2d 118) which involved dredged material issues. Regulations will involve multi-media issues, such as how to compare impacts on small entities (i.e., small business and small governmental jurisdictions) seem unlikely, the potential for such impact will be further considered as regulations are developed.

91. REVIEW OF GENERAL PRETREATMENT PROGRAM INFORMATION COLLECTION REQUIREMENTS

Legal Authority: 33 USC 1342(b) / CWA 402(b)

CFR Citation: 40 CFR 403

Abstract: The pretreatment program requires designated states, publicly-owned treatment works and their industrial users to collect data, submit reports and maintain records on pollutant dischargers, compliance actions, and related facilities descriptions. EPA is reviewing the reporting and recordkeeping requirements to determine if improvements can be made, such as increasing efficiency or eliminating unnecessary requirements. Where appropriate, the recommendations will either be incorporated into the amendments to relevant regulations and/or they will appear as part of EPA's revised policy and guidance documents.

104. NATIONAL PRIMARY DRINKING WATER REGULATIONS: MAXIMUM CONTAMINANT LEVELS FOR VOLATILE ORGANIC CHEMICALS FOUND IN DRINKING WATER

Legal Authority: 42 USC 300 / SDWA 1412

CFR Citation: 40 CFR 141

Abstract: EPA has proposed Recommended Maximum Contaminant Levels (RMCLs) and Primary Drinking Water Regulations to certain volatile synthetic organic compounds (VOCs). These VOCs have been most commonly found in drinking water drawn from groundwater sources. These chemicals include such compounds as trichloroethylene, tetrachloroethylene, and vinyl chloride. Aeration and granular activated carbon (GAC) systems are treatment technologies that can reduce these contaminants to a low level. Preliminary estimates show that average residential monthly bills for affected systems could rise from $1 - $14 depending on the size of the drinking water system and the type of technology selected. The Agency will promulgate RMCLs (i.e. nonenforceable health goals) before it promulgates the Maximum Contaminant Levels (MCLs) (i.e., enforceable standard). Monitoring and reporting requirements for these VOCs as well as other unregulated VOCs will be proposed.

105. NATIONAL PRIMARY DRINKING WATER REGULATIONS: INORGANIC AND ORGANIC COMPOUNDS AND MICROBIOLOGICAL CONTAMINANTS AND TURBIDITY (REVISION)

Legal Authority: 42 USC 300 / SDWA 1412

CFR Citation: 40 CFR 141

Abstract: The monitoring requirements and MCLs in the National Interim Primary Drinking Water Regulations will be comprehensively reviewed for inorganic and organic compounds, microbiological contaminants and turbidity and radionuclides. EPA will conduct an assessment of exposure, analytical methods, potential health effects, and the performance and costs of treatment technologies. The Agency will promulgate Recommended Maximum Contaminant Levels (RMCLs) as non-enforceable health goals, before it promulgates the maximum contaminant levels (MCLs) as enforceable standards.

106. NATIONAL PRIMARY DRINKING WATER REGULATIONS: FLUORIDE (REVISION)

Legal Authority: 42 USC 300 / SDWA 1412

CFR Citation: 40 CFR 141

Abstract: The Agency will assess the maximum contaminant level (MCL) for fluoride in the National Interim Primary Drinking Water Regulations to determine if it reflects potential health effects and the performance and cost of available treatment technologies. Based on statutory requirements and recent technical information, the Agency is considering numerous options.

107. UNDERGROUND INJECTION CONTROL PROGRAM: FEDERALLY ADMINISTERED PROGRAMS (PHASE II)

Legal Authority: 42 USC 300 / SDWA 1422

CFR Citation: 40 CFR 147

Abstract: EPA is required to prescribe an Underground Injection Control (UIC) program in states that do not have an approved UIC program. The Phase I UIC regulation will implement UIC programs in twenty-two states. This regulation will provide UIC programs for seven states and four Indian lands that are not included in the Phase I regulation.

Legal Authority: 42 USC 4904(b)(1) / NCA 5(b)(1); 42 USC 4905 / NCA 6(a)(1)

CFR Citation: 40 CFR 51

Abstract: This action withdraws certain products from the Agency's report identifying major noise sources issued under authority of Section 5(b)(1) of the Noise Control Act of 1972. These products are: Truck Transport Refrigeration Units, Power Lawn Mowers, Pavement Breakers, Rock Drills, Wheel and Crawler Tractors and Buses. This action also withdraws proposed noise regulations for Wheel and Crawler Tractors, and Buses, issued under the authority of Section 6(a)(1) of the Act.

Legal Authority: 42 USC 4917 / NCA 18

CFR Citation: 40 CFR 202

Abstract: This action proposes to amend the noise emission regulations for motor carriers engaged in interstate commerce. The amendment aligns the noise emission standards of this regulation with those of the regulation for newly manufactured medium and heavy trucks. The proposed revised standards apply only to trucks manufactured on or after January 1, 1978 (post-1977), that have a Gross Vehicle Weight Rating (GVWR) or a Gross Combination Weight Rating (GCWR) greater than 10,000 pounds.

111. ● FINAL CODIFICATION RULE FOR THE 1984 AMENDMENTS

Legal Authority: 42 USC 6901

CFR Citation: 40 CFR 260 to 271; 40 CFR 122 to 124

Abstract: The purpose of this rule is to codify in regulations those requirements specified by the 1984 amendments to RCRA which take effect immediately upon enactment. The new regulatory provisions will, by large, follow the language of the statute. The intent of this package is not to substantively elaborate on these statutory provisions, but rather to introduce the new statutory language verbatim, to the extent possible, into the existing regulatory framework. In general, the need for such codification is several fold. First, by placing the new statutory requirements in the context of our existing regulatory standards, we can eliminate confusion in the regulated community. Second, by providing public notice of these changes through publication in the Federal Register, the Agency ensures that there will be sufficient notice for enforcement purposes. Finally, these regulations provide a framework to support the development of elaborate guidance documents and future rulemakings.

More specifically, this rule addresses such areas as minimum technology requirements for land disposal facilities; corrective action for prior releases at solid waste management units; (cont)

CFR Citation: 40 CFR 264.314; 40 CFR 265.314

Abstract: The Agency will promulgate final regulations consistent with the Hazardous and Solid Waste Act of 1984. The final regulation will 1) minimize the placement of containers in landfills, 2) minimize the placement of free liquids in containers, and 3) prohibit the use of absorbents that biodegrade and release liquids when compressed.

Priority: Major

Legal Authority: 42 USC 6907 (a)(3) / RCRA 3000 as amended by HSWA; 42 USC 6944(a) / RCRA 3000 as amended by HSWA

CFR Citation: 40 CFR 257

Abstract: The Hazardous and Solid Waste Amendments of 1984 require EPA, by November 8, 1987, to submit a report to Congress on the adequacy of the RCRA 1008(a) and 4004 Criteria in protecting human health and the environment from ground-water contamination, and on the need for additional authorities to enforce the Criteria. EPA must revise the criteria by March 31, 1988, for facilities that may receive hazardous household waste or small quantity generator waste. The revisions will include ground-water monitoring, location restrictions, and corrective action, as appropriate.

CFR Citation: 40 CFR 261

Abstract: This regulation will add 122 chemicals to the list of commercial chemical products defined as hazardous when discarded. Thirty-five of these chemicals would be classified as acutely hazardous wastes, and the remaining 87 would be classified as toxic hazardous waste. In addition, 120 compounds would be classified as hazardous constituents; their presence in other waste could, in the future, serve as a justification for listing hazardous waste streams. 137. STANDARDS FOR THE MANAGEMENT OF SPECIFIC HAZARDOUS WASTES: WASTE OIL

Priority: Major

Legal Authority: 42 USC 6921 / RCRA 3001; 42 USC 6932 / RCRA 3002

CFR Citation: 40 CFR 266

Abstract: Pursuant to the requirements of the Used Oil Recycling Act (incorporated into RCRA by amendments in 1980 and 1984), the Agency is evaluating what types of regulatory controls should apply to the re-use and re-cycling of used oil. EPA will propose regulations based on these evaluations. In addition, the has proposed on January 11, 1985 interim controls including notification requirements for facilities that blend, distribute, and burn used oil fuel sold to non-industrial boiler owners.

CFR Citation: 40 CFR 261.24

Abstract: This action modifies the hazardous waste characteristics of extraction procedure (EP) toxicity. It amends the existing regulation (which regulates on the basis of total chromium) to a standard based on hexavalent chromium (CR (+6)). Recent studies indicate that Cr(3+) in water will convert to Cr (+6) if the water is chlorinated under conditions employed for disinfection purposes. Pending publication of a report on this study and review of public comments, no action will be taken on this proposal.

141. RCRA SMALL QUANTITY GENERATOR RULE (REVISION)

Priority: Major

Legal Authority: 42 USC 6921 / RCRA 3001

CFR Citation: 40 CFR 261 5

Abstract: Currently under Part 261 small generators of less than 1000 kilograms per month are exempt (although for certain more hazardous waste there are lower cut-off points). The Agency has begun a two-year study of alternatives which will result in an amendment to the current rule and proposal of a new set of standards applicable to small quantity generators. Congress, in amending RCRA, has lowered the 1000 kg/mo exemption which causes significantly more small businesses to come under the RCRA regulations.

Legal Authority: 42 USC 6924 / RCRA 3001, 3002, 3004, 3007, 3010, 3012

CFR Citation: 40 CFR 264

Abstract: Burning of hazardous waste in boilers for the purpose of heat recovery is currently exempt from regulation under RCRA. The Hazardous and Solid Waste Amendments of 1984 require the Agency to regulate the burning and blending of hazardous waste fuels. This regulation will set specifications for used oil fuel and prohibit the burning of hazardous waste and off-spec used oil in residential, commercial and institutional boilers. The regulations will also establish notification manifest and recordkeeping procedures for industrial boilers and furnaces burning hazardous waste and off-spec used oil.

148. IDENTIFICATION AND LISTING OF HAZARDOUS WASTES: TOXICITY CHARACTERISTIC MODIFICATION

Priority: Major

Legal Authority: 42 USC 6921 / RCRA 3001

CFR Citation: 40 CFR 261

Abstract: A number of chemicals will be selected that pose a health hazard such as CAG carcinogens, pesticides, and compounds found to cause damage (these chemicals and concentration levels will be added to the toxicity characteristics). Using ADI's and CAG risk values, waste concentration values would be derived which would yield hazardous exposure levels. This revision would require that each waste generator assess this waste to determine if the waste exhibits this toxicity characteristic; a positive finding would then require its management as a hazardous waste.

149. IDENTIFICATION AND LISTING OF HAZARDOUS WASTES: DELISTING PROCEDURES (REVISION)

Legal Authority: 42 USC 6921 / RCRA 3001

CFR Citation: 40 CFR 260.22

Abstract: Under the current waste regulations, a listed waste can be excluded (delisted) from the list of hazardous waste if it can be demonstrated that the waste is non-hazardous based entirely on the factors and constituents of concern used by the Agency to list the waste. This amendment would allow the Agency to consider factors other than those for which the waste was listed if it is reasonable to believe that such additional factors could cause the waste to be a hazardous waste.

Legal Authority: 42 USC 6921 / RCRA 3001; 42 USC 6924 / RCRA 3004; 42 USC 6922 / RCRA 3002

CFR Citation: 40 CFR 261

Abstract: This action updates the RCRA manual of approved test methods (test methods for Evaluating Solid Waste, SW-846) with respect to methods for ground water and incinerator monitoring. This action would codify the guidance given to the regulated community by requiring that these methods be used in all aspects of the RCRA program. At present the tests are required, as appropriate, for hazardous waste definition and for incinerator stack monitoring (for example, ground water monitoring and petitions for exclusion from regulation).

152. ● CODIFICATION RULE FOR THE L984 RCRA AMENDMENTS

Legal Authority: 42 USC 6901 /RCRA as amended by HSWA

CFR Citation: 40 CFR 260 to 271; 40 CFR 122 to 124

Abstract: The purpose of the rule is to codify those requirements specified by the 1984 amendments to RCRA which take effect immediately upon enactment. The new regulatory provisions will, for the most part, duplicate the language of the statue. The intent of this regulation is not to substantively elaborate on these statutory provisions, but rather to introduce the new statutory language verbatim, to the extent possible, into the existing regulatory framework. The need for the codification rule is threefold:

(1) By replacing the new statutory requirements in the context of our existing regulatory standards, we can eliminate confusion in the regulated community.

(2) By providing public notice of these changes through publication in the Federal Register the Agency ensures that there will be a sufficient notice for enforcement purposes.

(3) These regulations provide a framework to support the development of elaborative guidance documents and future rulemakings.

Legal Authority: 42 USC 6924 / RCRA 3004; 42 USC 6925 / RCRA 3005

CFR Citation: 40 CFR 264; 40 CFR 266

Abstract: General performance requirements will be established for hazardous waste management units which 40 CFR part 264 does not currently address. These types of facilities include deep mines, silos, salt mines, thermal treatment units, and open detonation units. This action will also create performance requirements for facilities engaging in hazardous waste research activities. EPA's objective is to encourage research and development of hazardous waste management technology while assuring environmental protection.

156. RESTRICTION OF LAND DISPOSAL OF CERTAIN HAZARDOUS WASTES: SOLVENT$, DIOXINS AND ESTABLISHING THE FRAMEWORK FOR EPA'S LAND DISPOSAL PROGRAM

Priority: Major

Legal Authority: 42 USC 6924 / RCRA 3004

CFR Citation: 40 CFR 268

Abstract: This rule establishes the framework for EPA's land disposal restrictions program including setting treatment standards for hazardous wastes prior to land disposal, procedures for filing petitions for ban exemptions, criteria for setting effective dates for bans, and procedures for case-by-case effective date extensions. It will also include decisions for solvents wastes (EPA waste codes F001- F005) and dioxin containing wastes (EPA waste codes FO21-FO23 and FO26-FO28).

CFR Citation: 40 CFR 122; 40 CFR 124; 40 CFR 264; 40 CFR 266

Abstract: This regulation will amend EPA's hazardous waste management permitting regulations by establishing a class permit application form for use by facilities whose only activity subject to RCRA permitting consists of storing in above-ground tanks or containers hazardous wastes that have been generated on-site. Promulgation of this rule would expedite the permitting process for this class of facility. This is the first RCRA class/permit the Agency will issue.

Priority: Major

Legal Authority: 42 USC 6924 / RCRA 3004/HSWA 208

CFR Citation: 40 CFR 264 H

Abstract: This rule would require owners and operators of hazardous waste disposal facilities to demonstrate financial responsibility for corrective action. Failures to undertake corrective action by owners or operators will result in increasing degradation of groundwater resources and increased clean-up costs to the public. Firms with low net worth may not be able to obtain or afford other financial assurance mechanisms as they are currently structured in 40 CFR Part 264, Subpart H. The Agency is examining the effects of a national fund and restructured financial assurance instruments.

Legal Authority: 42 USC 6924 / RCRA 3004, 3005

Abstract: Burning of hazardous waste in boilers for the purpose of heat recovery is currently exempt from regulation under RCRA. The Hazardous and Solid Waste Amendments of 1984 require the Agency to develop technical standards for the burning of hazardous waste fuels. This regulation will establish acceptable situations for use of hazardous waste fuel in industrial boilers and certain industrial furnaces. Abstract: The Agency is planning revisions to the existing Subpart G and H regulations in accordance with the terms of the American Iron and Steel Institute (AISI) litigation. Priority: Major

Legal Authority: 42 USC 6901 /RCRA 3004,HSWA 206

Legal Authority: 42 USC 6925 / RCRA 3005

CFR Citation: 40 CFR 270.42

Abstract: Existing regulations allow EPA to make specified minor modifications to existing RCRA permits without going through the draft permit and public participation procedures required to make more substantial changes to permits. Under the settlement agreement in NRDC v EPA, EPA is proposing an amendment which would expand the kinds of permit modifications that qualify as minor modifications and thus are exempt from most procedural requirements.

CFR Citation: 40 CFR 123; 40 CFR 264; 40 CFR 270.50

Abstract: Existing EPA regulations provide that EPA-issued permits for hazardous waste treatment, storage and disposal facilities are effective for a fixed term not to exceed ten years. Under the settlement agreement in NRDC v EPA, EPA is proposing to revise the regulation by making permits effective for the designed operating life of the facility. Permit terms for land disposal facilities would include the post-closure care period as well. EPA would also increase opportunities for the Agency to modify permits during their term. Section 3005(e) of RCRA was amended to prohibit the issuance of Lifetime permits. The Agency is proceeding to develop regulations on permit modifications.

169. AMENDMENT TO STATE PROGRAM CAPABILITY REQUIREMENTS

Legal Authority: 49 USC 6926 / RCRA 3006

CFR Citation: 40 CFR 271.16

Abstract: This action will amend 40 CFR 271.16 to require a State either to have administrative penalty authority or to request that EPA use its administrative penalty authority when warranted. The new requirements would apply to States that have received final authorization by operation of the "money target" rule, which will provide that a State has a year (two years of a statute must be changed) to comply with federal regulations promulgated after the State obtained final authorization.

170. ● STREAMLINING APPROVAL OF STATE PROGRAM REVISIONS

Legal Authority: 42 USC 6926 /RCRA 3006

CFR Citation: 40 CFR 271

Abstract: The Hazardous and Solid Waste Amendments of l984 (HSWA) result in a number of amendments to the Federal regulations at various intervals. Currently, each time any Federal regulatory amendment is made, authorized States must revise their programs in accordance with one of two procedures in 40 CFR 271.21 -- depending on whether the revision was considered "substantial" or "non-substantial"--in order to retain authorization. This revision to 40 CFR Part 271.21 would streamline the process for EPA review and approval of proposed State program revisions by eliminating the "substantial" distinction and replacing the two review procedures with one.

Legal Authority: 42 USC 6992 /RCRA 9002

CFR Citation: 40 CFR 280

Abstract: The HSWA requires owners of underground storage tanks holding regulated substances to notify state agencies by March 7, 1986 of the existence of these tanks; specifying the age, size, type, location, and use of the tank. EPA is required to prescribe a notification form to receive the

information. EPA will develop a rule that identifies those who must notify, the procedure for filing the notifications, and their content. Legal Authority: 42 USC 6993 /RCRA 9003

CFR Citation: 40 CFR Not yet determined

Abstract: This regulation will establish performance standards for new tanks holding petroleum and other hazardous substances. These new tank regulations will at least include new tank design, construction, installation, release detection, and compatibility standards. EPA will conduct a regulatory flexibility analysis to determine the impacts of this rule on small business entities. Abstract: This regulation will establish, under Subtitle I of RCRA, requirements for leak detection, prevention, and closure of underground tanks holding petroleum and other regulated substances. Because of the large size of the regulated community, this rule could impact a significant number of small business entities and a Regulatory Flexibility Analysis would be conducted by EPA. Promulgation of this rule, will, for the first time, establish national requirements for the storage of regulated substances, including, petroleum products in underground tanks. 178. REVIEW OF GROUNDWATER MONITORING

Legal Authority: 42 USC 6921 / RCRA 3001

CFR Citation: 40 CFR 265

Abstract: EPA is reviewing the interim status groundwater monitoring requirements for hazardous waste facilities that manage wastes in surface impoundments, in landfills or through land treatment. One purpose of this review is to determine whether the groundwater monitoring procedures succeed in identifying which facilities are adversely affecting groundwater. Another purpose is to review how useful the data is for EPA and other agencies. Legal Authority: 42 USC 7410 / CAA 110; 42 USC 7601 / CAA 301; 42 USC 7619 / CAA 319

CFR Citation: 40 CFR 58

Abstract: This action will revise Part 58 to clarify and incorporate changes to the regulations deemed appropriate as a result of the past four years of experience. One of the principal revisions will propose allowing 120 days after the end of each quarter instead of the current 90 days for the submittal of National Air Monitoring System (NAMS) air quality and precision data to EPA. The 90 days were too short a time period to properly validate the air quality data. Another revision will propose to use the 1980 census data and urbanized area boundaries instead of the 1970 values for network design and evaluation purposes.

201. RESTRUCTURE CFR PARTS 51, 52 (REVISION)

Legal Authority: 42 USC 7410 / CAA 110

CFR Citation: 40 CFR 51; 40 CFR 52

Abstract: This rule will revise 40 CFR 51, which specifies the requirements for the adoption, preparation, and submittal of state implementation plans. The revisions will delete obsolete provisions, reduce reporting requirements, and clarify portions. References to Part 51 within Part 52 will be similarly revised. Certain portions of Part 51 such as the PSD provisions will not be restructured at this time.

203. NSPS: STATIONARY INTERNAL COMBUSTION ENGINES

Legal Authority: 42 USC 7411 / CAA 111

CFR Citation: 40 CFR 60, Subpart FF

Abstract: These regulations will require the application of best available demonstrated technology to control nitrogen oxide emissions from stationary diesel and dual-fuel internal combustion engines. Some small oil drilling companies and municipal electric generation facilities may be affected by this standard. EPA will issue separate standards for gas and gasoline-fueled stationary I.C. engines later. The Agency is considering exempting engines with a displacement of less than 560 cubic inches per cylinder.

218. NSPS: AUTOMOBILE AND LIGHT-DUTY TRUCK COATING OPERATIONS (REVISION)

Legal Authority: 42 USC 7411 / CAA 111

CFR Citation: 40 CFR 60

Abstract: EPA is revising the NSPS for automobile and light-duty truck coating operations which was promulgated in December 1980 to reflect additional operational data of the best demonstrated prime coat system. This revision of the standard does not reflect a change in the basis of the prime coat standard, but a better understanding of the performance of the prime coat system upon which the standard was originally based.

Legal Authority: 42 USC 7411 / CAA 111

CFR Citation: 40 CFR 60

Abstract: The scope of the SOCMI reactor processes NSPS includes all reactor processes (other than air oxidation reactor processes) used to manufacture 182 synthetic organic chemicals produced in quantities of at least 100 million lb/yr. These large-volume chemicals account for about 90 percent of the total domestic chemical production from the SOCMI. Furthermore, production of these large-volume chemicals is expected to have the greatest impact on nationwide VOC emissions, since the magnitude of

emissions from reactor process units are generally proportional to chemical production rates.

Priority: Major

Legal Authority: 42 USC 7412 /CAA 112

CFR Citation: 40 CFR 61

Abstract: EPA is studying uranium mills and tailings to determine if standards under Section 112 of the CAA are appropriate, and, if so, the format for proposed standards. Methods of control of RN-222 releases will be studies for the active period of mill operation. Other radioactive releases during operation and all releases after closure are controlled by other EPA standards. Information was solicited through an ANPRM on October 31, 1984.

Legal Authority: 42 USC 7412 /CAA 112

CFR Citation: 40 CFR 61

Abstract: NESAHPs for underground uranium mines, proposed in April 1983 were withdrawn in October 1984 when EPA concluded that the proposed standard was not authorized under the CAA. An ANPRM was published at that time to announce that EPA was considering work practice standards. On December 11, 1984 a court order was issued to compel EPA to either promulgate standards in 120 days or delist radionuclides as hazardous air pollutants. EPA intends to comply with the court order.

244. "GUIDELINE ON AIR QUALITY MODELS" (REVISION)

Legal Authority: CAA 165(e)

CFR Citation: 40 CFR 51.24(1); 40 CFR 52.21(m)

Abstract: This action proposes to revise the "Guideline on Air Quality Models" (issued in April 1978) to reflect changes to the state-of-the-science of modeling and changes to current practice and policies. Revisions to the Guideline were developed in 1980 and public hearings were held. Based on public comments, EPA has conducted studies to resolve some issues. Additional evaluation studies of models, suggested by commenters and performed in accordance with the recommendations of the American Meteorological Society.

are underway. Early results of both are now available and should become part of EPA's guidance. The revised guideline should greatly reduce inconsistencies in the development and revision of emission limitations and in the determination of PSD increment consumption. New modeling procedures allow potentially greater accuracy in modeling results and the attainment of clean air goals at less cost.

Legal Authority: 42 USC 7521 / CAA 202, EPCA 301; 42 USC 7601; 15 USC 2001

CFR Citation: 40 CFR 86; 40 CFR 600

Abstract: This rule will develop emission standards and test standards and test procedures applicable to methanol-fueled light-duty vehicles, light-duty trucks and heavy-duty engines. Current regulations apply only to gasoline-fueled and diesel-powered vehicles. The lack of regulations is a hindrance to the development of methanol-fueled vehicles. This rule will also establish a methanol-gasoline equivalency factor for purposes of fuel economy testing.

246. IMPORTATION OF MOTOR VEHICLES AND MOTOR VEHICLE ENGINES (REVISION)

Legal Authority: 42 USC 7522 / CAA 203

CFR Citation: 40 CFR 85

Abstract: These revisions would allow only certified vehicles and engines to be imported, except that an individual may import an uncertified version for one time only. The purpose of this action is to improve the effectiveness and administration of EPA's present regulation. EPA will solicit additional comments on other ways these regulations may be revised with a supplemental NPRM.

247. NONCONFORMANCE PENALTIES FOR 1985 MODEL YEAR HEAVY-DUTY ENGINES (HDES)(PHASE I)

Legal Authority: 42 USC 7525(g) / CAA 206; 42 USC 7601(a) / CAA 206

CFR Citation: 40 CFR 86

Abstract: This regulation will allow manufacturers of 1985 HDEs to sell their engines even though they fail to meet 1985 and later model year regulatory requirements for specific pollutants, provided that emissions do not exceed a specified maximum level and that the manufacturer pays a nonconformance penalty for each HDE sold. The penalty will remove any competitive advantage of noncompliance and still provide manufacturers with an incentive to meet the standard. This regulation is being developed through a regulatory negotiation project. Phase I of this rulemaking will establish a generic structure for nonconformance penalties. Phase II will provide specific levels of nonconformance penalties and what pollutants they apply to.

Legal Authority: 42 USC 7527(g) / CAA 206; 42 USC 301(a) / CAA 206

CFR Citation: 40 CFR 86

Abstract: This regulation will allow manufacturers of 1985 light duty trucks over 6,000 pounds gross vehicle weight to sell their vehicles even though they fail to meet 1985 and later model year regulatory requirements for specific pollutants, provided that emissions do not exceed a specified maximum level and that the manufacturer pays a nonconformance penalty for each truck sold. The penalty will remove any competitive advantage of noncompliance. This regulation is being developed through a regulation negotiation project. 249. SMALL-VOLUME MANUFACTURERS CERTIFICATION PROCEDURE (REVISION)

Legal Authority: 42 USC 7401 / CAA 206

CFR Citation: 40 CFR 86

Abstract: This action will result in rules to provide for certification of emissions compliance for commercial importers and individuals importing vehicles into the United States. By a separate action, the Manufacturers Operations Division is revising its rules for individual vehicle importation. This action is necessary to provide an appropriate mechanism to import vehicles into the United States under certification regulations and assure their compliance with the exhaust emission standards. Current rules for small-volume manufacturers were not intended to apply to conversion of previously manufactured but uncertified configurations. However, increasingly large numbers of manufacturers who import vehicles for resale have applied for EPA certification as an alternative to individual vehicle importation. This will primarily impact small business organizations involved in importing motor vehicles. The likely impact of these changes will be increased costs to these organizations.

Legal Authority: 42 USC 7541(b) / CAA 207(b)

CFR Citation: 40 CFR 85

Abstract: This rulemaking will address the issue of establishing: (1) test procedures and standards for heavy-duty gasoline vehicles, (2) new standards for light-duty vehicles and light-duty trucks, and (3) alternative dynamometer loadings for the loaded short tests. These amendments are necessary so that owners of heavy-duty vehicles will have emissions warranty protection and owners of light-duty vehicles and trucks will be entitled to warranty protection.

Legal Authority: 42 USC 7541 /CAA 207(b)

CFR Citation: 40 CFR 85

Abstract: The U.S. Court of Appeals for the D.C. Circuit has directed EPA to amend the aftermarket parts certification regulations. There were four specific areas which the Court directed EPA to revisit. EPA was directed to develop better procedures for determining adequate grounds for manufacturer denial of a warranty claim; reconsider inclusion of specialty parts into the identification system, and improve the procedure for arbitration of warranty cost claims by vehicle manufacturers' against certified parts manufacturers.

CFR Citation: 40 CFR 80.22; 40 CFR 80.23

Abstract: This action will develop a "Preventative Action Program" to be used by gasoline retailers to help prevent self-serve fuel switching. Retailers will be afforded an affirmative defense to allegations of "allowing" fuel switching if they have effectively implemented this program. This action would also change the language of the fuel switching regulation to prohibit fuel switching in all vehicles designed to use unleaded gasoline, and not just those that still have an "unleaded only" label or fuel inlet restrictor.

Abstract: The NSPS program is a national program to develop and implement standards for emissions from new and modified stationary sources. EPA is reviewing the information requirements of five NSPS and conducting in-depth examinations of one of these standards. The purpose of the study is to assess the quality, utility, effectiveness, and efficiency of the information components. 260. ● FUEL AND FUEL ADDITIVES: BANKING OF LEAD RIGHTS

Legal Authority: 42 USC 7545 /CAA 211, 42 USC 7601(a) /CAA 301(a)

CFR Citation: 40 CFR 80

Abstract: EPA is planning to permit banking of lead usage rights for use or trading in future compliance periods. This banking will provide an efficient method of reducing total lead levels while allowing the industry greater flexibility to use more stringent lead levels. This rule should only have a beneficial impact on small entities.

281. NOTIFICATION OF RELEASE OF HAZARDOUS SUBSTANCES AND DETERMINATION OF REPORTABLE QUANTITIES

Legal Authority: 42 USC 9602 / CERCLA 102

CFR Citation: 40 CFR 302

Abstract: EPA is developing reportable quantities for hazardous substances under Section 102 of CERCLA that will trigger the requirements in Section 103 of CERCLA. The rulemaking also amends 40 CFR 117.3 to make the reportable quantities of each hazardous substance under CERCLA 102 the reportable quantity for that substance under CWA 311(b)(2).

282. ADJUSTMENT OF REPORTABLE QUANTITIES OF HAZARDOUS SUBSTANCES IDENTIFIED AS CARCINOGENS AND CHRONICALLY TOXIC SUBSTANCES (REVISION)

Legal Authority: 42 USC 96021 / CERCLA 102; 33 USC 1321 / CWA 311

CFR Citation: 40 CFR 302

Abstract: EPA has developed proposed determinations of reportable quantities under Section 102 of CERCLA that trigger the notification requirements of Section 103 of CERCLA. This rule will amend the regulation on Determination of Reportable Quantities for Hazardous Substances (40 CFR 302) to adjust the reportable quantities for hazardous substances identified as carcinogens and chronically toxic substances. This rule will also amend 40 CFR 117.3 to make these requirements applicable under CWA 311 (b).

283. AMENDMENTS TO THE NATIONAL OIL AND HAZARDOUS SUBSTANCES POLLUTION CONTINGENCY PLAN

Legal Authority: 33 USC 1321 / CWA 311

CFR Citation: 40 CFR 300.61

Abstract: These revisions will streamline the National Contingency Plan (NCP). This regulation will add provisions for consideration of community relations, address the use of environmental standards for determining appropriate response actions, clarify authorities and responsibilities of officials and Agencies involved in response.The agency is also considering different ways to advise the public of the status of Federal clean-up efforts at Federally-owned sites.

294. EMISSIONS TRADING POLICY (REVISION)

Legal Authority: 42 USC 7503 / CAA 110

CFR Citation: Not applicable

Abstract: EPA is refining the emissions trading policy governing the use of the bubble, emission offsets, netting, and emission reduction banking. This final policy and accompanying Technical Issues Document will provide states with a framework for incorporating emissions trading activities into their state implementation plans. Through the use of emissions trading industry can substitute more controls where costs are low for less control where costs are high. The final policy will clarify requirements and procedures based on experience under the 1982 interim policy -- particularly regarding baselines and modeling for bubbles, as well as bubbles in nonattainment areas with inadequate demonstrations.

Priority: Agency Determination

Legal Authority: 33 USC 1344 / CWA 404

CFR Citation: 40 CFR 124; 40 CFR 232, 40 CFR 233

Abstract: Under Section 404(g) of the Clean Water Act, EPA is responsible for approving and overseeing assumption of the 404 "dredge and fill" program by States. In response to comments from the States, EPA is revising its State program regulations (formerly part of the Consolidated Permit Regulations), to provide increased incentives and simplified procedures for State assumption of the Section 404 program.

297. ● DENIAL OR RESTRICTION OF DISPOSAL SITES (REVISION)

Legal Authority: 33 USC 1344 /CWA 404(c)

CFR Citation: 40 CFR 231

Abstract: This action will revise EPA's existing 404(c) regulations, in effect since October 9, 1979. It will establish the procedures to be used when EPA is considering the use of Section 404(c) of

the CWA to prevent the discharge of dredged or fill material into a defined area of the waters of the United States. Section 404(c) gives the Administrator authority to prohibit or withdraw the specification of a site as a disposal site or to deny or restrict use of a disposal site. Prior to 1983, we have taken only one 404(c) action. Since that time, we have initiated six such actions. In the preamble to the 404(c) regulations, we indicated that we would do an evaluation of these regulations within four years of the effective date. We delayed this evaluation in order to carefully consider our recent experiences with these regulations. This review is completed, and we plan to revise the regulations to reflect our findings.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Ch. XIV

Semiannual Regulatory Agenda

AGENCY: Equal Employment Opportunity Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Equal Employment Opportunity Commission is publishing its semiannual regulatory agenda pursuant to Executive Order No. 12291, 3 CFR 127 (1981 Compilation) and the Regulatory Flexibility Act, 5 U.S.C. Chapter 6. The Agenda contains all regulations which are scheduled for review or development during the next twelve months.

FOR FURTHER INFORMATION CONTACT: Nicholas M. Inzeo, Acting Associate Legal Counsel, Legal Services, Office of Legal Counsel, Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20507; telephone (202) 634-6592.

SUPPLEMENTARY INFORMATION: The Commission has identified 14 current and projected rulemakings for inclusion in the agenda. Also listed are six (6) regulatory items which are under review. Two items were added to the agenda since the last semiannual agenda was published; both are existing regulations under review.

Signed at Washington, D.C. this 26th day of February 1985.

For the Commission.

Clarence Thomas,

Chairman, Equal Employment Opportunity Commission.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION (EEOC) — Current and Projected Rulemakings

1. COLLECTION OF APPLICANT DATA FOR AFFIRMATIVE ACTION PURPOSES

Legal Authority: 29 USC 791 Rehabilitation Act of 1973, as amended

CFR Citation: 29 CFR 1613.706

Abstract: This amendment permits federal agencies to collect handicap information from applicants for employment in order to implement and evaluate special recruitment programs undertaken for affirmative action purposes. Implementation of the final regulation is dependent on the development of an interagency report form which is in the process of being developed by OPM with the approval of OMB.

Legal Authority: 42 USC 2000e-16 Section 717 of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1613

Abstract: Proposed amendments provide that an agency or the Commission may award a complainant reasonable attorney's fees and costs and backpay when an allegation of discrimination prohibited by Section 717 is resolved in favor of the complainant. Final regulations have been approved by the Commission and are in interagency coordination pursuant to Executive Order 12067. Changes to the Final regulations as a result of the interagency coordination are now being drafted.

4. COORDINATION OF FEDERAL EQUAL EMPLOYMENT OPPORTUNITY PROGRAMS

Legal Authority: EO 12067 Sec 1-303; EO 12067 Sec 1-304

CFR Citation: 29 CFR 1690

Abstract: These amendments to 29 CFR 1690 will implement an agreement reached by EEOC and the Department of Justice with the Office of Management and Budget which clarified the sequence to be followed when agencies are required to seek prepublication clearance of equal employment opportunity rules from EEOC under E.O. 12067, DOJ under E.O. 12250, and from OMB under E.O. 12291 and the Paperwork Reduction Act. In addition to clearance by the EEOC under E.O. 12067, equal employment opportunity rules issued under Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, as amended, or any other provision of Federal statutory law which prohibits discrimination under any program or activity receiving Federal financial assistance, require clearance from DOJ under E.O. 12250. Technical amendments are being coordinated with affected Federal agencies.

Legal Authority: 29 USC 628 Age Discrimination in Employment Act of 1967

CFR Citation: 29 CFR 1625.13; 29 CFR 1625.21

Abstract: The Department of Labor on January 9, 1969, published an interpretative guideline which provided that apprenticeship programs were not covered by the ADEA. On July 1, 1979, the Commission assumed responsibility and authority for enforcement of the ADEA. On September 29, 1981, the Commission republished the Department of Labor's guideline, 29 CFR 1625.13. After an exhaustive review of the ADEA and its legislative history, the Commission proposes to rescind 29 CFR 1625.13, as it presently exists, and promulgate a substantive rule providing that apprenticeship programs are covered by the ADEA. The extension of ADEA coverage to apprenticeship programs is consistent with the purpose of the Act. It will allow those forty years of age and older the same opportunities to participate in apprenticeship programs as are currently enjoyed by younger individuals.

15. UNIFORM GUIDELINES ON EMPLOYEE SELECTION PROCEDURES

Priority: Task Force

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1607

Abstract: UGESP Recordkeeping Provisions. On March 15, 1983, the Commission voted to review those portions of the recordkeeping provisions of the Guidelines which relate to the maintenance of data necessary to determine adverse impact. Pursuant to that vote, the Commission published in the Federal Register a notice seeking public comment in general and on several specific questions about UGESP recordkeeping. 48 Fed. Reg. 34766 (Aug. 1, 1983). Approximately 45 comments were received. The Commission is currently reviewing the comments and is considering further action. On June 12, 1984, the Commission voted to prepare an NPRM concerning certain UGESP recordkeeping requirements. Prior to

publication for comment, co-signatories to UGESP will engage in discussion of recommended changes and other affected agencies will be consulted under E.O. 12067.

16. RECORDKEEPING REGULATIONS

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1602

Abstract: The Commission proposes to revise its recordkeeping regulations to require certain employers and labor unions to maintain lists of applicants for employment and to retain employment records for two years or until termination of a Commission or court processing. The Commission is considering further revisions to the proposed amendments as the result of a study on the feasibility of a uniform government-wide equal opportunity recordkeeping regulation. The study on the feasibility of a uniform government-wide EEO regulation is complete and will require further consideration by staff. Commission action on UGESP will require staff to evaluate impact of proposed regulations on 1602 recordkeeping.

Abstract: On March 15, 1983, the Commission voted to review the recordkeeping portions of the Guidelines. During that review process, several questions arose which pertained to the substantive, non-recordkeeping provisions of the Guidelines. Consequently, the Commission decided to review the substantive portions of the Guidelines. The major substantive areas under review are: 1) the purpose of the Guidelines and whether there is still a need for the Guidelines; 2) the theory of adverse impact and the method of determining when such impact is significant; and 3) how to establish test validity. When the review is completed, the Commission will decide whether any regulatory revisions are needed.

Federal Emergency Management Agency

Semiannual Regulatory Agenda

FEMA

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Ch. I

Semiannual Agenda

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Semiannual agenda.

SUMMARY: Pursuant to section 5 of Executive Order 12291 (Federal Regulation) the Federal Emergency Management Agency is publishing its semiannual agenda for FEMA. The agenda lists regulations that will be under development or review during the period April 1, 1985 to April 1, 1986.

ADDRESS: Rules Docket Clerk, Office of General Counsel, Room 840, 500 C Street, S.W., Washington, D.C. 20472.

FOR FURTHER INFORMATION CONTACT: For general information contact William L. Harding, Assistant General Counsel, Legislation and Regulations, Office of General Counsel, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 646-4096. For additional information about a specific regulation contact the person listed as the contact point in the agenda.

SUPPLEMENTARY INFORMATION: Executive Order 12291, "Federal Regulation," directs each Executive agency to adopt procedures to improve existing and future regulations. Publication of an agenda of significant regulations is called for at least semiannually in order to give the public adequate notice of agency rulemaking activities; also publication of a regulatory flexibility agenda concerning rules likely to have a significant impact on a substantial number of small entities must be published in accordance with 5 U.S.C. 602 and 605.

In fulfillment of requirements imposed by the Executive Order and 5 U.S.C. 601 *et seq.*, this agenda describes current and projected regulations, and regulations which will be under review during the period April 1, 1985 to April 1, 1986. This agenda also contains information on regulations on which action was completed since the last FEMA semiannual agenda published October 22, 1984, 49 FR 42208.

Public comment on the agenda, including that by State and local governments, is invited and should be submitted to the Rules Docket Clerk.

The agenda is not limited to major or significant rules and contains as much information as possible concerning all FEMA regulations to be published in the next 12 months except for routine flood elevation determinations, listing of eligible communities under the National Flood Insurance Program, listing of suspended communities and similar designations.

DATED: February 20, 1985.

George Jett,

General Counsel.

5. FEDERAL DISASTER ASSISTANCE SUB-PART E PUBLIC ASSISTANCE

Legal Authority: 42 USC 5201

CFR Citation: 44 CFR 205.70 et seq

Abstract: This proposed rule makes changes in the FEMA disaster assistance regulations implementing the Disaster Relief Act of 1974 (PL 93-288). Changes are made in the eligibility of costs of public assistance to State and local governments. This is being done in recognition of the commitment to the disaster effort now being made by applicants in the form of cost sharing of eligible costs.

6. FLOOD PLAIN MANAGEMENT CRITERIA FOR FLOOD-PRONE AREAS

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: 44 CFR 59, 44 CFR 60

Abstract: A rule will be issued that will revise the minimum floodplain management standards that deal with the placement and anchoring of mobile homes in floodprone areas. The rule will be based on comments received in response to an ANPRM (Dec. 13, 1982, 47 FR 55752) and data gathered by a mobile home study that is now underway. Other changes may include revisions to requirements for elevation certificates on new structures and to clarify or eliminate minor inconsistencies in program requirements.

8. FLOOD INSURANCE PROGRAM ARRANGEMENTS WITH INSURANCE INDUSTRY

Priority: Undetermined

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: 44 CFR 61; 44 CFR 62

Abstract: Involvements of private industry will enable program to be carried out under highest insurance standards in use in private sector, benefit the policyholders with better service, the taxpayers with cost containment efficiencies in use in private sector. NFIP will also broaden its marketing base, thereby capturing more premium and improving its underwriting base via greater spread of the risk. Negligible costs are compensated for by increased marketing at no cost to government. Procedures will be provided for this involvement, known as the Write-Your-Own (WYO) program. These procedures will include the standard WYO arrangement, to be published, along with effective date, premium collection and premium refund rules conforming to the customary business practices of WYO companies in their other similar lines of property insurance business (e.g., homeowners); and other insurance business rules, as needed, to conform the provision of flood insurance coverage by WYO companies with their customary business practices.

9. FLOOD INSURANCE POLICY COVERAGE AND RATE CHANGES

Priority: Undetermined

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: 44 CFR 61; 44 CFR 64; 44 CFR 66; 44 CFR 70; 44 CFR 75

Abstract: As a result of a continuing reappraisal of the National Flood Insurance Program, coverage changes will bring the insurance contract more in line with property insurance policies in the private sector, make the program more responsive to victims of catastrophe flood loss and promote fiscal soundness. There will be an increase in emergency program rates and in the minimum premium. Co-insurance will be implemented for risks incurring repetitive losses. Flood-risk zone designations on flood insurance rate maps will be revised for consistency with the existing rate tables.

Priority: Undetermined

Legal Authority: 50 USC App 2253 Sec 201 Federal Civil Defense Act of 1950; Reorganization Plan No. 3 of 1978 (3 CFR 1979, Comp. p. 329); EO 12148

CFR Citation: 44 CFR Chapter I, Subchapter E

Abstract: Review 44 CFR and PL 81-920 Federal Civil Defense Act of 1950, as amended, to determine if a part is needed in 44 CFR pertaining to the development and implementation of a radiological protection program at Federal, State, and local levels of government. The Radiological Protection Program provides for the protection of the citizens and property from the radiological hazards including nuclear attack and technological threats, that are a potential threat to the jurisdiction. Radiation threat of nuclear attack is unique. No alternative to this program is being considered.

Funding for this program is provided by FEMA. The major benefit of this program is to provide all levels of government the capability to respond and survive a nuclear attack or peacetime radiological incident.

GENERAL SERVICES ADMINISTRATION

41 CFR Chs. 1, 101, 105, and 201

48 CFR Chs. 1 and 5

Unified Agenda of Federal Regulations

AGENCY: General Services Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that GSA plans for the next 12 months and those actions that were completed since October 1984. This agenda was developed under the guidelines in OMB Bulletin No. 85-6, dated December 13, 1984. GSA's purpose in publishing this agenda is to allow interested persons an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: William W. Hiebert, Chief, Directives and Reports Management Branch (202) 535-7647.

SUPPLEMENTARY INFORMATION: GSA has five priority regulations designated by the Agency. These regulations are listed under the category of current and projected rulemakings. Two regulations will have an effect on small businesses or other entities. These are listed under completed rulemakings. None of the regulations listed are considered major under Executive Order 12291, Federal Regulations.

February 27, 1985.

William A. Clinkscales,

Associate Administrator for Policy and Management Systems.

18. REVISION OF U.S. GOVERNMENT BILL OF LADING STANDARD FORMS

Legal Authority: 40 USC 486(c); 31 USC 3726

CFR Citation: 41 CFR 101-41

Abstract: This amendment prescribes the use of revised SF 1103, U.S. Government Bill of Lading (GBL); SF 1109, U.S. GBL Continuation Sheet, and SF 1131, U.S. Government Transit Bill of Lading. These revisions will make these transportation documents more efficient and more responsive to data information systems. To accomplish the provisions of this directive, there will be an outlay of resources by GSA to print the forms but this expenditure will be offset by income derived from purchases of these forms by other Federal agencies. The amendment will have no impact on the public.

Legal Authority: 31 USC 3701 to 3711; 31 USC 3726; 40 USC 486(c)

CFR Citation: 41 CFR 101-41

Abstract: This rule will enable Government agencies to collect by administrative offset when carriers fail to make refunds for totally unused passenger tickets in accordance with 41 CFR 101-41.210. It will also permit agencies to assess interest and penalties on delinquent refunds due the Government for totally unused tickets. It will further improve the efficiency of Government-wide efforts to collect debts owed the U.S. as prescribed by applicable Federal regulations.

Legal Authority: 31 USC 3726; 40 USC 486(c)

CFR Citation: 41 CFR 101-41

Abstract: This rule proposes to change the sequence of the Standard Form 1103, set U.S. Government Bill of Lading, by positioning one copy of SF 1103-A, Memorandum Copy, as the third form in the set and the remaining SF 1103-A's to be positioned following the SF 1103-B. 24. FEDERAL PROPERTY MANAGEMENT REGULATIONS; REVISES THE REPORTING REQUIREMENTS FOR REAL PROPERTY

Legal Authority: EO 12411

CFR Citation: 41 CFR 101-3

Abstract: This regulation revises FPMR 101-3 with changes and additions to the data elements currently collected as part of the World-Wide Real Property Inventory System. It also displays the revised forms to be used when supplying this information. These changes are necessary to monitor government-wide space reduction initiatives mandated by Executive Order 12411 - Government Work Space Management Reforms and Temporary Regulation D-70-Work Space Management Plans.

The General Services Administration has determined this is not a major rule for the purposes of Executive Order 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs to consumers or others; or significant adverse effects. Therefore, a Regulatory Impact Analysis has not been prepared. GSA has based all administrative decisions underlying this rule on adequate information concerning the need for, and the consequence of this rule; has determined that the potential benefits to society from this rule outweigh the potential (cont)

Legal Authority: 40 USC 486(c); 31 USC 3726

CFR Citation: 41 CFR 101-41

Abstract: This proposed amendment will add a provision to the "Terms and Conditions" section of SF 1103, U.S. GBL-Original, advising users that interest will be assessed on overcharges issued by GSA's Office of Transportation Audits. Due to the passage of a law that permits the Government to collect interest on debts owed to the U.S., steps are being taken to include such a provision in the FPMR's. This provision added to the GBL will serve as a notice to carriers of the Government's intent.

26. COLLECTION OF CLAIMS OWED THE UNITED STATES

Legal Authority: PL 97-365, Sec 10

CFR Citation: 41 CFR 105-55, (New)

Abstract: The regulations will implement the Debt Collection Act of 1982 within the General Services Administration. The regulations are required by Section 10 of the Act and by means of these regulations GSA will be better equipped to pursue claims owed to the Government arising out of GSA activities. Although the benefit will be improved claims collections, there is no way to precisely quantify the costs or benefits at this time.

Abstract: This rule updates GSA's policies and procedures concerning the Federal surplus personal property donation program. It would: (1) prescribe new and revised definitions; (2) implement Title IX of the Education Amendments of 1972; (3) change procedures for donating aircraft, drugs, biologicals, and reagents; (4) clarify cannibalization procedures; (5) add additional terms to the State agency distribution documents; (6) clarify that conditional title, not unrestricted title, passes to a donee at the time it takes possession of the property; (7) prohibit reimbursement to State agencies for certain sales expenses; (8) change reporting requirements; (9) establish an informal appeals procedure; and (10) revise eligibility criteria for educational activities. This amendment is necessary to comply with the provisions of Title IX of the Education Amendments of 1972, section 502(a) of Public Law 94-241, and the Congressional Reports Elimination Act of 1980 (Public Law 96-470). Its intent is to increase the efficiency and effectiveness of the

56. PERFORMANCE VALIDATION OF ADP SYSTEMS, PROJECT 84.80A

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 201-2; 41 CFR 201-24; 41 CFR 201-30

Abstract: Benchmarks are costly and difficult to use in the ADP acquisition selection process. In September 1982 GSA contracted with FEDSIM for a technical study of benchmarking and alternative performance evaluation techniques. Completed in May 1984 the study concluded that in some circumstances more cost-effective alternative performance validation techniques are indicated and recommended a revision to Federal regulations to discourage the use of benchmarking as a performance validation tool for low dollar ADP acquisitions. GSA plans to amend the FIRMR to allow agencies more freedom in selecting and using appropriate capability and performance validation techniques based on an assessment of the inherent risks of the technique and how those risks impact agency mission.

Additional Information: This project was originally titled "Benchmarking in the Selection of Automatic Data Processing." The objective was to raise the dollar threshold and develop criteria for benchmark use. The project was retitled "Performance Validation of ADPE Systems" when GSA review of the FEDSIM study indicated that selection and use of any performance validation technique (including benchmarking) should primarily be a function of the risks associated with the technique and the impact on agency mission and not just a function of the dollar value of the acquisition.

57. REVISION OF ACQUISITION AND MANAGEMENT PROVISIONS REGARDING THE CHANGING TELECOMMUNICATION MARKETPLACE, INCLUDING THE DETARIFFING OF CUSTOMER PREMISES EQUIPMENT (84.06A)

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 201-37

Abstract: This project revises FIRMR Provisions relating to Federal Telecommunications acquisition and management. It will include changes brought about by the Federal Communications Commission Computer II inquiry and the divestiture of AT&T. This regulation will provide an overview of GSA regulations and policies impacting Government-wide telecommunication management and will specifically address the need for requirements definition and analysis for local and intercity service. It will revise "major change" requirements and state what GSA needs from agencies if GSA is expected to provide services or if GSA is reviewing service for individual agency acquisitions. All obsolete provisions will be eliminated.

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 201-22; 41 CFR 201-45

Abstract: This regulation incorporates some of the records management provisions of FPMR 101-11 into FIRMR Subparts 201-22, Records Management Programs, and 201-45, Management of Records. It consists of those provisions for which GSA will retain responsibility under Public Law 98-497, effective April 1, 1985. In addition to reflecting the division of responsibilities between NARA and GSA, it is intended to reformat the material into the FIRMR numbering system. The final regulation will only contain substantive changes

regarding forms management, Standard and Optional forms, and interagency reports management. However, these changes will be based on proposed regulations that were previously circulated for public comments.

64. NONDISCRIMINATION IN FEDERAL FINANCIAL ASSISTANCE PROGRAMS

Legal Authority: Title VI of the Civil Rights Act of 1964; Section 504 of the Rehabilitation Act of 1973; Title IX of the Education Amendments of 1972, as amended; Sec 606 of the Fed Property & Admin Service Act of 1949; Age Discrimination Act of 1975, as amended

CFR Citation: 41 CFR 101-8

Abstract: The General Services Administration proposes this regulation to implement all of the above cited Federal laws. These statutes prohibit discrimination, in whole or in part, so that no person in the United States shall on the grounds of race, color, national origin, handicap, sex, or age be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal assistance from the General Services Administration. In addition, the objectives of the regulation are to streamline certain administrative procedural requirements by consolidating prohibitions of discrimination into one regulation and to make requirements clear and convenient for applicants and recipients to comply with, as well as making the regulation manageable for GSA to administer. This approach permits us to retain the substance of the prohibitions against discrimination, while reducing the cost of implementing and enforcing separate regulations for each of the four distinct laws for preventing discrimination.

Priority: Agency Determination

Legal Authority: 40 USC 486(c); EO 12411 48 FR 13391; 63 Stat 377; 40 USC 285; 40 USC 304c; 40 USC 601 et seq; 86 Stat 674; 40 USC 490 Note; 90 Stat 2505; 42 USC 4201 to 4244; 40 USC 531 to 535; 42 USC 3601; EO 12348; 42 USC 4321

CFR Citation: 41 CFR 101-16; 41 CFR 101-17

Abstract: This regulation provides procedures for the development and maintenance of planning information and reporting systems to ensure the efficient utilization of Federal work space and related furnishings. It implements E.O. 12411 and merges FPMR Temporary Regulation D-68, which pertained to space assignment and Utilization of GSA-Controlled Space, with FPMR Temporary Regulation D-70, which pertained to all Federal work space.

The regulation vests major responsibility for the achievement of efficient utilization of space with the Heads of Agencies. GSA's major roles include receiving the streamlined and simplified space inventory reports and establishing objectives for work space use for each agency.

Through the achievement of more efficient work space utilization the administrative costs of the Federal Government will be reduced.

United States International Development Cooperation Agency/Agency for International Development

Semiannual Regulatory Agenda

IDCA

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

22 CFR Ch. II

Federal Regulations; Agency Regulatory Agenda Semiannual Summary

AGENCY: Agency for International Development, IDCA.

ACTION: Agency regulations agenda.

SUMMARY: The Agency for International Development (A.I.D.) is publishing this Agenda as required by section 5(a) of Executive Order 12291, Federal Regulation (46 FR 13193, February 19, 1981) and by the Regulatory Flexibility Act (Pub. L. 96-354, September 30, 1980). This agenda reports the status of those regulations currently under review and gives A.I.D.'s plan for the issuance of proposed regulations during the next twelve months. It is expected that the information provided in this agenda will enable the public to be more aware of and more effectively participate in A.I.D.'s rulemaking process.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the agenda or the review list, in general, contact: Mr. Fred D. Allen, Office of Information Resources Management, Agency for International Development, Washington, D.C. 20523, Telephone (202) 632-3378.

Specific: For further information about any particular item on the agenda, contact the individual listed as the contact for that item.

Regulatory Flexibility Act (RFA): The Agency does not have any rulemaking activity that falls within the requirements of RFA and does not anticipate any during the next reporting period.

R. T. Rollis, Jr.,

Assistant to the Administrator for Management.

NONDISCRIMINATION ON THE BASIS OF SEX IN EDUCATION PROGRAMS AND ACTIVITIES RECEIVING OR BENEFITTING FROM FEDERAL FINANCIAL ASSISTANCE

Legal Authority: 20 USC 1681 to 1683; 20 USC 1686

CFR Citation: 22 CFR 219, (New)

Abstract: This regulation will address the problem of discrimination on the basis of sex in education programs and activities receiving or benefitting from financial assistance from the Agency for International Development. The regulation is intended to implement title IX of the Education Amendments of 1972, as amended. The regulation provides procedures for 1) assuring that such discrimination does not occur and 2) effecting compliance. The Agency is not considering any alternatives for addressing the problem. There will be some minor costs in administering the regulation; there are potential benefits to individuals who might otherwise be discriminated against.

DONATION OF DAIRY PRODUCTS TO ASSIST NEEDY PERSONS OVERSEAS (416 PROGRAM)

Priority: Agency Determination

Legal Authority: 7 USC 1431; PL 97-253, Sec 110

CFR Citation: 22 CFR 210, (New)

Abstract: This regulation sets forth provisions of the Agency for International Development (A.I.D.), acting as an Agent for the USDA/Commodity Credit Corporation (CCC), to carry out part of the responsibilities for selecting, approving, administering and implementing the Section 416 program of the Agricultural Act of 1949, as amended. This program will assist needy persons overseas and reduce surplus stocks of dairy products in CCC inventory. The donation of commodities under this new authority will be coordinated with, but not replace, assistance provided under the Agricultural Trade Development and Assistance Act of 1954, as amended, Pub. L. 83-480. The Agency is not considering any alternatives for addressing the problem. There are some minor costs in administering the regulation. The potential benefits will go to needy persons overseas.

UNITED STATES INTERNATIONAL DEVELOPMENT COOPERATION AGENCY/AGENCY FOR INTERNATIONAL DEVELOPMENT (IDCA) — Existing Regulations Under Review

NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS OF THE AGENCY FOR INTERNATIONAL DEVELOPMENT, -- EFFECTUATION OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

Legal Authority: 22 USC 2402

CFR Citation: 22 CFR 209

Abstract: The regulation will address the problem of discrimination on the basis of race, color, or national origin in any program or activity receiving assistance from the Agency for International Development. The regulation provides that no person in the United States on the ground of race, color or national origin, be excluded from participation in, be denied the benefits of or be subjected to discrimination under any program or activity receiving Federal financial assistance from AID. The regulation provides procedures for 1) assuring that such discrimination does not occur and 2) effecting compliance. The Agency is not considering any alternatives for addressing the problem. There will be some minor costs in administering the regulation; there are potential benefits to individuals who might otherwise be discriminated against.

● DEBARMENT AND INELIGIBILITY

Legal Authority: 22 USC 2381

CFR Citation: 22 CFR 208

Abstract: These regulations currently apply to debarment and suspension of AID-financed suppliers of commodities and commodity-related services. The amendment expands the coverage to include direct AID agreements (e.g. grants and cooperative agreements) and all AID-financed agreements (e.g., host country contracts). The amendment also implements and supplements 48 CFR 709.4 (49 F.R. 13240, April 3, 1984) with respect to procurement contracts and subcontracts.
